

The background of the book cover is a photograph of a sunset or sunrise over a mountain range. The sky is a gradient of orange, red, and purple, with the sun visible as a bright yellow-orange disk on the left side. The mountains in the foreground are dark and silhouetted, while the background mountains are lighter and more hazy.

Reason And Value:

Reason and Value R. Jay Wallace, 2004 *Reason and Value* collects fifteen brand new papers by leading contemporary philosophers on themes from the moral philosophy of Joseph Raz The subtlety and power of Raz's reflections on ethical topics including especially his explorations of the connections between practical reason and the theory of value make his writings a fertile source for anyone working in this area The volume honours Raz's accomplishments in the area of ethical theorizing and will contribute to an enhanced appreciation of the significance of his work for the subject *Engaging Reason* Joseph Raz, 2000-01-13 *Engaging Reason* offers a penetrating examination of a set of fundamental questions about human thought and action In these tightly argued and interconnected essays Joseph Raz examines the nature of normativity reason and the will the justification of reason and the objectivity of value He argues for the centrality but also demonstrates the limits of reason in action and belief He suggests that our life is most truly our own when our various emotions hopes desires intentions and actions are guided by reason He explores the universality of value and of principles of reason on one side and on the other side their dependence on social practices and their susceptibility to change and improvement He concludes with an illuminating explanation of self interest and its relation to impersonal values in general and to morality in particular Joseph Raz has been since the 1970s a prominent original and widely admired contributor to the study of norms values and reasons not just in philosophy but in political and legal theory This volume displays the power and unity of his thought on these subjects and will be essential reading for all who work on them **Reason, Value, and Respect** Mark

Timmons, Robert Neal Johnson, 2015 In 13 specially written essays leading philosophers explore Kantian themes in moral and political philosophy that are prominent in the work of Thomas E Hill Jr such as respect and self respect practical reason conscience and duty In conclusion Hill offers an overview of his work and responses to the preceding essays **Reason and Value** E. Reason and Value Edward Jarvis Bond, 1983 **Mimesis and Reason** Gregg Daniel Miller, 2011-09-23 Complicating the standard interpretation of Habermas as a proceduralist *Mimesis and Reason* uncovers the role that mimesis or imitation plays as a genuinely political force in communicative action Through a penetrating examination of Habermas's use of themes and concepts from Plato George Herbert Mead and Walter Benjamin Gregg Daniel Miller reconstructs Habermas's theory to reveal a new postmetaphysical articulation of reason that lays the groundwork for new directions in political theory **A Non-instrumentalist Approach to Collective Intentionality, Practical Reason, and the Self** Juliette Gloor, 2014 English summary Taking into account the relevant and mostly contemporary Anglo American debates concerning collective intentionality the author examines what it means to share reasons and other intentional states such as thoughts and emotions The guiding question of the dissertation is in what way and to what extent morality and therefore self consciousness can be understood as conditions of possibility for the sharing of mental states especially reasons The dissertation is a contribution

mainly to fields of research in practical philosophy normative ethics and moral psychology and in social philosophy collective intentionality analysis and rational choice theory German description Juliette Gloers Monographie fragt aus hauptsachlich analytischer Perspektive und unter spezieller Berucksichtigung der einschlagigen anglo amerikanischen Debatten was es bedeutet Grunde und andere intentionale Einstellungen zu teilen Die Leitfrage der Untersuchung lautet inwiefern Moral und damit Selbstbewusstsein als Bedingungen der Moglichkeit solchen Teilens begriffen werden können Die Dissertation ist ein Beitrag zur Forschung innerhalb des Gebiets der Praktischen Philosophie insbesondere der normativen Ethik und der Sozialphilosophie speziell im Bereich der Kollektiven Intentionalitat **Moral Philosophy** Anthony O'Hear,2022-06-09

What is moral philosophy That is the question with which this important volume grapples Its starting point is the famous critique made in 1958 by Elizabeth Anscombe who argued that moral philosophy begins from a mistake that it is fundamentally wrong about the sort of concept that the word moral represents Anscombe rejected moral philosophy as it was then and mostly now still is practised She offered instead a blueprint for the task moral philosophers must embrace if they are to speak intelligibly to society about good and bad right and wrong duty and obligation The chapters in this book are inspired by Anscombe s classic text One of the most powerful voices here among many authoritative voices is that of Philippa Foot Anscombe s lifelong friend who asserts that any account of practical reason evacuated of an understanding of what human beings need to flourish is inadequate and must be rejected *The Mystery of Values* Ludwig Grünberg,2000 This study of axiology explores the axiocentricity of being human Human beings dwell in the realm of value Values are not simply what persons have values in large part are what persons are The mystique of values is analyzed here in terms of their cultural phenomenological and ontological status The relationship between science and values is debated Values should not be submitted to reductionism Postmodernism raises new problems for the future of a philosophy of values Yet we may direct our hopes toward happiness universalism and humanism as inseparable from value life Oswal - Gurukul Economics Most Likely Question Bank : ISC Class 12 for 2023 Exam Oswal - Gurukul,2022-06-10 **Ethics and Medical Decision-Making** Michael Freeman,2017-10-05 This title was first published in 2001 Ethical thinking about medical decision making has roots deep in history This collection of contemporary essays by leading international scholars traces the development of modern bioethics and explores the theory and current issues surrounding this widely contested field Cisco Field Manual Dave Hucaby,Steve McQuerry,2002 The ultimate command reference for configuring Cisco RM routers and switches This guide presents the common elements of complex configurations for Cisco RM routers switches and firewalls in an intuitive easy to reference format *The Collapse of the Fact/Value Dichotomy and Other Essays* Hilary Putnam,2004-03-30 In this book one of the world s preeminent philosophers takes issue with an idea that has found an all too prominent place in popular culture and philosophical thought the idea that while factual claims can be rationally established or refuted claims about value are wholly subjective not capable of being rationally argued for or against **Magisterial Cases** ,1910 The New Jersey Law

Human Communication as Narration Walter R. Fisher,2021-06-03 This book addresses questions that have concerned rhetoricians literary theorists and philosophers since the time of the pre Socratics and the Sophists How do people come to believe and to act on the basis of communicative experiences What is the nature of reason and rationality in these experiences What is the role of values in human decision making and action How can reason and values be assessed In answering these questions Professor Fisher proposes a reconceptualization of humankind as homo narrans that all forms of human communication need to be seen as stories symbolic interpretations of aspects of the world occurring in time and shaped by history culture and character that individuated forms of discourse should be considered good reasons values or value laden warrants for believing or acting in certain ways and that a narrative logic that all humans have natural capacities to employ ought to be conceived of as the logic by which human communication is assessed
