Sacred Monstrous A Reflection On Violence In Human Communities

Florian Krobb

Sacred Monstrous A Reflection On Violence In Human Communities:

The Sacred Monstrous Wendy C. Hamblet, 2004-01-01 In *The Sacred Monstrous* author Wendy Hamblet traces the historical and social fact of violence through the work of Girard Bloch Lorenz and Burket She takes up the charge advanced by social theorists anthropologists and others that violence is steeped in our being it pervades our generations and is imbedded in the ethos of our modern institutions Hamblet s discussion of human history re frames our understanding of how violence works in history and society *The Sacred Monstrous* is a salient work of continentally informed philosophy that contributes significantly to any discussion of violence and conflict in the social sciences *Wilhelm Raabe* Florian Krobb, 2017-12-02 Wilhelm Raabe 1831 1910 is one of the major figures of 19th century German Realist writing acknowledged as an innovator both stylistically and thematically But until now there has been little concentration on the international and postcolonial dimensions of Raabe s work his literary critique of colonialism his engagement with modernization and globalization his involvement in 19th century German discourses about America Africa and Asia and the links between international and national issues in his writing In *Raabe International* contributions from many eminent critics address Raabe both as a writer on world affairs and as a subject himself for translation and comment outside of Germany

Savage Constructions Wendy C. Hamblet, 2008-03-26 *Savage Constructions* composes a critical examination of the popular assumption that violence is an essential quality of certain ethnic or racial populations Wendy Hamblet challenges the supposition all too common in the West that darker skinned peoples are inherently violent To challenge this myth *Savage Constructions* offers a theory of subjectivity transformed by historical violence It rethinks how African peoples once living in simple neighborly communities more democratic and egalitarian than modern states have come to the condition of abjection misery and fierce aggression in which we find them today This rethinking she argues that Western affluence is built upon slaughter slavery and colonial oppression and suggests that prosperous nations of the West owe a great debt to the societies they trampled en route to their prosperity This work is important because Newly independent nations of Africa are a primary example of a much vaster phenomenon Western powers continue to sack poorer weaker countries through covert intrigue outright war crippling debts and unfair global labor and trade policies The violences continue because many Westerners still harbor metaphysical assumptions about the supremacy of white Christians over less civilized darker skinned peoples These assumptions depress the possibilities of ethnic minorities within the West continue to influence foreign policy and frustrate global relations and ensure that the overwhelming collateral damage of modern wars is color conscious *Savage Constructions* will appeal to all levels of scholars and students **The Lesser Good** Wendy C. Hamblet, 2009-01-16 Western civilization is founded upon the assumption that there exists a natural order to the world an embedded principle of justice with which human reason is aligned The imagery is seductive However Emil Fackenheim raises a troubling fact in his *To Mend the World* when he names the Holocaust the rupture that ruptures philosophy The Holocaust and countless other

horrors over thousands of years of eager philosophical pursuit could not order the troublesome human soul to that state of justice that the Plato claims to be the most natural and happy state of human beings if they can simply know their best interests The philosopher physician to the human soul has proven impotent in healing the open ethical wound of human inhumanity worse the grand ontological and epistemological structures that philosophers have constructed may be linked to the ethical failures of the planet to colonial and imperial worldviews The work of post Holocaust phenomenologist Emmanuel Levinas is written under the somber backdrop of the Holocaust Levinas by his own admission stages a return to Plato He shares Plato s sense of ethical urgency in the philosophical task but he sets course for a new Platonism that thinks the difference separating rather than the unity gathering being Levinas more than Plato appreciates that the exigencies and labor of everyday life can eclipse the needs of others and waylay the ethical life Levinas too holds out more hope than Plato that the worst human beings can simply forget themselves and their self interested projects and become their brothers keepers Levinas quests for the good beyond being as he challenges the tradition of Western thought and the post Holocaust world to a new ethos we must decide between the starry skies above the ordered ontologies of the Western tradition and the moral law within The Lesser Good represents a timely consideration of the ethical exigencies of human life politics and justice demonstrating that philosophy s fa

Punishment and Shame Wendy C. Hamblet, 2011-01-01 Punishment and Shame A Philosophical Study reveals the economic and religious underpinnings to modern notions of crime and punishment Contra Michel Foucault s claim that modern penal practices witness a revolution in Western moral sensibilities awakened by Enlightenment ideals Hamblet shows that punishment practices in the West grew out of Protestant moralizations capitalist greed and the need for a cheap labor pool

Longing in a Culture of Cynicism Stephan van Erp, Lea Verstricht, 2008 Through current expressions of religion people are confronted with all kinds of longings and desires which have no place in a rationalised and alienated culture At the same time these longings are seeking and finding opportunities for expression How to understand this cultural ambiguity The authors in this volume explore the possibilities of a rationality beyond rationalism reflecting beyond the borders of human imagination on the hidden God

Peace Philosophy and Public Life Greg Moses, Gail Presbey, 2014-03-10 To a world assaulted by private interests this book argues that peace must be a public thing Distinguished philosophers of peace have always worked publicly for public results Opposing nuclear proliferation organizing communities of the disinherited challenging violence within status quo establishments such are the legacies of truly engaged philosophers of peace This volume remembers those legacies reviews the promise of critical thinking for crises today and expands the free range of thinking needed to create more mindful and peaceful relations With essays by committed peace philosophers this volume shows how public engagement has been a significant feature of peace philosophers such as Camus Sartre Dewey and Dorothy Day Today we also confront historical opportunities to transform practices for immigration police interrogation and mental health as we seek to sustain democracies of increasing multicultural diversity In such cases our

authors consider points of view developed by renowned thinkers such as Weil Mouffe Conway and Mart n Bar This volume also presents critical analysis of concepts for thinking about violence reconsiders Plato s philosophy of justice and examines the role of ethical theory for liberation struggles such as Occupy

Contemplating Violence Stefani Engelstein, Carl Niekerk, 2015-06-29 Illuminates the treatment of violence in the German cultural tradition between the French Revolution and the Holocaust and Second World War

Anti-Democratic Thought Erich Kofmel, 2016-05-13 From a historical and cross cultural perspective it cannot be denied that most democracies failed Only western democracies for a short while from the fall of Soviet communism to the rise of radical Islam believed themselves to be invincible It has therefore become necessary to think about political alternatives once more and to study threats to democracy from within and without as well as common modes of failure of democracy across times and cultures This book marks the start of a daring new debate and re introduces anti democratic thought and practice to the academic discourse and into the syllabus It wishes to offer a serious discussion of anti democratic thought rather than an apology of democracy I am the proponent of a new engagement with anti democratic thought This book outlines a positive agenda for the future Erich Kofmel Editor In a comprehensive overview contributors to this volume discuss theoretical perspectives as well as examples of anti democratic thought from ancient Greece to modern day Israel and Bangladesh A book that grew out of an international workshop on Anti Democratic Thought organized by the Sussex Centre for the Individual and Society SCIS and held at the 2007 annual conference Workshops in Political Theory in Manchester England 250 pages PUBLISHER S ANNOUNCEMENT Imprint Academic and Erich Kofmel I have been coming under pressure for several months on the matter of Imprint Academic s publication of this book edited by Erich Kofmel Initially this was from an anonymous group calling themselves For and On Behalf of the Victims of Erich Kofmel They wished me to cancel publication of both Imprint Academic s Kofmel volumes on the grounds that money obtained by alleged fraud has been used in their development My response was a I do not deal with anonymous bodies b Erich Kofmel has not yet been found guilty of fraud c I have a contractual obligation not just to the editor of these volumes but to his contributors That remains essentially my position although the problem of anonymity seems now to have gone I have no wish for the reputation of Imprint Academic to be damaged by its association with Erich Kofmel but neither do I intend to put myself in the wrong by breaking a legal publishing agreement on the basis of unproved allegations I should perhaps add that Imprint Academic s contract with Erich Kofmel has not to date involved any money changing hands in either direction Anthony Freeman Managing Editor Imprint Academic 17th April 2009

Encyclopedia of Criminal Justice Ethics Bruce A. Arrigo, 2014-07-17 Federal state county and municipal police forces all have their own codes of conduct yet the ethics of being a police officer remain perplexing and are often difficult to apply in dynamic situations The police misconduct statistics are staggering and indicate that excessive use of force comprises almost a quarter of misconduct cases with sexual harassment fraud theft and false arrest being the next most prevalent factors The ethical issues and dilemmas in criminal justice also reach deep into the

legal professions the structure and administration of justice in society and the personal characteristics of those in the criminal justice professions The Encyclopedia of Criminal Justice Ethics includes A to Z entries by experts in the field that explore the scope of ethical decision making and behaviors within the spheres of criminal justice systems including policing corrections courts forensic science and policy analysis and research This two volume set is available in both print and electronic formats Features Entries are authored and signed by experts in the field and conclude with references and further readings as well as cross references to related entries that guide readers to the next steps in their research journeys A Reader s Guide groups related entries by broad topic areas and themes making it easy for readers to quickly identify related entries A Chronology highlights the development of the field and places material into historical context a Glossary defines key terms from the fields of law and ethics and a Resource Guide provides lists of classic books academic journals websites and associations focused on criminal justice ethics Reports and statistics from such sources as the FBI the United Nations and the International Criminal Court are included in an appendix In the electronic version the Reader s Guide index and cross references combine to provide effective search and browse capabilities The Encyclopedia of Criminal Justice Ethics provides a general non technical yet comprehensive resource for students who wish to understand the complexities of criminal justice ethics

This is likewise one of the factors by obtaining the soft documents of this **Sacred Monstrous A Reflection On Violence In Human Communities** by online. You might not require more era to spend to go to the ebook creation as skillfully as search for them.
