Olaf Mertelsmann

Russian Nationalism Yesterday Today Tomorrow:

Russian Nationalism Stephen Carter,1990 **Russian Nationalism** Stephen K. (Senior Lecturer In Politics An Nd Government Carter (City Of London University),1993-04 Russian Nationalism Since 1856 Astrid S. Tuminez,2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases_Russian panslavism in 1856 1878 and great power nationalism in 1905 1914 _when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior *New Russian Nationalism* Kolsto Pal Kolsto,2016-03-24 Russian nationalism previously dominated by imperial tendencies pride in a large strong and multi ethnic state able to project its influence abroad is increasingly focused on ethnic issues In 2014 Russia s annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia This book provides an up to date survey of Russian nationalism as a political social and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies It includes case studies on migrantophobia the relationship between nationalism and religion nationalism in the media nationalism and national identity in economic policy nationalism in the strategy of the Putin regime as well as a survey based study of nationalism in public opinion New Russian Nationalism Pal Kolsto,2016-03-24 Traces Russia s transforming nationalism from imperialism through ethnocentrism and migration phobia to territorial expansion This title was made Open Access by libraries from around the world through Knowledge Unlatched **Russia and Ukraine** Myroslav Shkandrij,2001 Both Russian and Ukrainian writers have explored the politics of identity in the post Soviet period but while the canon of Russian imperial thought is well known the tradition of resistance which in the Ukrainian case can be traced as far back as the meeting of the Russian and Ukrainian polities and cultures of the seventeenth century is much less familiar **BOOK JACKET** **A History Of Russia Volume 2** Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **Being Soviet** Timothy Johnston,2011-08-18 Being Soviet adopts a refreshing and innovative approach to the years between the Nazi Soviet Pact and Stalin s death in the USSR Timothy Johnston draws on newspapers films plays and popular music in order to examine the changing nature of Soviet identity in this era He pays particular attention to the evolution of Britain and America from wartime allies to Cold War enemies Being Soviet then explores how ordinary citizens

related to this official version of Soviet identity It examines that question via the rumours jazz music hairstyles jokes anti war campaigns and sexual relationships of the time Johnston argues that these everyday activities defined Soviet identity for the man on the street in the USSR At the heart of the book is a sustained critique of the current emphasis on supporters or resisters of the regime Johnston suggests that the shadow of Foucault looms too large in the history of Stalinism The relationship between Soviet citizens and Soviet power was defined by the subtle tactics of everyday living For many life was not defined by belief or unbelief but rather the constant struggle to stay fed informed and entertained This more nuanced approach offers a rich and textured image of what it meant to be Soviet in Stalin s least years

Ethnic Conflict in the Post-Soviet World: Case Studies and Analysis Leokadia Drobizheva, Rose Gottemoeller, Catherine McArdle Kelleher, Lee Walker, 2015-04-08 Presents 16 case studies of ethnic conflict in the post Soviet world The book places ethnic conflict in the context of imperial collapse democratization and state building

The Making of New Russia Anuradha M. Chenoy, 2001

Women's Activism in Contemporary Russia Linda Racioppi, Katherine O'Sullivan See, 1997 They also examine the dynamics among these women s groups in Russia and reveal how the personal life histories of the activists reflect the ways women have responded to the changing political economic and social landscape in the former Soviet Union

Slavophiles and Commissars J. Devlin, 1999-05-17 This book examines contemporary Russian nationalism as it reemerged in the wake of Gorbachev s liberalisation The book argues that the new nationalism provided opponents of reform with an apparently novel justification for their hostility to the liberalisation inaugurated by Gorbachev and erratically pursued by Yeltsin

Nation and Identity in Contemporary Europe Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena

The Vexing Case of Igor Shafarevich, a Russian Political Thinker Krista Berglund, 2012-02-27 This is the first comprehensive study about the non mathematical writings and activities of the Russian algebraic geometer and number theorist Igor Shafarevich b 1923 In the 1970s Shafarevich was a prominent member of the dissidents human rights movement and a noted author of clandestine anti communist literature in the Soviet Union Shafarevich s public image

suffered a terrible blow around 1989 when he was decried as a dangerous ideologue of anti-Semitism due to his newly surfaced old manuscript *Russophobia*. The scandal culminated when the President of the National Academy of Sciences of the United States suggested that Shafarevich an honorary member resign. The present study establishes that the allegations about anti-Semitism in Shafarevich's texts were unfounded and that Shafarevich's terrible reputation was cemented on a false basis.

The Reincarnation of Russia John Löwenhardt, 1995 In *The Reincarnation of Russia* John L. Löwenhardt presents the first in-depth analysis of the initial and crucial stages of Russia's new statehood. He examines Russia's recent turbulent history beginning with the explosive Declaration of State Sovereignty in June 1990 through the adoption of the Yeltsin constitution in the elections of December 1993 and concluding with the early months of 1994. His analysis of Russia's struggle with the vestige of Soviet Communism and the attempt to create a more democratic form of government offers crucial insight into one of the critical turning points in contemporary history. Building on analysis of the failure of the Soviet system, Löwenhardt compares the emergence of Russia as a newborn state with other countries that have undergone transitions from authoritarianism toward democracy. Although it is often claimed that Russia is a unique case, the author argues that the lessons of other nations are relevant to the Russian situation. In conjunction with this comparative analysis and with consideration of the significance of the communist and Russian past, Löwenhardt discusses political and economic developments including both foreign and domestic policy concerns in Russia over the last four years. He provides a better understanding of the Russian condition and a guarded optimism regarding the ongoing process taking place in Russia today. *The Reincarnation of Russia* will be welcomed by scholars with specialized interests in the democratization of Russia, political leaders, journalists, and general readers concerned with the global impact of Russia's changing status.

The Baltic States Under Stalinist Rule Olaf Mertelsmann, 2016-03-07 Proceedings from a workshop held at the University of Tartu, Estonia in 2008

A State of Nations Ronald Grigor Suny, Terry Dean Martin, 2001-11-29 This collected volume looks at how the Soviet state managed to create a multiethnic empire in its early years from the end of the Revolution to the end of WW2.

Russia, NATO and Cooperative Security Lionel Ponsard, 2006-11-22 This book is an examination of the evolution of Russian-NATO relations since the Cold War. It shows to what extent cooperative security could serve as a means to bridge the gap between two supposedly antagonistic entities: NATO and Russia.

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation's culture and institutions; hence its domestic politics and foreign policy. That is the case in the Intermarium, the land between the Baltic and Black Seas in Eastern Europe. The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures. Marek Jan Chodakiewicz focuses on the Intermarium for several reasons. Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish-Lithuanian-Ruthenian Commonwealth, it is culturally and ideologically compatible with American national interests. It is also a gateway to both East and West. Since the Intermarium is the most

stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture After the Breakup of a Multi-Ethnic Empire Susanne M. Birgerson, 2001-12-30 The relationship between the Russian Federation and the 14 non Russian successor states is unequal with Russia the dominant power This power imbalance is a hold over from the Soviet era in which the RSFSR was first among equals Empires like the Soviet one are specific types of political systems that differed from modern states The centralized multi ethnic and non democratic character of empires explains the continued dominance of the Russian Federation It also explains the absence of alternative economic arrangements and political contacts between the former republics The Soviet system was structured so as to establish Russian control over non Russian republics The political structure was centralized so that all decisions including investment production and distribution decisions were made in Moscow Economic planning dictated a complex network of production and distribution that rendered the former republics dependent on Russia in a variety of ways Soviet patterns of government administration and economic management are still evident in all the former republics Continued dependency on Russia has compromised the state building efforts of the former republics Political rhetoric trumpeting new foreign investment the expansion of diplomatic relations the signing of trade agreements and the imminent entrance into international organizations masks the fact that none of these new contacts have been able to replace the old Soviet production and distribution networks Scholars and students involved with comparative politics and Russian post Communist Studies will find the work of particular value

Immerse yourself in the artistry of words with Crafted by is expressive creation, Discover the Artistry of **Russian Nationalism Yesterday Today Tomorrow** . This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
