Radical Feminist Therapy Working In The Context Of Violence:

Radical Feminist Therapy Bonnie Burstow, 1992-10-08 This is an interesting book It may be useful for those who have not followed the debate on the experience of women in psychiatric services It provides useful information on ways of working with more disturbed women These are women whom psychiatric services often avoid or at least with whom they do little constructive work The emphasis on offering therapy to these women instead of a bed in an institution was refreshing Andrea Bennett in Clinical Psychology Forum How can counselors and clinicians help empower women in a sexist racist and homophobic society How can they help women reclaim their bodies Or repair their violated bond with womenkind Taking feminist therapy one step further this enlightening volume focuses on a central problem in our society violence against women and explores practical feminist ways of working with women s responses to it depression cutting splitting troubled eating and protest Radical Feminist Therapy explores issues that are usually either omitted or pathologized in generalist feminist counseling texts such as women battered by their pimps women who self mutilate and psychiatrized women Other topics covered are working with lesbians American Indian African American Jewish and immigrant women women with disabilities working with heterosexual couples sexual violation by therapists and working with suicidal clients A list of recommended readings follows each chapter Radical Feminist Therapy addresses the needs of both students and practitioners in the areas of psychology counseling social work and women s studies who desire a comprehensive enlightening text they will refer to again and again Burstow s book should prove very useful as a resource for practitioners in a wide variety of areas dealing with violence against women The first part of the book presents the theoretical foundations the remaining 12 chapters integrate theory and practice Written from a well articulated radical feminist position the text is grounded in structuralist theory that situates problems in living within the systematic oppressions of classism sexism and racism Respect for women and for their right to make their own decisions in therapy permeates the text Choice This book fills a gap in the literature addressed by no other publication I have seen There are numerous theoretical books on feminist counseling or therapy But I have seen nothing which moves from theory to clear practical suggestions on what to do and how to do it when working with women on different problems Bonnie begins by presenting a clear feminist framework in which she sees violence against women in our society as the central problem in all women s lives She explains how this core issue plays itself out in different areas of women s lives and how it is central to the personal problems women struggle with She then goes on to give practical concrete suggestions about how to actually work with women in therapy She warns readers of common pitfalls and how to avoid them It is an extremely cohesive and useful piece of work Linda Advokaat Feminist Counselor Sessional Instructor Carleton University Ottawa Canada As a presentation of theory translated into casework this is the best I have seen in its field a deft integration of politics and philosophy made relevant and workable in the chosen context Counselling

Faith in a Pluralist Age Kaye V. Cook, 2018-03-14 Most academics agree with Peter Berger that pluralism theory appears more accurate than secularization theory in accounting for the societal changes that accompany modernization Yet Berger s earlier book *Many Altars of Modernity* gives limited attention to the implications of the pluralist paradigm for religious discourse in particular for evangelicals According to Berger who wrote the first chapter in this book while pluralism leads to less certainty about faith and creates secular spaces it also more positively clarifies the importance of trust in God highlights the nature of religious institutions as voluntary associations rather than birth rights and challenges Christians to know what they believe in Subsequent chapters respond to the first Four responses are theoretical e g challenging the concept of secular spaces exploring social constructionism and four are contextual e g describing anti pluralist forces in India challenging feminists to pluralism examining women s responses to pluralism and exploring values in Brazil and China The ideas are easily accessible to the lay reader and are intended to initiate a much needed conversation about the implications of pluralist theory We conclude that pluralism is challenging for Christian faith but as Peter Berger says in most ways it is good for you With contributions from Peter Berger Bruce Wearne Roger Olson Paul Brink James Skillen Tal Howard Ruth Groenhout Ruth Melkonian Hoover Si Hua Chang Taylor Marie Funchion

Sharing Breath Sheila Batacharya, Yuk-Lin Renita Wong, 2018-10-31 Treating bodies as more than discursive in social research can feel out of place in academia As a result embodiment studies remain on the outside of academic knowledge construction and critical scholarship However embodiment scholars suggest that investigations into the profound division created by privileging the mind intellect over the

body spirit are integral to the project of decolonization The field of embodiment theorizes bodies as knowledgeable in ways that include but are not solely cognitive The contributors to this collection suggest developing embodied ways of teaching learning and knowing through embodied experiences such as yoga mindfulness illness and trauma Although the contributors challenge Western educational frameworks from within and beyond academic settings they also acknowledge and draw attention to the incommensurability between decolonization and aspects of social justice projects in education By addressing this tension ethically and deliberately the contributors engage thoughtfully with decolonization and make a substantial and sometimes unsettling contribution to critical studies in education *Mad Matters* Brenda A. LeFrançois, Robert Menzies, Geoffrey Reaume, 2013 In 1981 Toronto activist Mel Starkman wrote An important new movement is sweeping through the western world The mad the oppressed the ex inmates of society s asylums are coming together and speaking for themselves *Mad Matters* is the first Canadian book to bring together the writings of this vital movement which has grown explosively in the years since With contributions from scholars in numerous disciplines as well as activists and psychiatric survivors it presents diverse critical voices that convey the lived experiences of the psychiatricized and challenges dominant understandings of mental illness The connections between mad activism and other liberation struggles are stressed throughout making the book a major contribution to the literature on human rights and anti oppression
