Rainbow Effect Interracial Families:

The Rainbow Effect Kathlyn Gay, 1987-01-01 Uses interviews with members of interracial interethnic families to explore problems faced by mixed children in such areas as family school dating and adoption Mixed Blood Paul R. Spickard, 1989 Mixed Blood serves an important function in drawing together a far ranging set of experiences all of which bear on the phenomenon of intermarriage from publisher's site **Counseling Multiracial Families** Bea Wehrly, Kelley R.

Kenney, Mark E. Kenney, 1999-07-16 Multiracial families families in which one member of the family has a different racial heritage than the other members of the family comprise a rapidly growing U S population Counseling Multiracial Families addresses this population that has been neglected in the counseling literature In the first chapter readers are given a comprehensive history of racial mixing in the United States special needs and issues of multiracial families as well as special strengths of multiracial families are addressed Challenges of interracial married couples are explored as are the social and cultural issues related to parenting and child rearing of multiracial children in today's society The results of biracial identity development research are translated into counseling practice with the children adolescents and adults in multiracial families

Interracial Intimacy Rachel F. Moran, 2001 Crossing disciplinary lines Moran looks in depth at interracial intimacy in America from colonial times to the present She traces the evolution of bans on intermarriage and explains why blacks and Asians faced harsh penalties while Native Americans and Latinos did not She provides fresh insight into how these laws served complex purposes why they remained on the books for so long and what led to their eventual demise As Moran demonstrates the United States Supreme Court could not declare statutes barring intermarriage unconstitutional until the civil rights movement coupled with the sexual revolution had transformed prevailing views about race sex and marriage

The New Colored People Jon M. Spencer, 2000-08 Most Americans remain oblivious of a new racial phenomenon that may radically alter the political landscape of the United States In recent years dramatic increases in racial intermarriage have given birth to a generation of mixed race children whose interracial married parents refuse to allow them to be shoehorned into neat pre existing racial categories The parents through organizations they have founded or joined have lobbied aggressively for the category multiracial to be added to official racial classifications at the state and federal levels including the United States census Since a nonracial society is one of the stated goals of the multiracialists Spencer suggests that the undoing of racial classification will come not by initiating a new classification which will only give Americans the impression that mixed race people can be neatly classified but by our increased recognition that there are millions of people who simply defy classification *Racially Mixed People in America* Maria P. P. Root, 1992-02-03 Although America has been experiencing a biracial baby boom for the last 25 years there has been a dearth of information about how racially mixed people identify and view themselves as well as relate to one another Racially Mixed People in America bridges this gap and offers a comprehensive look at all the issues involved in doing research with mixed race people all in the context of America's

multiracial past and present **Beyond Black** Kerry Ann Rockquemore, David L. Brunsma, 2008 The urgent debate over a multiracial category in the 2000 census forced the nation to reflect upon the important questions of what it means to construct and maintain a racial identity Using in depth interviews and survey data Beyond Black documents how biracial people develop many different racial identities and how these self understandings are derived from historical and contemporary social cultural interactional and psychological processes **Children and Families in the Social Environment** James Garbarino, 2017-07-12 The first edition of this volume successfully applied Bronfenbrenner s micro systems taxonomy to childrearing and family life Emphasizing how forces in the environment influence children s behavior Garbarino has staked out an intermediate position between the psychoanalytic and the systems approach to human development Taking cognizance of new research and of changes in American society Garbarino has once again carefully analyzed the importance of children s social relationships For this wholly revised second edition he has incorporated a greater emphasis on ethnic cultural and racial issues *Counseling Interracial Individuals and Families* Bea Wehrly, 1996 In spite of dramatic increases in the number of interracial persons in the United States over the past two decades the counseling profession has given minimal attention to this population This book introduces counselors to the needs and strengths of individuals and families with more than one racial heritage and suggests appropriate counseling interventions Emphasis is place on counselor self awareness of attitudes and behaviors toward the interracial population The text familiarizes counselors with the challenges that interracial children adolescents and adults face in developing a racial cultural ethnic identity Chapter 1 familiarizes readers with interracial persons while chapter 2 underscores challenges that these individuals face in developing an identity Chapter 3 provides general guidelines for counseling with interracial individuals and families Chapters 4 5 and 6 include a developmental focus for counseling interracial children adolescents and adults Case studies are included here to illustrate counselor roles In chapter 7 interracial family counseling issues are explored along with counseling interventions appropriate for this population The last chapter addresses challenges that counselors face in helping interracial individuals to move beyond the other status The text also includes a list of books with interracial themes that can be used in work with children and adolescents RJM **Counseling Multicultural and Diverse Populations** Nicholas A. Vacc, Susan B. DeVaney, Johnston M. Brendel, 2003-02-04 The purpose of this book is to expose students of the helping professions counselors teachers college professors mental health workers and social workers to the unique characteristics of representative American subgroups and to effectively assist these same professionals as they work with clients and or students from these populations These are grouped by race gender sexuality age physical limitations and lifestyle etc The author of each chapter is both a trained helping professional and a member of the group in question This unique combination of qualifications lends both an academic and a personal perspective to the understanding of the populations represented *Family Estrangements* Barbara LeBey, 2003-01-01 Mending the Ties That Bind Divorce disputes
