W. Mann,2004-12-01 On October 20 2001 a crowd gathered just east of Salmon Idaho to dedicate the site of the Sacajawea Interpretive Cultural and Education Center in preparation for the Lewis and Clark Bicentennial In a bitter instance of irony the American Indian peoples conducting the ceremony dedicating the land to the tribe the city of Salmon and the nation the Lemhi Shoshones Sacajawea s own people had been removed from their homeland nearly a hundred years earlier and had yet to regain official federal recognition as a tribe John W W Mann s book at long last tells the remarkable and inspiring story of the Lemhi Shoshones from their distant beginning to their present struggles Mann offers an absorbing and richly detailed look at the

life of Sacajawea's people before their first contact with non-Natives, their encounter with the Lewis and Clark Expedition in the early nineteenth century and their subsequent confinement to a reservation in northern Idaho near the town of Salmon. He follows the Lemhis from the liquidation of their reservation in 1907 to their forced union with the Shoshone-Bannock tribes of the Fort Hall Reservation to the south. He describes how for the past century, surrounded by more populous and powerful Native tribes, the Lemhis have fought to preserve their political, economic, and cultural integrity. His compelling and informative account should help to bring Sacajawea's people out of the long shadow of history and restore them to their rightful place in the American story.

Annual Report of the Chief of Engineers on Civil Works Activities United States. Army. Corps of Engineers. Civil Works Directorate, Annual Report of the Chief of Engineers, U.S. Army, on Civil Works Activities United States. Army. Corps of Engineers, 1974 South Irrigation District Appraisals, 1946 *Catalogue of the Public Documents of the [the Fifty-third] Congress [to the 76th Congress] and of All Departments of the Government of the United States* United States. Superintendent of Documents, 1896 *Ordinary Women, Extraordinary Lives* Kriste Lindenmeyer, 2000-06 This collection of seventeen minibiographies sheds light on the often neglected herstory of U.S. history from the revolutionary era through the late twentieth century. In addition, this volume suggests the complexity of studying the past when gender, race, class, region, age, and ethnicity are included in the analysis. This book is unique in that it focuses on the lives of ordinary women. The names of the vast majority of those whose stories are included here will likely be unfamiliar even to serious students of American women's history. The varied experiences of such women help to create a more complete picture of the past by revealing the influence general historical trends have had on the lives of ordinary individuals. But ordinary does not mean lesser, nor does it denote class, race, ethnicity, or age. The individual women's stories that are told in the following pages show that even people who are not featured in mainstream history texts led lives that deserve the attention of those interested in understanding the past. The authors of these chapters have found support for generalizations commonly held by American women's historians. Nonetheless, their research has also led to unexpected findings that ask students of women's history to examine assumptions about the past more closely.

Sacagawea Jessica Gunderson, 2006-09 A biography in graphic format of the Shoshoni woman who served as guide and interpreter for the Lewis and Clark Expedition.
