Russias Unfinished Revolution Political Change From Gorbachev To Putin:

Russia's Unfinished Revolution Michael McFaul, 2001 Michael McFaul traces Russia's tumultuous political history from Gorbachev's rise to power in 1985 through the 1999 resignation of Boris Yeltsin in favor of Vladimir Putin *Return to Putin's Russia* Stephen K. Wegren, 2013 Now in a thoroughly revised expanded and updated edition this classic text provides the most authoritative and current analysis available of the challenges facing Putin as he resumes the presidency Leading scholars explore the daunting domestic and international problems confronting Russia today Evaluating the regime's continued efforts to rebuild a country once on the verge of collapse the contributors consider a comprehensive array of economic political foreign policy and social issues Clearly written and organized this text is an indispensable guide for anyone wanting to understand Russia today *After Putin's Russia* Stephen K. Wegren, Dale R. Herspring, 2009-08-16 A fifth edition of this book is now available Now in a thoroughly revised expanded and updated edition this classic text provides the most authoritative and current analysis available of contemporary Russia and the challenges facing Vladimir Putin and his successor Dmitri Medvedev Leading scholars offer a full scale reassessment of Putin's leadership exploring Russia's ongoing daunting domestic and international concerns Evaluating the regime's continued efforts to rebuild a country once on the verge of collapse they consider a comprehensive array of economic political and social issues along with Putin himself whose popularity has remained high despite his authoritarian approach The contributors conclude that Putin's influence will continue to be felt for years to come not only because he remains powerful in his new post as prime minister but because he laid the groundwork for dealing with the many problems still confronting Russia Only by understanding these challenges and Putin's previous efforts to deal with them will it be possible to understand the rhetoric and actions of his successor Clearly written and organized this text is an indispensable guide for anyone wanting to understand Russia today Contributions by Gregory Gleason Timothy Heleniak Kathryn Hendley Dale R. Popular Choice and Managed Democracy Timothy J. Colton, Michael McFaul, 2003-11-04 Twice in the winter of 1999-2000 citizens of the Russian Federation flocked to their neighborhood voting stations and scratched their ballots in an atmosphere of uncertainty rancor and fear This book is a tale of these two elections one for the 450 seat Duma the other for President Despite financial crisis a national security emergency in Chechnya and cabinet instability Russian voters unexpectedly supported the status quo The elected lawmakers prepared to cooperate with the executive branch a gift that had eluded President Boris Yeltsin since he imposed a post-Soviet constitution by referendum in 1993 When Yeltsin retired six months in advance of schedule the presidential mantle went to Vladimir Putin a career KGB officer who fused new and old ways of doing politics Putin was easily elected President in his own right This book demonstrates key trends in an extinct superpower a troubled country in whose stability modernization and openness to the international community the West still

has a huge stake Russian Leaders Alexander Dragomiroff,2002 Russian Leaders A Bibliography With Indexes **The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie,Ronald Grigor Suny,2006-11-02 A major history of twentieth century Russia by leading scholars in the field *Contemporary Russia as a Feudal Society* V. Shlapentokh,Joshau Woods,2007-11-26 The book offers a theoretical discussion of the feudal model and a preliminary application of the model to post Soviet Russia In addition to a review of the feudal model as an ideal type the author explains the analytical benefits of drawing comparisons between countries and across historical contexts Specifically contemporary Russia is compared to Western European countries during the Middle Ages and to the Soviet period in Russian history The book is devoted to illuminating the most important political social and economic characteristics of contemporary Russian society *Suffering Victory* Guillaume Sauv ,2025-05-15 Suffering Victory recounts the commitment of Soviet liberal intellectuals to democratic transition during the effervescent period of perestroika and in the first years of post Soviet Russia to the rise of Boris Yeltsin and the dissolution of the USSR Guillaume Sauv argues that late Soviet liberalism was mainly nourished by the legacy of humanistic socialism combining Enlightenment ideals and Romantic aspirations and concludes that the distinguishing feature is its assumed moralism After encouraging the concentration of power in the hands of the Russian president and an enlightened elite liberal intellectuals undermined their own democratic project and were pushed aside from decision making while being rejected by most of the population for having supported a course of reforms that did not fulfill its promises As Suffering Victory shows the success of Russia s liberal intellectuals against the Communist Party came at the price of a decline deeper and more lasting than in most post communist countries Following the full scale invasion of Ukraine in February 2022 the fate of late Soviet liberals sheds crucial light on the prospects of liberal reforms in Russia today **Putin's Virtual War** William Nester,2020-02-19 A look at the Russian leader s successful use of hard military and economic power and soft psychological power through information warfare or fake news Vladimir Putin has tightly ruled Russia since 31 December 1999 and will firmly assert power from the Kremlin for the foreseeable future Many fear and loath him for his brutality for ordering opponents imprisoned on trumped up charges and even murdered Yet most Russians adore him for rebuilding the economy state authority and national pride Putin has mastered the art of power Depending on what is at stake that involves the deft wielding of appropriate or smart ingredients of hard physical power like armored divisions multinational corporations and assassins and soft psychological power like diplomats honey traps cyber trolls and fake news factories to defeat threats and seize opportunities Russian hackers penetrated the Democratic National Committee DNC and Hillary Clinton s campaign organization extracted tens of thousands of potentially embarrassing emails and posted them on WikiLeaks As the Kremlin s latest ruler Putin like most of his predecessors is as realistic as he is ruthless He knows the limits of Russian hard and soft power while constantly trying to expand them He is doing whatever he can to advance Russian national interests as he interprets them In Putin s mind Russia can rise only as far as the West can fall And

on multiple fronts he is methodically advancing to those ends Putin's Virtual War reveals just how and why he does so and the dire consequences for America Europe and the world beyond The author has set out the dangers that Putin has brought to the world in a must read book Firetrench *Fortress Russia* Ilya Yablokov, 2018-08-30 Allegations of Russian conspiracies meddling in the affairs of Western countries have been a persistent feature of Western politics since the Cold War allegations of Russian interference in the US presidential election are only the most recent in a long series of conspiracy allegations that mark the history of the twentieth century But Russian politics is rife with conspiracies about the West too Everything bad that happens in Russia is traced back by some to an anti Russian plot that is hatched in the West Even the collapse of the Soviet Union this crucial turning point in world politics that left the USA as the only remaining superpower was according to some Russian conspiracy theorists planned and executed by Russia's enemies in the West This book is the first ever study of Russian conspiracy theories in the post Soviet period It examines why these conspiracy theories have emerged and gained currency in Russia and what role intellectuals have played in this process The book shows how in the new millennium the image of the dangerous conspiring West provides national unity and has helped legitimize Russia's rapid turn to authoritarianism under Vladimir Putin
