## **Russian Transport An Historical And Geographical Survey:**

Russian Transport Leslie Symons, Colin M. White, University College of Swansea. Centre of Russian and East European Studies, 1975      *Russian Transport* Colin M. White, Leslie Symons, 1975      **Russian Transport. An Historical and Geographical Survey. Ed. by L. Symons and C. White**, 1975      *Russian Aviation and Air Power in the Twentieth Century* John Greenwood, Von Hardesty, Robin Higham, 2014-06-11 In the light of new archival material the editors take a fresh look at Russian aviation in the twentieth century Presenting a comprehensive view of Russian aviation from its genesis in the late czarist period to the present era the approach is essentially chronological with a major emphasis on the evolution of military aviation The contributions are diverse with appropriate attention to civilian and institutional themes      **A Geography of the Soviet Union** John C. Dewdney, 2013-10-22 A Geography of the Soviet Union Third Edition presents the significant geographical elements of the contemporary U S S R This book explores the human economic and political conditions and problems posed by the various geographical features Organized into 11 chapters this edition begins with an overview of the comparison of the relative sizes of U S A U K and U S S R This text then provides a detailed account of the main features of the geological structure of the Soviet Union Other chapters consider the latitude distribution of the land area of the U S S R that is extremely significant in the effect it has on climatic conditions This book discusses as well the historical geography of Soviet Union tracing the stages by which so large an area has been brought within the frontiers of a single political unit This book is intended to be suitable for fifth and sixth level pupils in school as well as for first year university students      **The Russian Revolution of 1917 - Memory and Legacy** Carol S. Leonard, Daniel Orlovsky, Jurej Petrov, 2024-07-30 The way in which the Russian Revolution of October 1917 is regarded and commemorated has changed considerably over time and is a contentious subject well demonstrated by the absence of any official commemoration in Russia in 2017 a huge contrast to the very large celebrations which took place in Soviet times This book which brings together a range of leading historians of the Russian Revolution from both Russia and the West and both younger and older historians explores the changes in the way in which the October 1917 Revolution is commemorated and also examines fundamental questions about what the Russian Revolution indeed what any revolution was anyway Among the issues covered are how Soviet and Western historians diverged in their early assessments of what the Revolution achieved how the period studied by historians has recently extended both much earlier before 1917 and much later afterwards and how views of the Revolution within the Soviet Union changed over time from acceptance of the official Communist Party interpretation to more independent viewpoints Overall the book provides a major reassessment of one of the twentieth century s most important events      *Engineer of Revolutionary Russia* Anthony Heywood, 2016-05-13 This book is the first substantial study in any language of one of revolutionary Russia s most distinguished and controversial engineers Iurii Vladimirovich Lomonosov 1876 1952 Not only does it provide an outline of his remarkable life and career it also explores the relationship between science technology and

transport that developed in late tsarist and early Soviet Russia Lomonosov's importance extends well beyond his scientific and engineering achievements thanks to the rich variety and public prominence of his professional and political activities His generation Lenin's generation was inevitably at the forefront of Russian life from the 1910s to the 1930s and Lomonosov took his place there as one of the country's best known and ultimately notorious engineers As well as an innovative engineer who campaigned to enhance the role of science he played a major role in shaping and administering the Russian railways and undertook several diplomatic and scientific missions to the West during the early years of the Revolution Falling from political favour during an assignment in Germany 1923-1927 he achieved notoriety in Russia as a non returner by apparently declining to return home Thereby escaping probable arrest and execution he began a new life abroad 1927-1952 which included a research post at the California Institute of Technology in 1929-1930 collaborative projects with the famous physicist P L Kapitsa in Cambridge a long time association with the Institution of Mechanical Engineers in London and work for the British War Office during the Second World War From Marxist revolutionary to American academic this study reveals Lomonosov's extraordinary life Drawing on a wide variety of official Russian sources as well as Lomonosov's own diaries and memoirs a vivid portrait of his life is presented offering a better understanding of how science technology and politics interacted in early twentieth century Russia

**Modernisation in Russia since 1900** Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

**Politics of Transport in Twentieth-Century France** Joseph Jones, 1984-07-01 Joseph Jones's study focuses on the period since World War I In these years the stability of the transport world was shaken by the effect of automobile competition upon the railways near monopoly A republican tradition based on fear of monopoly and protection of local facilities had emerged in the era when rail was king In the 1930s and 1940s transport policy became a tug of war between supporters of this tradition and those who felt that a new approach was

needed to cope with competition economic depression and war Legislative proposals led to heated discussion as railway companies car manufacturers truckers oil companies small business local authorities and trade unions fought to defend their interests Dr Jones s study of these conflicts based upon extensive archival research illustrates the tension between state planning economic liberalism which has been the central issue in economic policy in twentieth century France **Agrarian Reform in Russia** Carol S. Leonard,2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture the abolition of serfdom in 1861 the Stolypin reforms the NEP the Collectivization Khrushchev reforms and finally farm enterprise privatization in the early 1990s It shows a pattern emerging from a political imperative in imperial Soviet and post Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises rapid inflation military defeat mass strikes rural unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions **Russia and America** Colin White,2023-06-14 Russia and America 1987 examines the divergence between two countries organised on diametrically opposed economic principles one centrally planned state dominated the other a highly decentralised market economy free from significant government intervention It highlights not the political changes brought about by the Russian revolution but a longer more gradual process of interaction between physical and human environments A comparative study extending over several centuries is used to account for the striking differences in their economic history **Modernising Lenin's Russia** Anthony Heywood,1999-08-19 In this book Anthony Heywood reassesses Bolshevik attitudes towards economic modernization and foreign economic relations during the early Soviet period Based on hitherto unused Russian and Western archives he examines an extraordinary decision made in March 1920 to import vast quantities of railway equipment The book argues that under War Communism and the NEP railway modernization was vital to a strategy of rapid economic modernization and provides the first detailed case study of the government s import policy Following the histories of the principal contracts it analyses Soviet foreign trade as a means to tackle domestic economic challenges This book provides readers with a new perspective on Soviet economic development and reveals the scale of Bolshevik business dealings with the capitalist West immediately after the Revolution **Russian Hajj** Eileen Kane,2015-11-02 In the late nineteenth century as a consequence of imperial conquest and a mobility revolution Russia became a crossroads of the hajj the annual Muslim pilgrimage to Mecca The first book in any language on the hajj under tsarist and Soviet rule Russian Hajj tells the story of how tsarist officials struggled to control and co opt Russia s mass hajj traffic seeing it as not only a liability but also an opportunity To support the hajj as a matter of state surveillance and control was controversial given the preeminent position

of the Orthodox Church But nor could the hajj be ignored or banned due to Russia's policy of toleration of Islam As a cross border migratory phenomenon the hajj stoked officials' fears of infectious disease Islamic revolt and interethnic conflict but Eileen Kane innovatively argues that it also generated new thinking within the government about the utility of the empire's Muslims and their global networks Open Access edition funded by the National Endowment for the Humanities

**A Guide to Information Sources in the Geographical Sciences** Stephen Goddard, 1983-01-01 Geography is a wide ranging discipline and the number of information sources available is truly enormous These include printed books and journal articles maps satellite photographs archives statistical information and much else One particular problem facing geographers is that when one studies a foreign country information may be available only in the foreign country and difficult to obtain This book discusses the information sources available to geographers

Russian Railways Bridget Langston, 2025-03-20 Russian Railways explores the pivotal role of railway development in shaping Russia's economic and societal landscape from the mid 19th to the early 20th century It examines how infrastructure policy became a tool for nation building resource extraction and geopolitical strategy with a particular focus on the Trans Siberian Railway This book highlights the political and economic motivations behind railway construction the immense engineering challenges faced and the lasting consequences on regional development One intriguing insight is how railway expansion while fostering economic modernization simultaneously exacerbated regional inequalities creating new dependencies The book adopts a unique approach by combining quantitative economic analysis with qualitative examinations of the social and political context It is structured into three parts beginning with the early stages of railway development and the debates surrounding state versus private control It then turns to the construction and operation of the Trans Siberian Railway detailing logistical challenges and financing The final section analyzes the broad economic and social impacts including agricultural exports and industrial growth Through its analysis the book reveals how Russia's railway system while a catalyst for economic growth also led to uneven distribution of benefits across the nation

Planning in the Soviet Union Judith Pallot, Denis J. B. Shaw, 2021-12-24 Originally published in 1981 and based on the author's own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way

**On Arid Ground** Jennifer Keating, 2022 On Arid Ground focuses on the relationships between empire and environment in Central Asia using environmental history to examine the practice of Russian imperialism in Turkestan at the end of empire from the 1860s until 1916 It reveals for the first time a comprehensive assessment of the environmental imprint of Russian colonisation and shows how local ecologies fitted into broader repertoires of imperial rule accommodation

and resistance Ranging widely above and below the surface in Turkestan from the deserts of Transcaspia to the highlands and lowlands of rural Fergana and Semirech e Jennifer Keating explores infrastructure development migrant settlement land reclamation and dispossession the commodification of nature and environmental violence to reveal the ways in which ecological change was central to the building and breaking of empire Attentive to connections synchronicities and scale On Arid Ground makes the case for looking beyond cotton and water in Central Asian context for the powerful material role played by animals and plants sand silt and salt in human histories and for the less visible relationships between far flung people and things within and beyond Turkestan s borders Laying bare the political roots and repercussions of environmental change the volume brings fresh perspectives both to the history of Central Asia and to that of the wider Russian empire across Eurasia

**Urbanization in History** A. M. van der Woude,Akira Hayami,Jan De Vries,1990 This book represents an important contribution to the history of urbanization The introduction offers a clear and instructive discussion of fundamental concepts processes and measurement problems summarizes latest research findings and goes on to detect new topics of particular currentinterest Four principal areas of contemporary research on urbanization are covered urban hierarchies and networks urban rural economic links and migration and demographic patterns The issues are discussed both in general terms and in the context of specific countries cities and historical periods New areas of analysis such as the study of migration flows by age sex or social group and the comparative east west approach of several of the chapters will serve to broaden the traditional scope of research and stimulate further work in the field

**Agricultural Geography** Leslie Symons,2019-03-08 This book provides a historical summary of agricultural development and representative ways in which agricultural production is undertaken in different social economic and physical environments It describes concepts and methodology for understanding any area or type of farming

Photographing, Exploring and Exhibiting Russian Turkestan Inessa Kouteinikova,2022-12-30 This book illuminates the crucial role photography played from the very beginning of the Russian colonial presence in Central Asia and its entanglement with the orientalist legacy that followed Inessa Kouteinikova examines these under studied materials while also addressing the photographic market and reception of photography in the Russian Empire the position of the popular press the place of public exhibitions and emergence of the first ethnographic museums that took pace from Moscow to Tashkent during the time of the Russian conquest This book embraces the dominant mode for representing the new colonial territories in the mid late 19th century Russia by outlining the technical commercial and artistic milieus during the Golden Age of Russian orientalism The book will be of interest to scholars working in art history history of photography and Russian studies
