The Living Icon in Byzantium and Italy Paroma Chatterjee, 2014-03-17 This is the first book to explore the emergence and function of a novel pictorial format in the Middle Ages the vita icon which displayed the magnified portrait of a saint framed by scenes from his or her life. The vita icon was used for depicting the most popular figures in the Orthodox calendar and in the Latin West was deployed most vigorously in the service of Francis of Assisi. This book offers a compelling account of how this type of image embodied and challenged the prevailing structures of vision representation and sanctity in Byzantium and among the Franciscans in Italy between the eleventh and thirteenth centuries. Paroma Chatterjee uncovers the complexities of the philosophical and theological issues that had long engaged both the medieval East and West such as the fraught relations between words and images relics and icons a representation and its subject and the very nature of holy presence

The Tradition of the Image of Edessa Mark Guscini, 2016-02-08 The Image of Edessa was an image of Christ which according to tradition was of miraculous origin. It was taken from Edessa to Constantinople in 944 and disappeared from known history in the aftermath of the Fourth Crusade in 1204. It generated however a vast amount of literature and hundreds of copies in churches all over the Byzantine world. This book is a study of the literature paintings icons and other aspects related to the Image of Edessa. It examines how it was used as a tool to express Christ's humanity and for various other purposes and how some of the related literature became completely decontextualised and used as a magical charm especially in the West

The Viewer and the Printed Image in Late Medieval Europe David S. Areford, 2017-07-05 Structured around in depth and interconnected case studies and driven by a methodology of material contextual and iconographic analysis this book argues that early European single sheet prints in both the north and south are best understood as highly accessible objects shaped and framed by individual viewers. Author David Areford offers a synthetic historical narrative of early prints that stresses their unusual material nature as well as their accessibility to a variety of viewers both lay and monastic. This volume represents a shift in the study of the early printed image one that mirrors the

widespread movement in art history away from issues of production style and the artist toward issues of reception function and the viewer Areford's approach is intensely grounded in the object especially the unacknowledged material complexity of the print as a portable malleable and accessible image that depended on a response that was not only visual but often physical emotional and psychological Recognizing that early prints were not primarily designed for aesthetic appreciation the author analyzes how their meanings stemmed from specific functions involving private devotion protection indulgences the cult of saints pilgrimage exorcism the art of memory and anti-Semitic propaganda Although the medium's first century was clearly transitional and experimental Areford explores how its potential to impact viewers in new ways both positive and negative was quickly realized

Saints and Spectacle Carolyn L. Connor, 2016-03-01 *Saints and Spectacle* explains for the first time how the spectacular gold ground mosaics of the Middle Byzantine period were likely conceived Through a recreation of the circumstances of this time *Saints and Spectacle* brings the Middle Byzantine church to life as the witness to a compelling and fascinating drama

presents the case of Constantinople the capital of the Byzantine Empire as New Jerusalem and secondly in relation to Constantinople discussion focuses on the cases of the capitals of Slavia Orthodoxa in the later Middle Ages Turnovo Belgrade and Moscow The idea of Jerusalem corresponds with the idea of a mystical center the center of the historical Christian world which travels and follows the path of eschatological realisation **Ways of Living Religion** Christina M.

Gschwandtner,2024-03-14 This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion **The Oxford Handbook of Christian Monasticism** Bernice M. Kaczynski,2020-09-29

The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues They indicate developing trends in their areas of specialisation The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies In today s world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely *Byzantium/Modernism*

,2015-06-29 *Byzantium Modernism* features contributions by fourteen international scholars and brings together a diverse range of interdisciplinary essays on art architecture theatre film literature and philosophy which examine how and why Byzantine art and image theory can contribute to our understanding of modern and contemporary visual culture Particular attention is given to intercultural dialogues between the former dominions of the Byzantine Empire with a special focus on Greece Turkey and Russia and the artistic production of Western Europe and America Together these essays invite the reader to think critically and theoretically about the dialogic interchange between Byzantium and modernism and to consider this cross temporal encounter as an ongoing and historically deep narrative rather than an ephemeral or localized trend Contributors are Tulay Atak Charles Barber Elena Boeck Anthony Cutler Rico Franses Dimitra Kotoula Marie Jos Mondzain Myroslava M Mudrak Robert S Nelson Robert Ousterhout Stratis Papaioannou Glenn Peers Jane A Sharp and Devin Singh

Imagining the Byzantine Past Elena N. Boeck,2015-07-09 Two lavish illustrated histories confronted and contested the Byzantine model of empire The Madrid Skylitzes was created at the court of Roger II of Sicily in the mid twelfth century The

Vatican Manasses was produced for Ivan Alexander of Bulgaria in the mid fourteenth century Through close analysis of how each chronicle was methodically manipulated this study argues that Byzantine history was selectively re imagined to suit the interests of outsiders The Madrid Skylitzes foregrounds regicides rebellions and palace intrigue in order to subvert the divinely ordained image of order that Byzantine rulers preferred to project The Vatican Manasses presents Byzantium as a platform for the accession of Ivan Alexander to the throne of the Third Rome the last and final world empire Imagining the Byzantine Past demonstrates how distinct visions of empire generated diverging versions of Byzantium s past in the aftermath of the Crusades
