Harris,2018-03-28 Space is dynamic political and a cause of conflict It bears the weight of human dreams and fears Conflict is caused not only by spatial exclusivism but also by an inclusivism that seeks harmony through subordinating the particularity of the Other to the world view of the majority This book uses the lens of space to examine inter religious and inter communal conflict in colonial and post colonial Sri Lanka demonstrating that the colonial can shed light on the post colonial particularly on post war developments post May 2009 when Buddhist symbolism was controversially developed in the former largely non Buddhist war zones Using the concepts of exclusivism and inclusivist subordination the book analyses the different imaginaries or world views that were present in colonial and post 1948 Sri Lanka with particular reference to the ethnic or religious Other and how these were expressed in space influenced one another and engendered conflict The book s use of insights from human geography peace studies and secular iterations of the theology of religions breaks new ground as does its narrative technique which prioritizes voices from the nineteenth and twentieth centuries and the author s fieldwork and personal observation in the twenty first Through utilizing past and contemporary reflections on lived experience informed by diverse

religious world views the book offers new insights into Sri Lanka's past and present. It will be of interest to an interdisciplinary audience in the fields of colonial and postcolonial studies, war and peace studies, security studies, religious studies, the study of religion, Buddhist Studies, mission studies, South Asian and Sri Lankan studies. The Separatist Conflict in Sri Lanka Asoka Bandarage, 2008-11-19. The book provides a detailed historically based analysis of the origin, evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces. This conflict between the Sri Lankan government and the secessionist LTTE (Liberation Tigers of Tamil Eelam) is one of the world's most intractable contemporary armed struggles. The internationally banned LTTE is considered the prototype of modern terrorism. It is known to have introduced suicide bombing to the world and recently became the first terrorist organization ever to acquire an air force. The iron law of ethnicity, the assumption that cultural difference inevitably leads to conflict, has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka. However, the connections among ethnic difference, conflict and terrorism are not automatic. This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces. It develops a multipolar analysis which takes into account diverse ethnic groups, intra-ethnic social class, caste and other variables at the local, regional and international levels. Overall, this book presents a conceptual framework useful for comparative global conflict analysis and resolution, shedding light on a host of complex issues such as terrorism, civil society, diasporas, international intervention and secessionism.
