Radical Criminology International Library Of Criminology Criminal Justice And Penology:

Radical Criminology Michael J. Lynch, 1997 This text contains a variety of works that represent the radical tradition within criminology and criminal justice The essays provide some background into radical assumptions feature contemporary advances include empirical examinations and illustrate substantive issues Radical and Marxist Theories of Crime Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control Critique and Radical Discourses on Crime George Pavlich, 2019-07-12 This title was first published in 2000 Critique and Radical Discourses on Crime develops a unique line of thought in contemporary criminology re examining an under researched dimension of radical discourse In particular it focuses attention on the distinguishing feature of radical discourses their allegiance to various visions of critique The book reassesses the genres of critique evident in previous forms of radical criminology formulates a different genre of critique appropriate to the uncertainties of postmodern conditions and shows how these genres can be articulated to differently conceived radical discourses on crime The Fear of Crime Jason Ditton, Stephen Farrall, 2017-07-05 Studies of the fear of crime have constituted what is undeniably the fastest growing research area within criminology in the last decade and this shows no sign of diminishing The editors have a distinguished record of innovative research in the field being responsible for a number of seminal empirical and theoretical articles In this volume they have collected together and for the first time all the most significant contributions to the field The collection includes an introductory essay by the editors and articles reflecting an overview of the field the causes of vulnerability the sources of information on victimisation the methods used to survey fear the theoretical models employed to explain it and the nature of policies designed to reduce fear Crime and Deviance in Cyberspace David S. Wall, 2017-07-05 This volume presents the reader with an interesting and at times provocative selection of contemporary thinking about cybercrimes and their regulation The contributions cover the years 2002 2007 during which period internet service delivery speeds increased a thousand fold from 56kb to 56mb per second When combined with advances in networked technology these faster internet speeds not only made new digital environments more easily accessible but they also helped give birth to a completely new generation of purely internet related cybercrimes ranging from spamming phishing and other automated frauds to automated crimes against the integrity of the systems and their content In

order to understand these developments the volume introduces new cybercrime viewpoints and issues but also a critical edge supported by some of the new research that is beginning to challenge and surpass the hitherto journalistically driven news stories that were once the sole source of information about cybercrimes *Perspectives on Crime Reduction* Tim Hope, 2017-11-22 This title was first published in 2000 The papers in this volume are concerned with the prevention of crime Like other books in the International Library the text is intended primarily for reference by those who need to reflect upon what criminology has had to say about important contemporary concerns of criminal policy The papers present a kind of history of ideas which together trace the emergence of some key components of contemporary thinking about reducing crime

Gangs Jacqueline Schneider, 2017-11-30 The task of researching gangs is fraught with difficulties central to which are issues of definition and reliance on certain forms of data for analyses These methodological issues have been acknowledged as limitations in most of the existing research but they have not been explored as being potentially serious flaws contributing to the proliferation of myth or as aggravating factors that exacerbate what is essentially a relatively uncomplicated social process Also unclear from existing studies is the extent to which suppositions about gangs feed moral panics or contribute to the misidentification or over specification of a problem This captivating volume focuses on gangs their formation identity and behaviour with a view to developing a preventive strategy Recent Developments in Criminological Theory Scott A.

Lukas, 2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories Because of this the articles focus on theory rather than empirical research Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume

Insurgent Terrorism Gerald Cromer, 2017-11-30 Terrorists engage in propaganda and rhetoric even though they prefer the power of deed over word They use a wide variety of mechanisms of moral disengagement to convince themselves of the rightness of their actions a necessary prerequisite for taking up arms The articles collected together in this excellent volume focus on the rhetoric and propaganda used by insurgent terrorists to justify their resort to violence The volume includes a thoughtful introduction which summarizes the main findings of the literature drawing attention to the many different kinds of terrorist propaganda and the underlying similarity between them Domestic Violence Mangai Natarajan, 2017-05-15

Domestic Violence is not just a public health and criminal justice problem it is also an issue of universal human rights that

needs immediate and vigorous attention How we measure the prevalence of Domestic Violence what we identify as the risk factors which theories seem to provide most help in understanding and responding to Domestic Violence which preventive and treatment programs seem most effective and the respective roles of the health and criminal justice systems are all questions of vital importance in society's response to the problem *Women Police* Mangai Natarajan, 2017-11-22 The law of equal representation should enable men and women in policing to be equally valued and rewarded for the work they perform but it has been repeatedly shown that due to the great deal of opposition to the entry of women into policing women worldwide have been unable to fully integrate into this largely male profession Gender stereotypes have impeded the progress of women in policing and have played an unfortunate role in discriminating and devaluing their work However women make a valuable contribution to policing and the recognition and nurturing of their skills presents an important challenge to police management The introduction to the volume reviews the status of women officers worldwide and the integration progress made to date The important twenty four articles chosen for inclusion in this book document the need for women officers and describe the many barriers they face in being fully assimilated into policing This volume serves as a wake up call for police management to find ways to attract and retain women in the police force **Cyberspace Crime** D.S Wall, 2017-11-30 This book was published in 2003 This book is a collection of key texts that have contributed towards or have reflected the various debates that have taken place over crime and the internet during that past decade The texts are organised into three parts The first contains a number of viewpoints and perspectives that facilitate our broader understanding of cyberspace crime cybercrimes The second part addresses each of the major types of cybercrime trespass hacking cracking thefts deceptions obscenities pornography violence and illustrate their associated problems of definition and resolution The third and final part contains a selection of texts that each deal with the impact of cyberspace crime upon specific criminal justice processes the police and the trial process *Violent Night* Simon Winlow, Steve Hall, 2006-06-01 Why do our night time cities seem to mix pleasure with violence This is the time and place when cities are taken over by young men in search of alcohol drugs another club or a fight Current public policy has patently failed to keep on top of the new trends in both consumption and destruction which make urban centres simultaneously seductive and dangerous *Violent Night* uses powerful insider accounts to uncover the underlying causes and meanings of violence Interviews with the police the perpetrators and the victims of violence reveal the complex emotions that surround both the perpetration and resolution of crime *Violent Night* shows that a new approach is needed to successfully rehabilitate a culture struggling and failing to deal with nihilism and escalating hostility Green Criminology Rob White, Diane Heckenberg, 2014-02-03 Over the past ten years the study of environmental harm and crimes against nature has become an increasingly popular area of research amongst criminologists This book represents the first international comprehensive and introductory text for green criminology offering a concise exposition of theory and concepts and providing extensive geographical coverage diversity and

depth to the many issues pertaining to environmental harm and crime Divided into three sections the book draws on a range of international case studies and examples and looks at the conceptual and methodological foundations of green criminology before examining in detail areas of environmental crime and harm and how they are addressed including climate change and social conflict abuse and harm to animals threats to bio diversity pollution and toxic waste environmental victims environmental regulation law enforcement and courts environmental forensic studies environmental crime prevention Green Criminology is packed with pedagogical features including dialogue boxes case examples discussion questions and lists of further reading and is perfect for students around the world engaged with green criminology and crime against the environment

A Research Agenda for Global Crime Tim Hall,Vincenzo Scalia,2019 This multidisciplinary collection of essays by leading international scholars explores many pressing issues related to global crime The book opens with essays that look across this diverse terrain and then moves on to consider specific areas including organised crime cyber crime war crimes terrorism state and private violence riots and political protest prisons sport and crime and counterfeit goods The book emphasises the centrality of crime to the contemporary global world and mobilises diverse disciplinary positions to help understand and address this
