Bernard Nietschmann Edmund Gordon and Charles Hale *The Miskitu People of Awastara* makes its own original contribution. It is the first full length study of a coastal Miskitu community north of Puerto Cabezas contrasting life before and after the war years of the 1980s. The Role of Female Combatants in the Nicaraguan Revolution and Counter Revolutionary War Martín Meráz García, Martha L. Cottam, Bruno M. Baltodano, 2019-01-08. The revolution in Nicaragua was unique in that a large percentage of the combatants were women. *The Role of Female Combatants in the Nicaraguan Revolution and Counter Revolutionary War* is a study of these women and those who fought in the Contra counter revolution on the Atlantic Coast. This book is a qualitative study based on 85 interviews with female ex combatants in the revolution and counter revolution from the 1960s to the end of the 1980s as well as field observations in Nicaragua and the autonomous regions of the Atlantic Coast. It explores the reasons why women fought, the sacrifices they made, their treatment by male combatants and their insights into the impact of the revolution and counter revolution on today's Nicaragua. The analytical approach draws from political psychology, social identity dynamics such as nationalism and indigenous identities and the role of liberation theology in the willingness of the female revolutionaries to risk their lives. Researchers and students of Gender Studies, Latin American and Latino Studies and Political History will find this an illuminating account of the Nicaraguan Revolution and counter revolution which until now has been rarely shared.

Omar Cabezas, Nicaragua, and the Narrative of Liberation José María Mantero, 2019-06-26. Throughout his political and military career Omar Cabezas fought to transform Nicaragua to implement the ethics that had led him to participate in the armed struggle against Anastasio Somoza's regime and to be active during the 1980s and 1990s as a member of the National Congress. *Omar Cabezas, Nicaragua and the Narrative of Liberation* To the Revolution and Beyond surveys the foundations of liberation discourse as it relates to the work of Omar Cabezas. It examines themes associated with Nicaraguan and Latin American culture and literature considering key issues of national liberation and identity in the wake of the Sandinista revolution. By contextualizing the research within a continental and national perspective and using concepts such as utopia, orality and humor to frame the discussion on national liberation, Mantero shows the symbiotic relationship between the work of Cabezas and the reformulation of Nicaraguan identity in the post revolution.

Indigenous Peoples and Globalization Thomas D. Hall, James V. Fenelon, 2015-12-03 The issues native peoples face intensify with globalization Through case studies from around the world Hall and Fenelon demonstrate how indigenous peoples movements can only be understood by linking highly localized processes with larger global and historical forces The authors show that indigenous peoples have been resisting and adapting to encounters with states for millennia Unlike other antiglobalization activists indigenous peoples primarily seek autonomy and the right to determine their own processes of adaptation and change especially in relationship to their origin lands and community The authors link their analyses to current understandings of the evolution of globalization

Blood on the Border Roxanne Dunbar-Ortiz, 2016-08-03 Human rights activist and historian Roxanne Dunbar Ortiz has been described as a force of nature on the page and off That force is fully present in *Blood on the Border* the third in her acclaimed series of memoirs Seamlessly blending the personal and the political *Blood on the Border* is Dunbar Ortiz's firsthand account of the decade long dirty war pursued by the Contras and the United States against the people of Nicaragua With the 1981 bombing of a Nicaraguan plane in Mexico City a plane Dunbar Ortiz herself would have been on if not for a delay the US backed Contras short for los contrarrevolucionarios launched a major offensive against Nicaragua's Sandinista regime which the Reagan administration labeled as communist While her rich political analysis of the US Nicaraguan relationship bears the mark of a trained historian Dunbar Ortiz also writes from her perspective as an intrepid activist who spent months at a time throughout the 1980s in the war torn country especially in the remote northeastern region where the Indigenous Miskitu people were relentlessly assailed and nearly wiped out by CIA trained Contra mercenaries She makes painfully clear the connections between what many US Americans today remember only vaguely as the Iran Contra affair and ongoing US aggression in the Americas the Middle East and around the world connections made even more explicit in a new afterword written for this edition A compelling important and sobering story on its own *Blood on the Border* offers a deeply informed closely observed and heartfelt view of history in the making

The Ends of Modernization David Johnson Lee, 2021-08-15 The Ends of Modernization studies the relations

between Nicaragua and the United States in the crucial years during and after the Cold War David Johnson Lee charts the transformation of the ideals of modernization national autonomy and planned development as they gave way to human rights protection neoliberalism and sustainability Using archival material newspapers literature and interviews with historical actors in countries across Latin America the United States and Europe Lee demonstrates how conflict between the United States and Nicaragua shaped larger international development policy and transformed the Cold War In Nicaragua the backlash to modernization took the form of the Sandinista Revolution which ousted President Anastasio Somoza Debayle in July 1979 In the wake of the earlier reconstruction of Managua after the devastating 1972 earthquake and instigated by the revolutionary shift of power in the city the Sandinista Revolution incited radical changes that challenged the frankly ideological and economic motivations of modernization In response to threats to its ideological dominance regionally and globally the United States began to promote new paradigms of development built around human rights entrepreneurial internationalism indigenous rights and sustainable development Lee traces the ways Nicaraguans made their country central to the contest over development ideals beginning in the 1960s transforming how political and economic development were imagined worldwide By illustrating how ideas about ecology and sustainable development became linked to geopolitical conflict during and after the Cold War *The Ends of Modernization* provides a history of the late Cold War that connects the contest between the two then prevailing superpowers to trends that shape our present globalized multipolar world

young bohemian artists rushed to the newly formed Nicaraguan national film institute INCINE to contribute to the recovery of national identity through the creation of a national film project Over the next eleven years the filmmakers of INCINE produced over seventy films documentary fiction and hybrids that collectively reveal a unique vision of the Revolution drawn not from official FSLN directives but from the filmmakers own cinematic interpretations of the Revolution as they were living it This book examines the INCINE film project and assesses its achievements in recovering a Nicaraguan national identity through the creation of a national cinema Using a wealth of firsthand documentation the films themselves interviews with numerous INCINE personnel and INCINE archival records Jonathan Buchsbaum follows the evolution of INCINE s project and situates it within the larger historical project of militant revolutionary filmmaking in Latin America His research also raises crucial questions about the viability of national cinemas in the face of accelerating globalization and technological changes which reverberate far beyond Nicaragua s experiment in revolutionary filmmaking
