Russian Intellectual History Marc Raeff,1966 **Russian Intellectual History** Marc Raeff,1966 **Russian Intellectual History** Marc Raeff,1966 **Russian Intellectual History. An Anthology ... With an Introduction by Isaih Berlin, Etc. [Edited by Marc Raeff.].** Marc Raeff,1966 *Russian intellectual history: an anthology, with an introduction* Marc Raeff, **Russia and Western Civilization** Russell Bova,2015-02-12 This volume introduces readers to an age old question that has perplexed both Russians and Westerners Is Russia the eastern flank of Europe Or is it really the heartland of another civilization In exploring this question the authors present a sweeping survey of cultural religious political and economic developments in Russia especially over the nineteenth and twentieth centuries Based on the inter disciplinary Russian studies program at Dickinson College this splendid collection will complement many curricula The text features highlight boxes and selected illustrations Each chapter ends with a glossary study questions and a reading list *Checklist of Documents* ,2006 **Russian Intellectual History** ,1978 *Russian Intellectual History* Dmitrij Tschizewskij,1978

The French Revolution in Russian Intellectual Life ,2009 Russian intellectual discourse on the French Revolution as a representation of the West rather than a symbol of revolution *The French Revolution in Russian Intellectual Life* James O'Connor,2017-07-12 Sandwiched between the East and West Russian intellectuals have for centuries been divided geographically politically and culturally into two distinct groups the Slavophiles who rejected Western style democracy preferring a more holistic and abstract vision and the more rational and scientific minded Westernizers These two ideologies cut across the political spectrum of late nineteenth century Russia and competed for dominance in the country s intellectual life The tension created between these two opposing groups caused the feeling that violent upheaval was Russia s future In turn many began to think that Russia was possibly following the path of France and that a French style revolution might be possible on Russian soil In *The French Revolution in Russian Intellectual Life* Dmitry Shlapentokh describes the role that the French democratic revolution played in Russia s intellectual development by the end of the nineteenth century The revolutionary upheaval in Russia at the beginning of twentieth century and the continuous expansion of the West convinced most Russian intellectuals that the French Revolution in its democratic reading was indeed the pathway of history Yet the rise of totalitarian regimes and their expansion proved the validity of the sober vision of nineteenth century Russian intellectuals Some conservative Russian intellectuals believed that not only would Russia preserve its authoritarian regime but it would spread this regime all over the world In this context Shlapentokh argues the French Revolution with its democratic tradition was only a phenomenon of Western civilization and hence transitory The flirtation with Western ideology with its democratic polity and market economy that followed in the wake of the collapse of the communist regime culminated in an increasing push for corporate authoritarianism and nationalism This work helps explain why Russia turned away from democratic to autocratic stylesi 1 *The New Cambridge Medieval History: Volume 6, C.1300-c.1415* Rosamond

McKitterick,1995 The sixth volume of The New Cambridge Medieval History covers the fourteenth century a period dominated by plague other natural disasters and war which brought to an end three centuries of economic growth and cultural expansion in Christian Europe but one which also saw important developments in government religious and intellectual life and new cultural and artistic patterns Part I sets the scene by discussion of general themes in the theory and practice of government religion social and economic history and culture Part II deals with the individual histories of the states of western Europe Part III with that of the Church at the time of the Avignon papacy and the Great Schism and Part IV with eastern and northern Europe Byzantium and the early Ottomans giving particular attention to the social and economic relations with westerners and those of other civilisations in the Mediterranean **Theater as Metaphor** Elena

Penskaya,Joachim Küpper,2019-05-20 The papers of the present volume investigate the potential of the metaphor of life as theater for literary philosophical juridical and epistemological discourses from the Middle Ages through modernity and focusing on traditions as manifold as French Spanish Italian German Russian and Latin American Pioneers of Change in Ethiopia

Bahru Zewde,2022-11-08 In this exciting new study Bahru Zewde one of the foremost historians of modern Ethiopia has constructed a collective biography of a remarkable group of men and women in a formative period of their country s history Ethiopia s political independence at the end of the nineteenth century put this new African state in a position to determine its own levels of engagement with the West Ethiopians went to study in universities around the world They returned with the skills of their education acquired in Europe and America and at home began to lay the foundations of a new literature and political philosophy Pioneers of Change in Ethiopia describes the role of these men and women of ideas in the social and political transformation of the young nation and later in the administration of Haile Selassie **Elias Bickerman**

as a Historian of the Jews Albert I. Baumgarten,2010 Albert Baumgarten presents the biography of one of the most distinguished historians of the Jews in antiquity that demonstrates the important connections between his scholarship life and times The events of the twentieth century provide the context for the analysis of Bickerman s scholarly production Back cover **Geopolitical Imagination** Mikhail Suslov,2020-11-02 In his timely book Mikhail Suslov discusses contemporary Russian geopolitical culture and argues that a better knowledge of geopolitical concepts and fantasies is instrumental for understanding Russia s policies Specifically he analyzes such concepts as Eurasianism Holy Russia Russian civilization Russia as a continent Novorossia and others He demonstrates that these concepts reached unprecedented ascendance in the Russian public debates tending to overshadow other political and domestic discussions Suslov argues that the geopolitical imagination structured by these concepts defines the identity of post Soviet Russia while this complex of geopolitical representations engages at the same time with the broader international criticism of the Western liberal world order and aligns itself with the conservative defense of cultural authenticity across the globe Geopolitical ideologies and utopias discussed in the book give the post Soviet political mainstream the intellectual instruments to think about Russia s exclusion

imaginary or otherwise from the processes of a global world which is re shaping itself after the end of the Cold War they provide tools to construct the self perception of Russia as a sovereign great power a self sufficient civilization and as one of the poles in a multipolar world and they help to establish the Messianic vision of Russia as the beacon of order tradition and morality in a sea of chaos and corruption Transformation in Russia and International Law Tarja Långström,2021-10-25 Since the end of the Cold War the relationship between the internal constitution of a state and its international behaviour has been a subject of much scholarly interest Assuming that this connection matters the author analyses the transformation from the USSR to the Russian Federation Does a liberal Russia behave better than the non liberal USSR Are Russia s attitudes towards international law different than those of the former USSR How much continuity is there and how much change has occurred in the scholarship of international law in Russia How are Russia s treaties made and implemented What is the role of international law in the Russian legal system The author shows that international human rights played an important role in the Soviet perestroika and in the subsequent reforms in the Russian Federation She argues that at the surface level the transformation in Russia has been remarkable notably so with regard to the role of international law in the domestic legal system Drawing from a wide range of materials Soviet Russian history legislation court cases and doctrinal writings the book takes a cultural and historical perspective to analysis of legal change Modern Orthodox Theology Paul Ladouceur,2019-02-21 Modern Orthodox theology represents a continuity of the Eastern Christian theological tradition stretching back to the early Church and especially to the Ancient Fathers of the Church This volume considers the full range of modern Orthodox theology The first chapters of the book offer a chronological study of the development of modern Orthodox theology beginning with a survey of Orthodox theology from the fall of Constantinople in 1453 until the early 19th century Ladouceur then focuses on theology in imperial Russia the Russian religious renaissance at the beginning of the 20th century and the origins and nature of neopatristic theology as well as the new theology in Greece and Romania and tradition and the restoration of patristic thought Subsequent chapters examine specific major themes God and Creation Divine humanity personhood and human rights The Church of Christ Ecumenical theology and religious diversity The Christification of life Social and Political Theology The Name of God conflict The ordination of women The volume concludes with assessments of major approaches of modern Orthodox theology and reflections on the current status and future of Orthodox theology Designed for classroom use the book features case studies a detailed index a list of recommended readings for each chapter A History of Russian Thought from the Enlightenment to Marxism Andrzej Walicki,1979 This book covers virtually all the significant Russian thinkers from the age of Catherine the Great Down to the eve of the 1905 Revolution **Rise of Reason** Hulas Singh,2015-09-25 This book offers one of the first critical evaluations and in depth analysis of the intellectual movement in Maharashtra in the 19th century Arguing against the prevalent view that Indian rationality was imported from Europe through the colonial agency it traces the rational roots of the movement to indigenous intellectual

traditions and history It also questions the centrality assigned to the Bengal Renaissance as being the representative of the contemporary intellectual movement in the country Strongly grounded in primary research this volume brings forth many new facts and facets into the scholarly discourse on topics such as the idea of Drain and the rise of Indian nationalism so far seen as a predominantly political process divorced from its cultural dimensions It re examines the view that cultural consciousness that preceded political agitation was a separate sphere of activity and suggests that both were integral stages of anti colonialism in the country The author maintains that rationalism and nationalism were closely connected as a means and end continuum He also provides a new and substantially different understanding of the 19th century intellectuals Mahatma Jotirao Phule and Pandita Ramabai among others Lucid accessible and thought provoking this book will interest scholars and researchers of modern Indian history Indian political thought sociology philosophy and Marathi literature
