**Sacred Ritual, Profane Space** Jenn Cianca, 2018-05-23 The first three centuries of Christianity are increasingly seen in modern scholarship as sites of complexity Sacred Ritual Profane Space examines the Christian meeting places of the time and overturns long held notions about the earliest Christians as utopian rather than place bound people By mapping what is known from early Christian texts onto the archaeological data for Roman domestic spaces Jenn Cianca provides a new lens for examining the relationship between early Christianity and sites of worship She proposes that not only were Roman homes sacred sites in their own right but they were also considered sacred by the Christian communities that used them In many cases meeting space would have included the presence of the Roman domestic cult shrines Despite the fact that the domestic cult was polytheistic Cianca asserts that its practices likely continued in places used for worship by Christians She also argues that continued practice of the domestic cult in Roman domestic spaces did not preclude Christians from using houses as churches or from understanding their rituals or their meeting places as sacred Raising a host of questions about identity ritual affiliation and domestic practice Sacred Ritual Profane Space demonstrates how sacred space was constructed through ritual enactment in early Christian communities

It explores how the interior design of sacred spaces can influence the tourist experience and shape their perception of these places. The book touches upon elements such as spatial organization, symbolism, material selection, lighting, and acoustics, all of which contribute to creating a meaningful and immersive environment for visitors. It explores the architectural design, ideological motivations, and the historical context surrounding the palace's construction. The book also addresses the eventual abandonment of the project and its transformation of their uses, reflecting on the complexities of realizing utopian visions in architecture. It examines how the sanctuary's architectural design and spatial arrangement interact with the surrounding landscape, including elements such as topography, vegetation, and water features. Moreover, it focuses on the interior design and explores the symbolism, spatial organization, artistic elements, and spiritual experiences associated with the dome interiors of these structures. The book showcases the historical context, cultural influences, and the evolution of design principles that shaped these remarkable spaces. Contributors discuss the meaning of disease, possession, and healing in relation to South Asian religions, including Hinduism, Islam, Buddhism, and Sikhism, and how South Asians deal with the divine in order to negotiate health and wellbeing. The book goes on to look at goddesses, gods, and spirits as a cause and remedy of a variety of diseases, a study that has proved significant to the ethics and politics of responding to health issues. It contributes to a consolidation and promotion of indigenous ways as a method of understanding physical and mental imbalances through diverse conceptions of the divine. Chapters offer a fascinating overview of healing rituals in South Asia and provide a full-length, sustained discussion of the interface between religion, ritual, and folklore. The book presents a fresh insight into studies of Asian Religion and the History of Medicine.

**Mass Religious Ritual and Intergroup Tolerance**

Mikhail A. Alexseev, Sufian N. Zhemukhov, 2017-07-14 Under what conditions does in-group pride facilitate out-group tolerance? What are the causal linkages between intergroup tolerance and socialization in religious rituals? This book examines how Muslims from Russia's North Caucasus returned from the Hajj pilgrimage to Mecca, both more devout as Muslims and more tolerant of out-groups. Drawing on prominent theories of identity and social capital, the authors resolve seeming contradictions between the two literatures by showing the effects of religious rituals that highlight within-group diversity at the same time that they affirm the group's common identity. This theory is then applied to explain why social integration of Muslim immigrants has been more successful in the USA than in Europe and how the largest Hispanic association in the US

defied the clash of civilizations theory by promoting immigrants integration into America s social mainstream The book offers insights into Islam s role in society and politics and the interrelationships between religious faith immigration and ethnic identity and tolerance that will be relevant to both scholars and practitioners Media and Ritual Johanna Sumiala,2013 This wide ranging and accessible book offers a stimulating introduction to the field of media anthropology and the study of religious ritual Johanna Sumiala explores the interweaving of rituals communication and community She uses the tools of anthropological enquiry to examine a variety of media events including the death of Michael Jackson a royal wedding and the transgressive actions which took place in Abu Ghraib and to understand the inner significance of the media coverage of such events The book deals with theories of ritual media as ritual including reception production and representation and rituals of death in the media It will be invaluable to students and scholars alike across media religion and anthropology *Home and Identity in Late Life* Graham D.
