**Sacred Natural Sites** Bas Verschuuren, Robert Wild, Jeffrey Mcneely, Gonzalo Oviedo, 2012-06-25. Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats India, Sagarmatha Chomolungma Mt Everest Nepal, Tibet and China, the Golden Mountains of Altai Russia, Holy Island of Lindisfarne UK and the sacred lakes of the Niger Delta, Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.

It discusses a broad range of issues and phenomena that are related to religion, including nature ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and

moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media

*Sacred Darkness* Holley Moyes, 2012-09-01 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In *Sacred Darkness* contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power and a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves

**Cold War Monks** Eugene Ford, 2017-10-24 The groundbreaking account of U S clandestine efforts to use Southeast Asian Buddhism to advance Washington's anticommunist goals during the Cold War How did the U S government make use of a Buddhist policy in Southeast Asia during the Cold War despite the American principle that the state should not meddle with religion To answer this question Eugene Ford delved deep into an unprecedented range of U S and Thai sources and conducted numerous oral history interviews with key informants Ford uncovers a riveting story filled with U S national security officials diplomats and scholars seeking to understand and build relationships within the Buddhist monasteries of Southeast Asia This fascinating narrative provides a new look at how the Buddhist leaderships of Thailand and its neighbors became enmeshed in Cold War politics and in the U S government's clandestine efforts to use a predominant religion of Southeast Asia as an instrument of national stability to counter communist revolution

Relating to Rock Art in the Contemporary World Liam M. Brady, Paul S.C.  European rivalries **Monastery, Monument, Museum** Maurizio Peleggi, 2017-10-31 Ranging across the longue dur e of  
 Thailand s history Monastery Monument Museum is an eminently readable and original contribution to the study of the  
 kingdom s art and culture Eschewing issues of dating style and iconography historian Maurizio Peleggi addresses distinct  
 types of artifacts and artworks as both the products and vehicles of cultural memory From the temples of Chiangmai to the  
 Emerald Buddha from the National Museum of Bangkok to the prehistoric culture of Northeast Thailand and from the civic  
 monuments of the 1930s to the political artworks of the late twentieth century even well known artworks and monuments  
 reveal new meanings when approached from this perspective Part I Sacred Geographies focuses on the premodern era when  
 religious credence informed the cultural alteration of landscape and devotional sites and artifacts including visual  
 representation of the Buddhist cosmology were created Part II Antiquities Museums and National History covers the 1830s  
 through the 1970s when antiquarianism and eventually archaeology emerged and developed in the kingdom partly the result  
 of a shift in the elites worldview and partly a response to colonial and neocolonial projects of knowledge Part III Discordant  
 Mnemoscapes deals with civic monuments and artworks that anchor memory of twentieth century political events and  
 provide stages for both their commemoration and counter commemoration by evoking the country s embattled political  
 present Monastery Monument Museum shows us how cultural memory represents a kind of palimpsest the result of multiple  
 inscriptions reworkings and manipulations over time The book will be a rewarding read for historians art historians  
 anthropologists and Buddhism scholars working on Thailand and Southeast Asia generally as well as for academic and  
 general readers with an interest in memory and material culture
