Russian National Income, 1885-1913 Paul R. Gregory, 2004-06-07 A frame of reference against which to contrast Soviet economic performance ????? ?????? ????? ?????????? ???????? ? . ??????????, 2014 **Transformation in Russian and Soviet Military History** Carl W. Reddel, 1990 **Russia Since 1980** Steven Rosefielde, Stefan Hedlund, 2009 Russia since 1980 recounts the epochal political economic and social changes that destroyed the Soviet Union ushering in a perplexing new order Two decades after Mikhail Gorbachev initiated his regime wrecking radical reforms Russia has reemerged as a superpower It has survived a hyperdepression modernized restored private property and business adopted a liberal democratic persona and asserted claims to global leadership Many in the West perceive these developments as proof of a better globalized tomorrow while others foresee a new cold war Globalizers contend that Russia is speedily democratizing marketizing and humanizing creating a regime based on the rule of law and respect for civil rights Opponents counterclaim that Russia before and during the Soviet period was similarly misportrayed and insist that Medvedev s Russia is just another variation of an authoritarian Muscovite model that has prevailed for more than five centuries The cases for both positions are explored while chronicling events since 1980 and a verdict is rendered in favor of Muscovite continuity Russia will continue challenging the West until it breaks with its cultural legacy **Russian Industrialists in an Era of Revolution: The Association of Industry and Trade, 1906-17** Ruth AmEnde Roosa, Thomas C. Owen, 2019-09-18 Ruth Roosa s long awaited study focuses on the most important business organization in imperial Russia the Association of Industry and Trade the nerve center of Russian capitalism in the years between the revolutions of 1905 and 1917 The author s comprehensive nuanced analysis of the Association s policy positions on Russian economic development has no peer Of particular interest are the insights the study affords into the peculiarities of Russian business including the operation of semi monopolistic syndicates and the role of imported capital banks and the autocratic state It supplies historical perspective on some of the more perplexing features of the new Russian capitalism Roosa was a pioneer in the study of early twentieth century Russian capitalism This volume prepared for posthumous publication by her friends and colleagues makes her work available at a time when it has new resonance and relevance **Jewish Immigrant Entrepreneurship in New York and London 1880-1914** A. Godley, 2001-07-18 How successful were the East European Jewish immigrants in London compared with the vast majority that went to New York This critical question one that lies at the heart of debates on Jewish modernity ethnic and racial assimilation and the impact of culture on entrepreneurship is assessed systematically for the first time in this volume Using new evidence of Jewish immigration mobility and assimilation Andrew Godley shows that despite similar backgrounds and opportunities the Jews in London were far less entrepreneurial and those in New York As the Jewish immigrants assimilated either American or British cultural values those in New York moved en masse into self employment while those in London opted to remain as workers Godley then reinterprets the broad thrust of British twentieth century

economic history emphasising how these long standing anti entrepreneurial and highly conservative craft cultural values among the English working classes acted as a drag on innovation hampering industrial relations investment and growth

The Political Economy of Stalinism Paul R. Gregory, 2004 This book uses the formerly secret Soviet state and Communist Party archives to describe the creation and operations of the Soviet administrative command system It concludes that the system failed not because of the jockey i e Stalin and later leaders but because of the horse the economic system Although Stalin was the system s prime architect the system was managed by thousands of Stalins in a nested dictatorship The core values of the Bolshevik Party dictated the choice of the administrative command system and the system dictated the political victory of a Stalin like figure This study pinpoints the reasons for the failure of the system poor planning unreliable supplies the preferential treatment of indigenous enterprises the lack of knowledge of planners etc but also focuses on the basic principal agent conflict between planners and producers which created a sixty year reform stalemate

Russia and America Colin White, 2023-06-14 *Russia and America* 1987 examines the divergence between two countries organised on diametrically opposed economic principles one centrally planned state dominated the other a highly decentralised market economy free from significant government intervention It highlights not the political changes brought about by the Russian revolution but a longer more gradual process of interaction between physical and human environments A comparative study extending over several centuries is used to account for the striking differences in their economic history

The Rise of Fiscal States Bartolomé Yun-Casalilla, Patrick K. O'Brien, Francisco Comín Comín, 2012-05-24 Leading economic historians present a groundbreaking series of country case studies exploring the formation of fiscal states in Eurasia

Before Command Paul R. Gregory, 2014-07-14 In a work with significant implications for present day economic reform in the Soviet Union Paul Gregory examines Russian and Soviet economic history prior to the installation of the administrative command system By drawing on basic economic statistics from 1861 to the 1930s Gregory s revisionist account debunks a number of myths promulgated by historians in both the East and the West He demonstrates that the Russian economy under the tsars performed much better than has previously been supposed the Russian economy and its financial institutions were integrated into the world economy allowing Russia to attract significant foreign capital Furthermore he shows that Stalin s justifications for the abandonment of the New Economic Policy in the late 1920s were incorrect the so called crises of NEP were either fabricated or the result of misguided economic thinking Before Command is the culmination of the author s lifelong study of the economic history of Russia and the Soviet Union In convincing detail it describes little known Russian and Soviet successes with market capitalism while it also shows the problems inherent in a mixed system such as the NEP which seeks to combine very strong elements of command with market resource allocation Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while
