Ryans Rescue:

Ryan's Rescue Karen Leabo, 2011-07-15 WHO CAN YOU TRUST Christine Greenlow wasn't sure she knew anymore. In just a few days she'd been abducted from her spoiled little rich girl existence and then rescued maybe by a man who might be every bit as dangerous as her kidnappers. All she really knew about Ryan Mulvaney was that he wasn't the innocent bystander he claimed to be. There was nothing innocent about this man. But he certainly had a way of making high speed car chases and even the occasional burst of gunfire downright exciting. And maybe when all this was over if they were still alive she'd show him a whole different kind of excitement.

Whitewater Rescues Charlie Walbridge, 2024-04-16 Read more than 80 of the most compelling true stories of canoeing, kayaking and rafting rescues ever submitted to the American Whitewater Accident Database. Risk is a part of everyday life, but it takes a special person to grab a paddle and choose to navigate a canoe, kayak or raft over whitewater. After all, when you mix people and moving water, accidents are bound to occur. Sometimes inexperienced paddlers make terrible mistakes; other times expert paddlers get caught in dangerous conditions. Regardless of the circumstances, these life or death moments can end in tragedy or can become the setting for heroic rescues. Charlie Walbridge has been a river guide, a paddling related business owner and a member of the American Whitewater Board. That's where he began some of his most important work: maintaining their accident database and producing biannual reports of US whitewater fatalities. Over the years, the lessons learned and the practices developed from this information have saved countless lives. In *Whitewater Rescues*, Charlie shares more than 80 of the most thrilling true stories of survival, bravery and quick thinking ever submitted to the American Whitewater Accident Database. The narratives are uplifting and inspiring, and they spotlight the courage and ingenuity of whitewater paddlers. Read rescue stories about near drownings, pins and entrapments, injuries and resuscitations, evacuations, bonus strategies for avoiding and managing risk. Charlie's goal is to help paddlers stay safe by sharing what has worked for others. There is much to admire and learn from each of these stories. Perhaps they will also be useful to you.

Person, Polis, Planet David Schmidtz, 2011-11-01 This volume collects thirteen of David Schmidtz's essays on the question of what it takes to live a good life given that we live in a social and natural world. Part One defends a non-maximizing conception of rational choice, explains how even ultimate goals can be rationally chosen, defends the rationality of concern and regard for others even to the point of being willing to die for a cause, and explains why decision theory is necessarily incomplete as a tool for addressing such issues. Part Two uses the tools of analytic philosophy to explain what we can do to be deserving, what is wrong with the idea that we ought to do as much good as we can, why mutual aid is good but why the welfare state does not work as a way of institutionalizing mutual aid, and why transferring wealth from those who need it less to those who need it more can be a bad idea even from a utilitarian perspective. Most ambitiously, Part Two offers an overarching pluralistic moral theory that defines the nature and limits of our obligations to each other and to our individual selves. Part Three discusses the history and economic logic of alternative property

institutions both private and communal and explains why economic logic is an indispensable tool in the field of environmental conflict resolution In the final essay Schmidtz brings the volume full circle by considering the nature and limits of our obligations to nonhuman species and how the status of nonhuman species ought to enter into our deliberations about what sort of life is worth living *The Elements of Justice* David Schmidtz, 2006-01-09 What is justice Questions of justice are questions about what people are due However what that means in practice depends on the context in which the question is raised Depending on context the formal question of what people are due is answered by principles of desert reciprocity equality or need Justice therefore is a constellation of elements that exhibit a degree of integration and unity Nonetheless the integrity of justice is limited in a way that is akin to the integrity of a neighborhood rather than that of a building A theory of justice offers individuals a map of that neighborhood within which they can explore just what elements amount to justice
