will read this post regarding that aspect of our human nature that seems to be beyond validation by modern science technology and medicine and which seems to defy certain and precise explanation by philosophers theologians and clergyman alike

The Contemplative Soul Adena Tanenbaum,2002-11-01 During the eleventh and twelfth centuries Jewish poets in Islamic Spain introduced philosophical themes into their devotional verse Drawn to Neoplatonic thought they made liberal use of its myth of the soul to explore the human relationship with the Divine This novel merger reflected a conviction that ideas borrowed from Greco Arabic philosophy meshed comfortably with traditional Jewish approaches to prayer and spirituality This study focuses on Solomon Ibn Gabirol Moses Ibn Ezra Abraham Ibn Ezra and Judah Halevi polymath poets who also wrote philosophically informed prose works It probes the contemplative motifs in their religious verse uncovering new and at times unorthodox layers of meaning The book includes the Hebrew texts of representative poems accompanied by original English translations and detailed analyses

Soul on the Couch Charles Spezzano,Gerald J. Gargiulo,2013-06-17 Ever since Freud put religion on the couch in *The Future of an Illusion* there has been an uneasy peace with occasional skirmishes between these two great disciplines of subjectivity As prime meaning givers God and the unconscious have vied for supremacy in our thinking about ourselves especially our thinking about our human nature our moral stature and our destiny Freud in his bold manner found projection fear and denial to be the wellspring of religion's domination over man In

analogous fashion those giving primacy to the soul over the unconscious have long dismissed psychoanalysis as mechanistic reductionistic and hence inadequate to the examination of spirituality Soul on the Couch is premised on the belief that discourse about the soul and discourse from the couch can inform and not simply ignore one another It brings together scholars and psychoanalysts at the forefront of an interdisciplinary dialogue that is vitally important to the growth of both disciplines Their essays are not only models of reflective inquiry they also illuminate the syntheses that emerge when analysts and scholars of religion bridge the gap that has long separated them and speak to one another
