## **Rain Stops Play Cricketing Climates:**

**Rain Stops Play** Andrew Hignell, 2002 This volume looks at the fundamental geography of cricket especially in England where the game is played by county sides **Rain Stops Play** Andrew Hignell, 2013-01-11 A geographical history of cricket in England and Wales in a global context **Sport in South Asian Society** Boria Majumdar, J A Mangan, 2013-09-13 A

detailed study of sports arrival spread and advance in colonial and post colonial South Asia A selection of articles addresses critical issues of nationalism communalism commercialism and gender through the lens of sport This book makes the point that the social histories of South Asian sport cannot be understood by simply looking at the history of the game in one province or region Furthermore it demonstrates that it would be wrong to understand sport in terms of the exigencies of the colonial state Drawing inspiration from C L R James well known epigram What do they know of cricket who only cricket know the findings suggest that South Asian sport makes sense only when it is placed within the broader colonial and post colonial context The book demonstrates that sport not only influences politics and vice versa but that the two are inseparable Sport is not only political it is politics intrigue culture and art To deny this is to denigrate the position of sport in modern South Asian society This volume was previously published as a special issue of The International Journal of the History of Sport **BBC**

**Sport in Black and White** Richard Haynes, 2016-11-17 This book provides the first detailed account of the formative decades of BBC televised sport when it launched its flagship programmes Sportsview Grandstand and Match of the Day Based on extensive archival research in the BBC's written archives and interviews with leading producers editors and commentators of the period it provides a behind the scenes narrative history of this major institution of British cultural life In 2016 the BBC celebrated the fiftieth anniversary of its television coverage of England's World Cup victory Their coverage produced one of the most oft played moments in the history of television Kenneth Wolstenholme's famous line Some people are on the pitch they think it's all over it is now as Geoff Hurst scored England's fourth goal securing England's 4-2 victory It was a landmark in English football as well as a watershed in the BBC's highly professionalised approach to televised sport How the BBC reached this peak of television expertise and who was behind their success in developing the techniques of televised sport is the focus of this book **Crafting Patriotism for Global Dominance** Mark Dyreson, 2013-10-18 In 2008

China plans to use the Olympic Games to remake its national identity in the global marketplace In so doing China treads the path blazed by the United States For more than a century the U S has used the Olympic Games to construct national identity create communal memory and craft patriotic mythology From opening parades where the American team refuses to dip its flag in order to signal American exceptionalism to the closing ceremonies where the U S media trumpet that their team owes its medals not to superior athleticism but to the nation's peerless social and political systems Olympic Games have served as sites to bolster American nationalism More than any other nation the United States has politicized its Olympic participation In the process a host of myths about American superiority in global encounters has emerged through the Olympics In

memorializing and mythologizing their Olympic teams Americans have revealed the contours of the racial gender and class dynamics that animate their peculiar nationhood These essays explore the history of expressions of American national identity in Olympic arenas This book was published as a special issue of the International Journal of the History of Sport

**American Sports** Alan Klein, 2013-09-13 This collection illustrates the expansiveness of an interdisciplinary approach to the study of sport While rooted in anthropology these essays consider American sports in their social economic cultural and political aspects charting their evolution The book draws from history sociology and political science as well as considering the relationship between the developed and developing world and culture and masculinity The first part of the book considers the local and global interplay of professional baseball covering Major League Baseball's impact on the Dominican Republic nationalism and baseball on the Mexican US border the globalizing forces of baseball as an industry The second part of the book is concerned with the cultural examination of the responsiveness of masculinity to social and cultural forces examining the exaggerated world of bodybuilders in Southern California the cross cultural comparisons of male behaviour on a bi national baseball team in Mexico the historical examination of Jews in American sport This book was previously published as a special issue of Sport in Society

**Beijing 2008: Preparing for Glory** J.A. Mangan, Dong Jinxia, 2013-09-13 Beijing 2008 Preparing for Glory Chinese Challenge in the Chinese Century brings together international scholars with an interest in sport and politics and sinologists with an interest in China past present and future to explore global reaction to the Beijing Olympics China's anticipated moment of glory on the world stage The Beijing Olympics was first and foremost a political act of assertion It was also a statement of national intent the culmination of ideological effort going back to 1949 and the outcome of political social cultural and economic change From the moment of the birth of the New China sport has been viewed as a means of internal and external projection illustrating the capacity of the system and people to more than hold their own with those of other nations In short sport has been the chosen stage on which the Chinese perform in pursuit of world recognition respect and esteem This assertion is not hard to understand China's century of humiliation at the hands of first the West and then Japan remains a traumatic experience Beijing 2008 was to assist the restoration of China's national self esteem He Zhenliang Chairman of the IOC Commission for the Culture of Olympic Education has remarked pointedly that the most significant outcome of the Beijing Games will be the elevation of the self confidence and sense of pride of the Chinese people Beijing 2008 was an act of political self renewal on the world stage This Collection demonstrates that sport is inseparable from politics This book was previously published as a special issue of the International Journal of the History of Sport

**Globalised Football** Nina Clara Tiesler, Joao Nuno Coelho, 2013-10-31 When studying the social phenomena in and around football five major aspects of globalisation processes become evident international migration the global flow of capital the syncretistic nature of tradition and modernity in contemporary culture new experiences of time and space and the revolution in information technologies In an exploration of these themes the collection provides insight into academic studies

of football in Portugal Germany England Spain Brazil Angola Mozambique China Japan South Korea Russia and the USA At examining football related phenomena under the headings of nations and migration myths and business the city and the dream it shows how modernised football itself is object and subject in processes of both neo liberal globalisation and counter hegemonic globalisation While the contributions highlight characteristics of particular local and national contexts the volume focuses on global centre periphery relations and migration trajectories of football professionals by analysing recent developments in post colonial Portuguese speaking areas The high ranking of Portuguese football not only serves in nationalist discourses or in order to emancipate the country from a marginal position it also turns Portugal into a football talent exporter confronting it partly with the same ambiguous consequences as Brazil and the African countries who lose their football talents to the European centre The receiving countries again include Portugal This book was previously published as a special issue of Soccer in Society     *Sport and Foreign Policy in a Globalizing World* Steven J. Jackson, Steven Haigh, 2013-10-18 Globalization is effecting a close convergence of sport and foreign policy In order to respond to novel social political cultural and economic pressures states are increasingly turning to sport as a foreign policy instrument and they cannot ignore the corresponding influence that global sport has on their core interests This book is devoted to exploring this relationship in detail Although any examination of sport and foreign policy inevitably focuses on issues related to both politics and international relations the primary intention here is to consider the dimensions associated with foreign policy This book was previously published as a special issue of Sport in Society     Emigrant Players Paul Darby, David Hassan, 2013-10-18 Ireland and its inhabitants have often been described as being sports mad As a relatively small geographical entity Ireland north and south has produced a disproportionately high number of world class sports men and women who have excelled at the highest levels of their chosen sport The significance of sport in Ireland though extends far beyond the achievements of such individuals Sport has historically assumed a centrality in the lives of the island's inhabitants a fact that can be measured by the numbers and commitment of participants as well as the emotional and financial investment of fans This book seeks to address the ways in which Irish aptitude and ebullience for sport has manifested itself in those parts of the world that have or have had relatively large Irish communities The first part of the book explores the diffusion of Gaelic games to a number of centres of Irish immigration and examines the social economic political and psychological impact that these games had in helping the Diaspora adjust to life in what were often inhospitable environs The second part of the book extends the analysis by examining the contribution of Irish sports men and women to the sports culture that they encountered in their new homes and assessing the ways in which their involvement in these sports allowed them to come to terms with and make their way in their new locales This book was previously published as a special issue of the journal Sport in Society     Representing the Nation Claire Brewster, Keith Brewster, 2013-10-31 Mexico City's staging of the 1968 Olympic Games should have been a pinnacle in Mexico's post revolutionary development a moment when a nation

at ease with itself played proud host to a global celebration of youthful vigour Representing the Nation argues however that from the moment that the city won the bid the Mexican elite displayed an innate lack of trust in their countrymen Beautification of the capital city went beyond that expected of a host It included the removal of undesirables from sight and the sponsorship of public information campaigns designed to teach citizens basic standards of civility and decency The book's contention is that these and other measures exposed a chasm between what decades of post revolutionary socio cultural reforms had sought to produce and what members of the elite believed their nation to be While members of the Organising Committee deeply resented international scepticism of Mexico's ability to stage the Games they shared a fear that with the eyes of the world upon them their compatriots would reveal Mexico's aspirations to first world status to be a fraud Using a detailed analysis of Mexico City's preparations for the Olympic Games we show how these tensions manifested themselves in the actions of the Organizing Committee and government authorities This book was published as a special issue of the International Journal of the History of Sport

**Football and Community in the Global Context** Adam Brown, Tim Crabbe, Gavin Mellor, 2013-10-31 Football clubs across the world continue to embody many of the collective symbols identifications and processes of connectivity which have long been associated with the notion of community In recent years however the very term community has become the focus of renewed interest within popular discourse and amongst academics politicians and policy makers It has become something of a buzz word wheeled out as both a lament to more certain times and as an appeal to a better future a term imbued with all the richness associated with human interaction Community has also been employed increasingly within football for instrumental reasons concerned with policy and stadium redevelopment and in broader rhetoric about clubs their localities and fans This book brings together a range of key debates around contemporary understandings of community in world football Split into four sections it considers political and theoretical debates around football and its connection with community different national and ethnic football communities instrumental uses of football to bridge gaps within and between groups future directions in the football and community debate This book was published as a special issue of Soccer Society

The Politics of the Male Body in Global Sport Hans Bonde, 2013-10-18 Danish sport has been associated with Europe and the World not least through I P Muller and Niels Bukh and the Danish Gymnastics revolution with its emphasis on male aesthetics and hygiene in the first half of the twentieth century At the same time Denmark has stood apart from Europe in the early moments of its history of sport with the rural revolution of the farming communities as a statement of political independence and assertion However during the German occupation of Denmark Danish sport was part of a European collaboration which characterized a number of the occupied countries not least in the Nordic area After the Second World War Denmark embraced international body cultures with other European nations in particular Eastern martial arts Denmark too as part of trends in the European region and the world became caught up in sport as a powerful contemporary political statement This book was previously published as a special

issue of the International Journal of the History of Sport      The 1940 Tokyo Games: The Missing Olympics Sandra Collins, 2014-01-21 By representing their experience of modernity as different from the West in their respective Olympic Games Asian nations reveal much about the ambitions and anxieties of being an Asian host in the continuing western Olympic hegemony This original work explores the encounter between the East and the West by analyzing the deliberate self-presentational cultural diplomacy historically required of Asian Olympic hosts Exploring the relationship between Modern Asia and the Olympic Games it focuses on the forgotten history of the 1940 Tokyo Olympics to reveal the complex and fascinating encounter between Japan and the world in the 1930s The book is the first full account of this encounter and draws substantially on Japanese sources hitherto unknown in the English speaking world It argues that this encounter sets the scene and the tone for later Asian involvement in the Olympic Movement It includes chapters on Imperial Commemoration and Diplomacy the Japanese Fascist Olympics the Event Japanese Style the Spectre of 1940 in Later Asian Olympics This work fills a gap in the literature and provides an original addition to the history of Japanese culture Asian cultures and the Olympic Movement This book is a special issue of The International Journal of the History of Sport

**Militarism, Hunting, Imperialism** J.A. Mangan, Callum McKenzie, 2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a sound preparation for imperial warfare For the imperial officer in the making the bloody hunting ritual was a visible hallmark of stirring martial masculinity Sir Henry Newbolt the period poet of subaltern self sacrifice typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre ordained hierarchical order of superordinate and subordinate breeds Militarism Hunting Imperialism examines these ideas under the following five sections martial imperialism the self sacrificial subaltern bloodying the middle class martial male the imperial officer hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a special issue of the International Journal of the History of Sport      The Beijing Olympics: Promoting China Kevin Caffrey, 2013-09-13 The Beijing 2008 Olympic ceremonies were spectacular performances and technological accomplishments by the People's Republic of China However the audience in Beijing was only the most overt element of a global audience receiving the message of the Games For this global audience the Beijing performances were a harbinger of wider regional and international ambitions a message of intent that pointed to a larger Chinese plan to a degree not seen since the Ming dynasty New Chinese ambitions embrace both soft power and hard power The actor in this political drama of international scope is the Chinese state and its political ambitions on the world stage The Beijing Olympics can be seen as its opening act and the audience as global Rather than the kind of morality play that is typically used in China to educate the people in politics this new production a production on many levels was one aimed at audiences all around the world and one that was a calculated expression of realpolitik This book was previously published as

a special issue of the International Journal of the History of Sport      **Gender, Sport, Science** J. A. Mangan, Patricia Vertinsky, 2013-10-18 Roberta J Park has been throughout her distinguished career a scholar with a mission to win academic recognition of the significance of the body in culture and cultures Her scholarship has earned her global esteem in the disciplines of Physical Education and Sports Studies for its penetrating insights This selection of her writings is a well deserved tribute to her interpretive originality her intellectual acuity and her ability to inspire colleagues and students To explore unexplored patterns has been her extraordinary strength The result has been continual originality of insight These writings are thus a unique compilation of scholastic creativity of major interest to scholars and students in Sports Studies Physical Education Health Studies Sociology and Social Psychology This book was published as a special issue of the International Journal of the History of Sport      **Sport, Culture and History** Brian Stoddart, 2013-09-13 In addition to being an internationally recognised pioneer of sports history Brian Stoddart has also been a leading thinker and influence in the field That influence has crossed several areas of history sociology business politics and media aspects of sports studies and has drawn deeply upon his own training in Asian studies His work has been characterised by cross disciplinary work from the outset and has encompassed some very different geographical areas as well as crossing from academic outlets to media commentary As a result his influential work has appeared in many different locations and it has been difficult for a wide variety of readers to access it fully and easily This volume draws together in the one place for the first time some of his most important academic and journalistic work Importantly the pieces are drawn together by an intellectual autobiographical commentary that locates each piece in a wider social and cultural framework This book was previously published as a special issue of Sport in Society      The Balkan Games and Balkan Politics in the Interwar Years 1929 - 1939 Penelope Kissoudi, 2013-10-18 The Balkan Games resulted on the one hand from the growth of modern European sport and the unsatisfactory performances of the Balkan athletes at national and international level and on the other hand from a desire to bring the Balkan peoples together in peace and concord The Games were initiated in Athens in 1929 and increasingly became an integral part of the political cultural and social life of the area The common global reality is that when an athletic event is staged attempted friendship seldom receives priority In the 1930s however the Balkan Games provided a rare example of an international athletic event bringing antagonistic states together in friendship This consideration of the significance of the Balkan Games as an instrument of political optimism provides clear evidence of the occasional positive influence of sport in politics The work is a case study of interest to political and social scientists and to historians of Europe and sport This book was previously published as a special issue of the International Journal of the History of Sport      **Sporting Cultures** David Wood, P. Louise Johnson, 2013-09-13 The essays that comprise this book mark new territory in the study of sport in the Hispanic world a key site of cultural experience for the populations of Latin America the United States and the Iberian Peninsula The scope of the volume is the exploration of the representation and interaction of sport text body in a variety of
