**Contemporary Chinese Art** Hsingyuan Tsao, Roger T. Ames, 2011-09-01 How Chinese is contemporary Chinese art Treasured by collectors critics and art world cognoscenti this art developed within an avant garde that looked West to find a language to strike out against government control Traditionally Chinese artistic expression has been related to the structure and function of the Chinese language and the assumptions of Chinese natural cosmology Is contemporary Chinese art rooted in these traditions or is it an example of cultural self colonization Contributors to this volume address this question going beyond the more obvious political and social commentaries on contemporary Chinese art to find resonances between contemporary artistic ideas and the indigenous sources of Chinese cultural self understanding Focusing in particular on the acclaimed artist Xu Bing this book looks at how he and his peers have navigated between two different cultural sites to establish a third place a place from which to appropriate Western ideas and use them to address centuries old Chinese cultural issues within a Chinese cultural discourse

**What's the Use of Art?** Jan Mrazek, Morgan Pitelka, 2007-12-03 Post Enlightenment notions of culture which have been naturalized in the West for centuries require that art be autonomously beautiful universal and devoid of any practical purpose The authors of this multidisciplinary volume seek to complicate this understanding of art by examining art objects from across Asia with attention to their functional ritual and everyday contexts From tea bowls used in the Japanese tea ceremony to television broadcasts of Javanese puppet theater from Indian wedding chamber paintings to art looted by the British army from the Chinese emperor's palace from the adventures of a Balinese magical dagger to the political functions of classical Khmer images the authors challenge prevailing notions of artistic value by introducing new ways of thinking about culture The chapters consider art objects as they are involved in the world how they operate and are experienced in specific sites collections rituals performances political and religious events and imagination and in individual peoples lives how they move from one context to another and change meaning and value in the process for example when they are collected traded and looted or when their images appear in art history textbooks how their memories and pasts are or are not part of their meaning and experience Rather than lead to a single universalizing definition of art the essays offer multiple divergent and case specific answers to the question What is the use of art and argue for the need to study art as it is used and experienced Contributors Cynthia J. **The Sacred Science of Ancient Japan** Avery Morrow, 2014-01-24 The first English translation and examination of secret Japanese writings dating from the paleolithic to classical eras Examines four suppressed and secret texts to discover the deeper truths beneath Japanese mythology Introduces evidence of ancient civilizations in Japan the sacred geometry of primitive times and claims of a non Earthly origin of the Emperors Explores how these texts convey the sacred spiritual science of Japan's Golden Age with parallels in ancient India Europe and Egypt In Japan there are roughly two dozen secret manuscripts originally dating back to the paleolithic era the age of heroes and gods that have been handed down by the ruling families for centuries

Rejected by orthodox Japanese scholars and never before translated into English these documents speak of primeval alphabets lost languages forgotten technologies and the sacred spiritual science Some even refer to UFOs Atlantis and Jesus coming to Japan Translating directly from the original Japanese Avery Morrow explores four of these manuscripts in full as well as reviewing the key stories of the other Golden Age chronicles In the Kujiki manuscript Morrow uncovers the secret symbolism of a Buddhist saint and the origin of a modern prophecy of apocalypse In the Hotsuma Tsutaye manuscript he reveals the exploits of a noble tribe who defeated a million strong army without violence In the Takenouchi Documents he shows us how the first Japanese emperor came from another world and ruled at a time when Atlantis and Mu still existed And in the Katakamuna Documents the author unveils the sacred geometries of the universe from the symbolic songs of the 10 000 year old Ashiya tribe He also discusses the lost scripts known as the Kamiyo Moji and the magic spiritual science that underlies all of these texts which enabled initiates to ascend to higher emotional states and increase their life force Taking a spiritual approach la Julius Evola to these parahistorical chronicles Morrow shows how they access a higher order of knowledge and demonstrate direct parallels to many ancient texts of India Europe and Egypt

**Cuchama and Sacred Mountains** Walter Yeeling Evans-Wentz,1981 W Y Evans Wentz great Buddhist scholar and translator of such now familiar works as the Tibetan Book of the Dead and the Tibetan Book of the Great Liberation spent his final years in California There in the shadow of Cuchama one of the Earth's holiest mountains he began to explore the astonishing parallels between the spiritual teaching of America's native peoples and that of the deeply mystical Hindus and Tibetans Cuchama and Sacred Mountains a book completed shortly before his death in 1965 is the fruit of those explorations To Cuchama Exalted High Place came the young Cochimi and Yuma boys for initiation into the mystic rites for their people In solitude they sought and received guidance and wisdom In this same way the peoples of ancient Greece the Hebrews the early Christians and the Hindus had found access to inner truth on their own holy mountains and in this same way must the modern person find the path to inner knowing Surveying many of the most Sacred Mountains in North America South America Europe and Asia Evans Wentz expresses the belief that the secret power of these high places has not passed away but only awaits the coming of a New Age This new age in accord with the oldest prophecies of our continent will be a time of renaissance the long waited era of harmony and peace among all peoples This renaissance shall be uniquely American a

renewal based on the values so long honored by the Americans before Columbus and so ruthlessly trampled by the civilized Europeans who overran them No other race of people has been as spiritual in their way of life than the original Americans notes Evans Wentz Perhaps none other has known such martyrdom Yet the secret greatness of the Indian religion still lives ancient as the Earth itself yet ageless in its power to renew
