California George G. Foster,1848 **California and Its Gold Regions** Fayette Robinson,1849 The Fraser River Gold Rush of 1858 ,2001 This book is about the gold rush which took place in the Fraser River and vicinity in 1858 which was within the British Possession and the Washington Territory now called British Columbia and the State of Washington This book covers the Fraser River Gold Rush from its infancy to what could be considered its conclusion as viewed by the California newspapers This book is somewhat unusual as it tells the chronological history of the gold rush as it unfolded and progressed by using newspaper articles from that era The news articles themselves were in most cases letters which had been written by many of the miners or correspondents who went to the area either to dig for gold or report on what was happening Many of the letters capture the experiences of the writer and his ordeal in trying to reach the gold fields as well as the latest news of the day Over 25% of the California miners would go to this place called the Fraser River not believing in the perils and danger that awaited them until actually faced by them As some would say crossing the plains was nothing in comparison to trying to reach the gold fields of the Fraser River and vicinity This book readily depicts their reason for saying so **Certified Copy of Compiled Statement of Domestic Corporations Whose Charters Have Been Forfeited, and Foreign Corporations Whose Right to Do Business in This State Has Been Forfeited** California. Gold Rush of California Robert Badella,2009-09 John Sutter and James Marshall actually formed a partnership together on August 27 1847 for the purpose of building a saw mill along the American River located in the Sacramento Valley While inspecting the waters depth of a tailrace ditch on January 24th 1848 Marshall apparently discovered what appeared to be gold For them to obtain legal title of that gold Sutter and Marshall officially presented a lease agreement to Governor Richard Mason of the State Significantly large quantities of gold had been taken out of its southern fork on this American River which subsequently led to the discovery of Mormon Island as well as other gold mining camps Within 1849 over 80 000 mining prospectors were widely scattered throughout the San Joaquin and Sacramento Valleys Many of these gold seekers merely arrived at California by steamship via Cape Horn while others mainly came overland across the Oregon Trail In fact a substantial number of Argonauts were making their seaward expedition to California while coming from Chile and Peru During 1854 at least 300 000 thousand men had been curiously roaming the California foothills regional area for its contingent quest of gold Furthermore this tremendous impact which was brought upon by that California gold rush was perhaps one of the greatest events in history
