*Parliaments in the Late Russian Empire, Revolutionary Russia, and the Soviet Union* Ivan Sablin, 2024-02-12 This book examines the meanings that were attached to the terms parliament and parliamentarism in the different historical and discursive contexts of the late Russian Empire revolutionary and Soviet Russia and the Soviet Union It discusses those institutions referred to as parliaments by contemporaries gives special attention to their functions and traces the broader debates on parliamentarism within Russia and the Soviet Union in Russian migr circles and among foreign observers It highlights that only the late imperial and perestroika assemblies can be considered legislative institutions that expressed dissensus but argues that other assemblies often referred to as rubber

stamp parliaments due to their lack of legislative competence and influence over other authorities should not be dismissed. The Supreme Soviet for instance provided an integrative function binding society and elites in a top down manner while its deputies engaged in information acquisition and state micromanagement through interactions with their constituents. It also played an important role in interparliamentary relations and as one of the first institutions of nominal parliamentarism in an autocratic single party regime of which there were many in the twentieth century served as a model for numerous state socialist regimes. By addressing the role of parliaments in reassembling imperial spaces through political representation and the functions of nominal legislative institutions the book explores the contribution of Russian and Soviet assemblies to global political modernity.

*Planting Parliaments in Eurasia, 1850-1950* Ivan Sablin, Egas Moniz Bandeira, 2021-05-30 Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process. This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision making in Eurasia. Breaching the divide between different area studies the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe including the former Russian Ottoman Qing and Japanese Empires as well as their successor states. In particular it explores the appeals to concepts of parliamentarism deliberative decision making and constitutionalism historical practices related to parliamentarism and political mythologies across Eurasia. It focuses on the historical and reestablished institutions of decision making which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts. Thereby the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past. *Tsar and Sultan* Victor Taki, 2016-06-20 *Tsar and Sultan* offers a unique insight into Russian Orientalism as the intellectual force behind Russian Ottoman encounters. Through war diaries and memoirs accounts of captivity and diplomatic correspondences Victor Taki's analysis of military documents demonstrates a crucial aspect of Russia's discovery of the Orient based on its rivalry with the Ottoman Empire. Narratives depicting the brutal realities of Russian Turkish military conflicts influenced the Orientalisation of the Ottoman Empire. In turn Russian identity was built as the counter image to the demonised Turk. This book explains the significance of Russian Orientalism on Russian identity and national policies of westernisation. Students of both European and Middle East studies will appreciate Taki's unique approach to Russian Turkish relations and their influence on Eurasian history.

**Empire of Refugees** Vladimir Hamed-Troyansky, 2024-02-20 Between the 1850s and World War I about one million North Caucasian Muslims sought refuge in the Ottoman Empire. This resettlement of Muslim refugees from Russia changed the Ottoman state. Circassians Chechens Dagestanis and others established hundreds of refugee villages throughout the Ottoman Balkans.

Anatolia and the Levant Most villages still exist today including what is now the city of Amman Muslim refugee resettlement reinvigorated regional economies but also intensified competition over land and at times precipitated sectarian tensions setting in motion fundamental shifts in the borderlands of the Russian and Ottoman empires Empire of Refugees reframes late Ottoman history through mass displacement and reveals the origins of refugee resettlement in the modern Middle East Vladimir Hamed Troyansky offers a historiographical corrective the nineteenth century Ottoman Empire created a refugee regime predating refugee systems set up by the League of Nations and the United Nations Grounded in archival research in over twenty public and private archives across ten countries this book contests the boundaries typically assumed between forced and voluntary migration and refugees and immigrants rewriting the history of Muslim migration in the nineteenth and early twentieth centuries
