Russian Formalism A Metapoetics:

Russian Formalism Peter Steiner, 1984 Russian Formalism one of the twentieth century's most important movements in literary criticism has received far less attention than most of its rivals Examining Formalism in light of more recent developments in literary theory Peter Steiner here offers the most comprehensive critique of Formalism to date Steiner studies the work of the Formalists in terms of the major tropes that characterized their thought He first considers those theorists who viewed a literary work as a mechanism an organism or a system He then turns to those who sought to reduce literature to its most basic element language and who consequently replaced poetics with linguistics Throughout Steiner elucidates the basic principles of the Formalists and explores their contributions to the study of poetics literary history the theory of literary genre and prosody Russian Formalism is an authoritative introduction to the movement that was a major precursor of contemporary critical thought

The Polish Formalist School and Russian Formalism Andrzej Karcz, 2002 Revising his 1999 doctoral dissertation for the University of Chicago Karcz explores the Polish Formalist School of literary theory and analysis which had already sprouted when Russian Formalism was silenced as heresy by Stalinist pressures in 1930 and the relationship between the two movements He begins by discussing the anticipations of Polish Formalism then focuses on the work of Kazimierz Woycicki 1876 1938 Mandred Kridl 1882 1957 and other primary theoreticians and practitioners Excerpts are in English Annotation 2004 Book News Inc Portland OR booknews com

Modern Genre Theory David Duff, 2014-09-11 Since Aristotle genre has been one of the fundamental concepts of literary theory and much of the world's literature and criticism has been shaped by ideas about the nature function and value of literary genres Modern developments in critical theory however

prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television have put in question traditional categories and challenged the assumptions on which earlier genre theory was based. This has led not just to a reinterpretation of individual genres and the development of new classifications but also to a radically new understanding of such key topics as the mixing and evolution of genres, generic hierarchies and genre systems, the politics and sociology of genres and the relations between genre and gender. This anthology, the first of its kind in English, charts these fascinating developments. Through judicious selections from major twentieth-century genre theorists including Yuri Tynyanov, Vladimir Propp, Mikhail Bakhtin, Hans Robert Jauss, Rosalie Colie, Fredric Jameson, Tzvetan Todorov, Gérard Genette and Jacques Derrida, it demonstrates the central role that notions of genre have played in Russian Formalism, structuralism and post-structuralism, reception theory and various modes of historical criticism. Each essay is accompanied by a detailed headnote and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre. Also included are an annotated bibliography and a glossary of key terms, making this an indispensable resource for students and anyone interested in genre studies or literary theory.

Narrative

Comprehension and Film Edward Branigan, 2013-06-17 Narrative is one of the ways we organise and understand the world. It is found everywhere, not only in films and books but also in everyday conversations and in the nonfictional discourses of journalists, historians, educators, psychologists, attorneys and many others. Edward Branigan presents a telling exploration of the basic concepts of narrative theory and its relation to film and literary analysis, bringing together theories from linguistics and cognitive science and applying them to the screen. Individual analyses of classical narratives form the basis of a complex study of every aspect of filmic fiction, exploring for example subjectivity in *Lady in the Lake*, multiplicity in *Letter from an Unknown Woman*, postmodernism and documentary in *Sans Soleil*.

Mikhail Bakhtin Graham Pechey, 2007-04-11 Mikhail Bakhtin is one of the most influential theorists of philosophy as well as literary studies. His work on dialogue and discourse has changed the way in which we read texts, both literary and cultural, and his practice of philosophy in literary refraction and philological exploration has made him a pioneering figure in the twentieth-century convergence of the two disciplines. In this book, Graham Pechey offers a commentary on Bakhtin's texts in all their complex and allusive textuality, keeping a sense throughout of the historical setting in which they were written and of his own interpretation of and response to them. Examining Bakhtin's relationship to Russian Formalism and Soviet Marxism, Pechey focuses on two major interests: the influence of Eastern Orthodox Christianity upon his thinking and Bakhtin's use of literary criticism and hermeneutics as ways of doing philosophy by other means.

The Origins of Russian Literary Theory Jessica Merrill, 2022-07-15 Russian Formalism is widely considered the foundation of modern literary theory. This book reevaluates the movement in light of the current commitment to rethink the concept of literary form in cultural-historical terms. Jessica Merrill provides a novel reconstruction of the intellectual historical context that enabled the emergence of Formalism in the 1910s. Formalists

adopted a mode of thought Merrill calls the philological paradigm a framework for thinking about language literature and folklore that lumped them together as verbal tradition For those who thought in these terms verbal tradition was understood to be inseparable from cultural history Merrill situates early literary theories within this paradigm to reveal abandoned paths in the history of the discipline ideas that were discounted by the structuralist and post structuralist accounts that would emerge after World War II The Origins of Russian Literary Theory reconstructs lost Formalist theories of authorship of the psychology of narrative structure and of the social spread of poetic innovations According to these theories literary form is always a product of human psychology and cultural history By recontextualizing Russian Formalism within this philological paradigm the book highlights the aspects of Formalism s legacy that speak to the priorities of twenty first century literary studies
