*Second Metropolis* Blair A. Ruble, 2001-05-28 By exploring and comparing North America's Russia's and Japan's second cities Chicago Moscow and Osaka *Second Metropolis* discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism *Hegel's Philosophy of Reality, Freedom, and God* Robert M.

Wallace, 2005-04-04 Showing the relevance of Hegel's arguments this book discusses both original texts and their interpretations *Russia's Bitter Path to Modernity* Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it choose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states

***Empires Apart*** Brian Landers, 2011-11-16 A fresh commanding and thought provoking narrative history of the competing Russian and American empires The American road to empire started when the first English settlers landed in Virginia Simultaneously the first Russians crossed the Urals and the two empires that would dominate the twentieth century were born *Empires Apart* covers the history of the Americans and Russians from the Vikings to the present day It shows the two empires developed in parallel as they expanded to the Pacific and launched wars against the nations around them They both developed an imperial ideology that was central to the way they perceived themselves Soon after the ideology of the Russian Empire also changed with the advent of Communism The key argument of this book is that these changes did not

alter the core imperial values of either nation both Russians and Americans continued to believe in their manifest destiny Corporatist and Communist imperialism changed only the mechanics of empire Both nations have shown that they are still willing to use military force and clandestine intrigue to enforce imperial control Uniquely Landers shows how the broad sweep of American history follows a consistent path from the first settlers to the present day and by comparing this with Russia's imperial path demonstrates the true nature of American global ambitions To the Far North Ivan Nikolaevich Akif'ev, 2024-04-15 This annotated translation of *To the Far North* presents the diary of a twenty seven year old Russian physician who was part of the 1900 expedition to the Chukotka Peninsula to find gold No other account so richly details life along the North Pacific Rim before World War I especially from a Russian perspective This volume relates the expedition's formation development and aftermath and offers unique insights on the region's place in both Russian policymaking and geopolitics The illustrated diary includes picturesque descriptions of San Francisco the Nome Gold Rush Chukchi culture Petropavlovsk Vladivostok and Nagasaki Japan Andrew A Gentes's translation is based on an edition of Akif'ev's book that was published in St Petersburg in 1904 The diary shows how Russian and American views and cultural values clashed over a territory that is today more geopolitically important than ever By documenting Akif'ev's personal travels outside the expedition *To the Far North* also demonstrates in both human and personal terms the role Russians played in shaping this region's history **Merchant Moscow** James L. West, Iurii A. Petrov, 2014-07-14 With the collapse of the Soviet system the long neglected history of the early capitalists is being recovered and rewritten Once regarded as the losers in the Russian Revolution these merchants can now be seen as early pioneers in Russia's transformation to a free market economy This book is the first joint Russian American collaborative project on the history of Russian entrepreneurship *Merchant Moscow* puts a human face on early Russian capitalism It presents thematic groupings of historic photographs paired with commentaries by contemporary Russian and American historians The pictures provide a stunning wide ranging visual portrait of Imperial Russia's most influential entrepreneurial elite the Moscow merchantry while the accompanying articles interpret the photographs and place them in the larger cultural context of prerevolutionary Russia Here is a surprising new view of the bourgeoisie during the Silver Age revealed for the first time in this fascinating volume The fourteen contributing historians selected and ordered photographs that best illustrate their specialized knowledge of the period They have framed their topics in a variety of ways Some have chosen to pursue traditional topics such as collective biography institutional history or the history of business practices Others have approached the photographs in more experimental ways emphasizing the semiotics of dress discourses of identity or the history of daily life Together they offer fresh perspectives on the successes and failures of Russia's first experiment with entrepreneurial capitalism Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while

**Across the Moscow River** Rodric Braithwaite,2002-01-01 Rodric Braithwaite was British ambassador to Moscow during the critical years of Perestroika and the collapse of the Soviet Union the failed coup of August 1991 and the rise of Boris Yeltsin From the vantage point of the British Embassy once the mansion of the great nineteenth century merchant Pavel Kharitonenko with its commanding views across the Moscow River to Red Square and the Kremlin Braithwaite had a ringside seat With his long experience of Russia and the Russians who saw him as Mrs Thatcher's Ambassador on good personal terms with Mikhail Gorbachev he was in a privileged position close to the centre of Russia's changing relationship with the West But this is not primarily a memoir It is an intimate analysis of momentous change and the people who drove it against the background of Russia's long history and its unique but essentially European culture Braithwaite watched as Gorbachev and his allies struggled to modernise and democratise a system which had already reached the point of terminal decay Against the opposition of the generals they forced the abandonment of the nuclear confrontation as the Soviet Union fell apart The climax of the drama came in August 1991 when a miscellaneous collection of conservative patriots generals politicians and secret policemen attempted to reverse the course of history and succeeded only in accelerating the collapse of the Soviet Union

**Russia on the Move** Sylvia Sztern,2022-02-18 This book explores the impact of railroads on 19th century Russian peasant collectivism The mutual insurance mechanism in a precarious agricultural environment provided by a structured communal village system predicated on the reputation and authority of community norms is exposed to rationalist exchange occasioning an institutional adaptation process the individualization of property rights in land Spatial mobility technology animated market integration specialization literacy and human capital acquisition among peasant wage workers who commuted from their villages Temporarily rising transaction costs forced the Tsar to concede household property rights in land in the so called Stolypin reform of 1906 This challenge to the imperial patrimony powered by the railroads steered late imperial Russia toward constitutional governance The spatial mobility technology gave peasants access to centers of agglomeration of knowledge changed cognitive perceptions of distance and reduced the uncertainty and opportunity costs of travel The empirical findings in this monograph corroborate the conclusion that the railroads occasioned a cultural revolution in late imperial Russia and made Stalin unnecessary for the modernization of the Euro-Asian giant This book highlights the profound effect that the development of the railroads had on Russian economic and political institutions and practices It will be of indispensable value to students and

researchers interested in transitional economics and economic history      *Selling to the Masses* Marjorie L. Hilton, 2012-01-08 In *Selling to the Masses* Marjorie L. Hilton presents a captivating history of consumer culture in Russia from the 1880s to the early 1930s. She highlights the critical role of consumerism as a vehicle for shaping class and gender identities, modernity, urbanism, and as a mechanism of state power in the transition from tsarist autocracy to Soviet socialism. Beginning in the late nineteenth century, Russia witnessed a rise in mass production, consumer goods, advertising, and new retail venues such as arcades and department stores. These mirrored similar developments in other European countries and reflected a growing quest for leisure activities, luxuries, and a modern lifestyle. As Hilton reveals, retail commerce played a major role in developing Russian public culture; it affected celebrations of religious holidays, engaged diverse groups of individuals, defined behaviors and rituals of city life, inspired new interpretations of masculinity and femininity, and became a visible symbol of state influence and provision. Through monarchies, revolution, civil war, and monumental changes in the political sphere, Russia's distinctive culture of consumption was contested and recreated. Leaders of all stripes continued to look to the commerce of exchange as a key element in appealing to the masses, garnering political support and promoting a modern nation. Hilton follows the evolution of retailing and retailers alike from crude outdoor stalls to elite establishments through the competition of private versus state-run stores during the NEP and finally to a system of total state control, indifferent workers, rationing, and shortages under a consolidating Stalinist state.      *IBSS: Economics: 1995* Compiled by the British Library of Political and Economic Science at the London School of Economics, 1996 The IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institutions whose work requires access to up-to-date and comprehensive knowledge of the social sciences.      *Studies on Iran and The Caucasus* Uwe Bläsing, Victoria Arakelova, Matthias Weinreich, 2015-07-14 This unique collection of essays by leading international scholars gives a profound introduction into the great diversity and richness of facets forming the study of one of earth's most exciting areas: the Iranian and Caucasian lands. Each of the 37 contributions sheds light on a very special topic, the range of which comprises historical, cultural, ethnographical, religious, political, and last but not least literary and linguistic issues, beginning from the late antiquity up to current times. Especially during the last decennia, these two regions gained greater interest worldwide due to several developments in politics and culture. This fact grants the book intended as a festschrift for Prof. Garnik Asatryan a special relevance. Contributors: Victoria Arakelova, Marco Bais, Uwe Bläsing, Vahe S. Boyajian, Claudia A. Formation Jari Eloranta, Eric Golson, Andrei Markevich, Nikolaus Wolf, 2016-09-19 This edited volume represents the latest research on intersections of war state formation and political economy i.e. how conflicts have affected short and long run development of economies and the formation or destruction of states and their political economies. The contributors come from different fields of social and human sciences all featuring an interdisciplinary approach to the study of societal development. The types of big issues analyzed in this volume include the formation of European and non-European states in the early modern and modern period, the emergence of various forms of states and eventually modern democracies with extensive welfare states, the violent upheavals that influenced these processes, the persistence of dictatorships and non-democratic forms of government and the arrival of total war and its consequences especially in the context of twentieth century world wars. One of the key themes is the dichotomy between democracies and dictatorships namely what were the origins of their emergence and evolution, why did some revolutions succeed and others fail, and why did democracies on the whole emerge victorious in the twentieth century age of total wars. The contributions in this book are written with academic and non-academic audiences in mind and both will find the broad themes discussed in this volume intuitive and useful. **Oil and the Economy of Russia** Nat Moser, 2017-10-20 This book examines the development of the Russian economy from tsarist times to the present through the lens of the oil industry. It considers the role of the state, business-state relations, foreign participation, enterprise performance and technology. Besides providing much rich detail on the changing nature of the oil industry, the book also puts forward important conclusions including the fact that in the late nineteenth century private enterprise rather than the state was the principal driver of economic development and that after the collapse of the Soviet Union incumbent managers were more effective in running their companies than financier entrants whose main concern was short-term gain. **Movement, Power and Place in Central Asia and Beyond** Madeleine Reeves, 2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place. Drawing together established scholars and a new generation of historians, geographers and anthropologists, this volume brings empirical specificity and theoretical depth to debates about the politics of place-making in this diverse region, making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis. Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing, collectivizing and resettling populations as a means to fix and territorialize space. The book also examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet-era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which Kazakhness is articulated to the contemporary moralization of migration abroad in search of work. Rather than analysing flows as abstract processes, the book enquires about effortful activity, material infrastructures, political relations and social habits through which people, ideas, knowledge, skills and material objects move or are prevented from moving. As such, it offers new insights into the complex

intersections of movement power and place in this important region over the last two centuries This book was originally published as a special issue of Central Asian Survey
