living ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action

Ruin Nation Megan Kate Nelson, 2012 During the Civil War cities houses forests and soldiers bodies were transformed into dead heaps of ruins novel sights in the southern landscape How did this happen and why And what did Americans northern and southern black and white male and female make of this proliferation of ruins Ruin Nation is the first book to bring together environmental and cultural histories to consider the evocative power of ruination as an imagined state an act of destruction and a process of change Megan Kate Nelson examines the narratives and images that Americans produced as they confronted the war s destructiveness Architectural ruins cities and houses dominated the stories that soldiers and civilians told about the savage behavior of men and the invasions of domestic privacy The ruins of living things trees and bodies also provoked discussion and debate People who witnessed forests and men being blown apart were plagued by anxieties about the impact of wartime technologies on nature and on individual identities The obliteration of cities houses trees and men was a shared experience Nelson shows that this is one of the ironies of the war s ruination in a time of the most extreme national divisiveness people found common ground as they considered the war s costs And yet very few of these ruins still exist suggesting that the destructive practices that dominated the experiences of Americans during the Civil War have been erased from our national consciousness

The Sacred Path of Tears M.B. widow and her two sons Mokee's companion leaves to join the fight against the white soldiers but hating war Mokee with her lighter coloring gains a safe haven with the widow's family. She finds a mentor in the well educated widow and embraces the opportunity to read and write English. As her life unfolds Mokee is torn between two worlds at war and the two men she loves one a white settler and the other her companion who has become a Cheyenne Dog Soldier. Though war is her constant shadow Mokee tries to find the purpose for her life and a path of peace in her war torn world. M. B. Jim Langford, author of *The Spirit of Notre Dame*. *The Gospel According to Sam* William Miller, 2005. A collection of thirty animal stories for the soul written by William Miller, an Episcopal priest that feature adventures of his Airedale dog Sam. *On the Path to the Place of Rest* Christina Di Cerbo, Richard Jasnow, 2021-03-04. In this volume Christina Di Cerbo and Richard Jasnow publish 92 Demotic graffiti along with several ostraca and mummy bandages from Theban Tombs 11, 12, Tomb 399 and environs recorded and studied under the aegis of the Spanish Mission at Dra Abu el Naga directed by Jose Galan. These texts from the mid second century BCE were inscribed on the tomb walls by workers of the Ibis and Falcon cult who used the New Kingdom tombs as burial places for mummified birds dedicated to the gods Thoth and Horus. This varied corpus of texts includes not only votive formulae and lists of names but most unusually labels for chambers and halls to guide the men depositing the mummies through the labyrinthine catacombs. The cult workers also recorded important burials and memorialized events of special significance as when a massive conflagration broke out that consumed several mummies and damaged the tomb walls. The Mission's conservators recovered many hitherto virtually invisible graffiti. Numerous inscriptions posed daunting epigraphic challenges; the text editors employed computer applications especially DStretch in order to enhance the digital images forming the basis for decipherment. In an introductory chapter Galan discusses the work of the Spanish Mission at Dra Abu Naga and recounts the complicated history of this important area of the Theban Necropolis down to the Roman period. The graffiti illustrate how New Kingdom tombs were reused for the sacred animal cult in the Ptolemaic period. Francisco Bosch Puche and Salima Ikram contribute a detailed chapter analyzing the archaeological context of the graffiti and the material evidence for the animal cult in the site. The volume a holistic study of this area at the twilight of Pharaonic history represents a true collaboration between archaeologists and philologists. *My Sacred Journey Through a Messy Life: Tantra As You (May not) Know It* Shakti Sundari Padmini, 2019-02-28.
