**Counterheritage** Denis Byrne, 2014-04-16 The claim that heritage practice in Asia is Eurocentric may be well founded but the view that local people in Asia need to be educated by heritage practitioners and governments to properly conserve their heritage distracts from the responsibility of educating oneself about the local popular beliefs and practices which constitute the bedrock of most people's engagement with the material past Written by an archaeologist who has long had one foot in the field of heritage practice and another in the academic camp of archaeology and heritage studies *Counterheritage* is at once a forthright critique of current heritage practice in the Asian arena and a contribution to this project of self education Popular religion in Asia including popular Buddhism and Islam folk Catholicism and Chinese deity cults has a constituency that accounts for a majority of Asia's population making its exclusion from heritage processes an issue of social justice but more pragmatically it explains why many heritage conservation programs fail to gain local traction This book describes how the tenets of popular religion affect building and renovation practices and describes how modernist attempts to suppress popular religion in Asia in the early and mid twentieth century impacted religious heritage Author Denis Byrne argues that the campaign by archaeologists and heritage professionals against the private collecting and looting of antiquities in Asia largely ignores the regimes of value which heritage discourse has helped erect and into which collectors and local diggers play Focussing on the Philippines Thailand and Taiwan but also referencing China and other parts of

Southeast Asia richly detailed portraits are provided of the way people live with old things and are affected by them. Narratives of the author's fieldwork are woven into arguments built upon an extensive and penetrating reading of the historical and anthropological literature. The critical stance embodied in the title *counterheritage* is balanced by the optimism of the book's vision of a different practice of heritage advocating a view of heritage objects as vibrant agentic things enfolded in social practice rather than as inert and passive surfaces subject to conservation.

***All Thirteen: The Incredible Cave Rescue of the Thai Boys' Soccer Team*** Christina Soontornvat, 2020-10-13 A unique account of the amazing Thai cave rescue told in a heart racing you are there style that blends suspense science and cultural insight. On June 23 2018 twelve young players of the Wild Boars soccer team and their coach enter a cave in northern Thailand seeking an afternoon's adventure. But when they turn to leave rising floodwaters block their path out. The boys are trapped. Before long news of the missing team spreads launching a seventeen day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil people begin to wonder how long can a group of ordinary kids survive in complete darkness with no food or clean water. Luckily the Wild Boars are a very extraordinary ordinary group. Combining firsthand interviews of rescue workers with in depth science and details of the region's culture and religion author Christina Soontornvat who was visiting family in Northern Thailand when the Wild Boars went missing masterfully shows how both the complex engineering operation above ground and the mental struggles of the thirteen young people below proved critical in the life or death mission.
