us we become needy ourselves as adults and parents we find that we have unresolved raising issues basic needs that were not met in our childhoods Our needs and memories echo and influence many of the parenting decisions we make even though we re unaware of those influences at times Fortunately children help parents reach their needs as much as their parents help them fulfill their own Our child ends up guiding us by connecting us to some earlier time in our life when we encountered distress We dredge up a lesson and we adapt by adhering to or changing the story that we tell ourselves about who we are We re negotiate the five basic needs that surface from our childhood memories as our youngsters pass through each of the developmental phases The self aware parent focuses on creative problem solving by focusing on one interaction at a time It Takes a Child to Raise a Parent offers an exploration of how our own childhood memories and needs influence and shape our parenting decisions in our adult lives Offering tips stories from a variety of families and step by step exercises Janis Johnston helps parents better understand and grasp the tools necessary to face parenting challenges head on and to explore new ways of understanding ourselves our children and our family interactions Expectant parents and current parents interested in understanding their own personality development as well as the many moods of childhood and their own children will find clear guidelines for understanding their roles in their children s lives as well as concrete suggestions for how to navigate the choppy waters of raising children
