Vol. 1* Denis Richards, 1953 **RAF Fighter Command 1936-1968** Norman L. R. Franks, 1992 *Prelude to War* Martin Derry, 2020-09-30 Through the use of contemporary photographs and informative captions *Prelude To War The RAF 1936 1939* chronicles many of the RAF s aircraft that continued to serve in the years immediately preceding the start of hostilities in 1939 a period of rapid technological change and mechanical innovation at a time when many European nations held their collective breath as yet again they witnessed the steady rise of German militarism and ultimately conquest Forced to take note of this emerging threat the British government authorized a policy of modernizing and re equipping Britain s armed forces This process frequently confusing and fitful was by 1936 taking shape with the RAF at the forefront of modernization although as Winston Churchill solemnly noted in 1937 It was no longer in our power to forestall Hitler or to regain air parity Nothing could now prevent the German Army and the German Air Force from becoming the strongest in Europe we could only improve our position We could not cure it To this day isolated perceptions still linger to the effect that by September 1939 the RAF had become an all monoplane force with Fighter Command fielding countless squadrons of Hurricanes and Spitfires ready to overwhelm any enemy insolent enough to enter British skies Similarly the same perceptions suggest that a confident Bomber Command stood ready to darken German skies with armadas of modern bombers These notions were wide of the mark such was the power of propaganda Certainly numbers of monoplanes did exist but until the aircraft industry could expand to cope with the demands of a modern war fleets of obsolescent biplanes had to be employed in secondary roles with others remaining in the front line until monoplanes could replace them there was no other choice It is hoped that this modest work will shed light on some of the RAF s better known aircraft of the period but more particularly upon those that remain virtually unknown today and which might be described as having also ran *RAF bomber command... aircraft. Vol.1. 1936-40* James Goulding, Philip J. R. Moyes, 1975 *The RAF and Aircraft Design, 1923-1939* Colin Sinnott, 2001 This work describes the vital role of the Air Ministry in the development of the RAF s fighters and bombers before WWII **The RAF**

and Aircraft Design Colin S Sinnott,2014-05-22 This work examines the evolution of the RAF s operational requirements for its home defence air force for bombers to mount a deterrent counter offensive and for fighters to provide direct defence of Britain It discusses the management processes policies and decisions relevant to operational requirements on the basis of a detailed study of Air Ministry papers of the time By tracing the development of operational requirements the author exposes the thinking behind the RAF s quest for effective fighter and bomber aircraft He describes the ideas and concepts of air warfare that were adopted in the 1920s and shows how these evolved into the Air Staff s requirements for the aircraft which the RAF entered and fought in World War II
