Russia Poland Universal Regeneration S:

Polish Encounters, Russian Identity David L. Ransel, Bożena Shallcross, 2005-06-15 Highlights Poland's central role in the formation of a modern Russian identity

Slavophile Empire Laura Engelstein, 2011-03-15 Twentieth century Russia in all its political incarnations lacked the basic features of the Western liberal model: the rule of law, civil society and an uncensored public sphere. In *Slavophile Empire* the leading historian Laura Engelstein pays particular attention to the Slavophiles and their heirs whose aversion to the secular individualism of the West and embrace of an idealized version of the native past established a pattern of thinking that had an enduring impact on Russian political life. Imperial Russia did not lack for partisans of Western style liberalism but they were outnumbered to the right and to the left by those who favored illiberal options. In the book's rigorously argued chapters Engelstein asks how Russia's identity as a cultural nation at the core of an imperial state came to be defined in terms of this antiliberal consensus. She examines debates on religion and secularism, on the role of culture and the law under a traditional regime presiding over a modernizing society, on the status of the empire's ethnic peripheries and on the spirit needed to mobilize a multinational empire in times of war. These debates she argues did not predetermine the kind of system that emerged after 1917 but they foreshadowed elements of a political culture that are still in evidence today.

Apology of Culture Artur Mrowczynski-Van Allen, Teresa Obolevitch, Pawel Rojek, 2015-03-02 Contemporary philosophy and theology are ever more conscious of the fact that the model of relations between religion and culture developed in modernity is fundamentally flawed. The processes of the secularization of society, culture and even religion are rooted in the dualistic vision of religion and culture introduced in the late Middle Ages. In seeking a way out we need to explore domains of culture unaffected by Western European secular thinking. Russian thought is remarkably well prepared to formulate an alternative to secular modernity. Indeed in Russian culture there was neither a Renaissance nor an Enlightenment. Eastern Christianity retained an integral patristic vision of human nature that had not been divided into separate natural and supernatural elements. These pre and non modern visions are now gaining exceptional value in the postmodern reality in which we find ourselves. The heritage of Russian Christian thought may serve as a source of inspiration for alternative approaches to religion and culture. In this respect Russian thought may be compared with *nouvelle théologie*, Radical Orthodoxy and other recent movements in Christian postsecular thought. For this reason it remains astonishingly contemporary.

An Ordinary Marriage Katherine Pickering Antonova, 2012-12-17 *An Ordinary Marriage* is the story of the Chikhachevs, middling income gentry landowners in nineteenth century provincial Russia. In a seemingly strange contradiction the mother of this family, Natalia, oversaw serf labor and managed finances while the father, Andrei, raised the children at a time when domestic ideology advocating a woman's place in the home was at its height in European advice manuals. But Andrei Chikhachev defined masculinity as a realm of intellectualism; the father could be in charge of moral education defined as an intellectual task. Managing estates that often barely yielded a livable income was a practical task and

therefore considered less elevated though still vitally important to the family's interests. Thus estate management was available to gentry women like Natalia Chikhacheva and the fact that it inevitably expanded their realm of influence and opportunity within the limits of their estates and that it increased their centrality to the family's material security relative to their social counterparts to the west was accidental. *An Ordinary Marriage* examines the daily activities and ideas of the family based on multiple overlapping diaries and informal correspondence by the husband, wife and son of the family as well as the wife's brother. No such cache of intimate Russian family documents has ever previously been studied in such depth. The family's relative obscurity with no pretensions to fame, wealth or influence and the presence of a woman's private documents are especially unusual in any context. The book considers the Chikhachevs' social life, reading habits, attitudes toward illness and death as well as their marital roles and their reception of major ideas of their time such as domesticity, Enlightenment, sentimentalism and Romanticism.

Poland Patrice M. Dabrowski, 2014-10-01. Since its beginnings, Poland has been a moving target geographically as well as demographically and the very definition of who is a Pole has been in flux. In the late medieval and early modern periods, the country grew to be the largest in continental Europe, only to be later wiped off the map for more than a century. The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi-Soviet occupation that began with World War II. The postwar entity known as Poland was shaped and controlled by the Soviet Union. Yet even under these constraints, Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that. *Poland* is a sweeping account designed to amplify major figures, moments, milestones and turning points in Polish history. These include important battles and illustrious individuals, alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century. The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland's demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke. Patrice Dabrowski's work situates Poland and the Poles within a broader European framework that locates this multiethnic and multid denominational region squarely between East and West. This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland's longstanding republican experiment.

thought **Liberalism in Pre-revolutionary Russia** Susanna Rabow-Edling, 2018-08-06 Nineteenth century Russian intellectuals were faced with a dilemma They had to choose between modernizing their country thus imitating the West or reaffirming what was perceived as their country's own values and thereby risk remaining socially underdeveloped and unable to compete with Western powers Scholars have argued that this led to the emergence of an anti Western anti modern ethnic nationalism In this innovative book Susanna Rabow Edling shows that there was another solution to the conflicting agendas of modernization and cultural authenticity a Russian liberal nationalism This nationalism took various forms during the long nineteenth century but aimed to promote reforms through a combination of liberalism nationalism and imperialism **A History of Modern Political Thought in East Central Europe** Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016 The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe
