## KRISTEVA ON WOMEN AND VIOLENCE

MARTHA J. REINEKE

"An important and exciting contribution to the field of feminist theory, social theory, and continental philosophy . . . that will interest not only students of Kristeva, but those who are interested in all forms of social violence, feminist theory, and women's issues as well." —Tamzin Lorraine, Swarthmore College

Why did medieval women mystics starve themselves? What caused the European witch hunts, and why were its victims tortured and killed? Why has the Christian West regularly found maternal figures threatening? To answer these questions, Martha Reineke advances a theory of sacrifice, inspired by Julia Kristeva and René Girard, that attempts to account for violence in Western culture, the human proclivity for bodily mutilation and abuse, and women's special vulnerability to violence.

Reineke understands sacrifice as an effort to counter unrest and disorder in society. She gives special attention to two especially perplexing questions: Why must victims die in order for the sacrificial gesture to be effective? What accounts for the ritual probing, mutilation, and slow death of the victim? With Kristeva, Reineke traces the logic of sacrifice to the infant's struggle to separate from the maternal body and acquire its own place in the world. During times of crisis, humans recall those long-forgotten efforts and ritually reinvoke them, often with lethal consequences. Reading the stories of mystics, witches, and mothers in light of this scenario, Reineke explains how the pattern of violence described here has placed women especially at risk — and why religion has played a pivotal role.

A challenging and controversial book, *Sacrificed Lives* constructs an important bridge between "esoteric," postmodern theory and "ordinary" human life, as it furthers a vital philosophical debate on the question of violence.

MARTHA J. REINEKE is Associate Professor of Religion and Director of the Graduate Program in Women's Studies at the University of Northern Iowa.

analyzes some major areas of biblical practices to shed some light on the Christian's God-intended and success-oriented obligations in life. By design, the title of this book employs one key biblical term, altars, and one key biblical phrase, living sacrifices, to shed light into the author's intent. Chapter 1 introduces and explores the subject of Old Testament godly altars and sacrifices. Chapter 2 defines the phrase living sacrifice and discusses how and why Christians are described as living sacrifices in the modern age as opposed to animal sacrifices of the Old Testament days. Chapter 3 describes the nature of modern-day spiritual altars of living sacrifices as reflected in our lives as God's children. It also notes that the symbolic meaning of our modern-day spiritual altars of worship is defined by our trust in God and by our commitment and obedience to Him. Chapter 4 describes how to build your personal spiritual altar so that you can have a closer walk with God. Chapter 5 examines the benefits of serving the Lord as living sacrifices. This section aims to remind and encourage all laborers that there are great and unimaginable benefits and rewards here on earth and in heaven above when we serve the Master as living sacrifices. Chapter 6 introduces the reader to how to be born again into the Kingdom of God.

The Politics to Come Arthur Bradley, Paul Fletcher, 2010-02-18. The Politics to Come brings together an international collection of thinkers to consider the meaning of liberal democratic modernity at a moment when its future has never been less certain. It examines the explosive threats the liberal order confronts today: financial meltdown, religious extremism, environmental catastrophe. Yet it also seeks to place these singularly modern crises within a much longer history. For the contributors to this collection, it is the ancient religious tradition called the messianic that provides the critical lens through which modernity may be interrogated. In its ongoing struggles with the messianic, liberal modernity confronts the promise and threat of a radically new Politics to Come. So what are the Politics to Come? How do they manifest themselves throughout history? Why does the possibility of a messianic judgement continue to haunt the western political imaginary? This collection offers a series of political, philosophical, and theological perspectives from which the future of liberal modernity, if it has one, can be imagined.

Neoliberal Citizenship Luca Mavelli, 2022-02-15. With cosmopolitan illusions put to rest, Europe is now haunted by a pervasive neoliberal transformation of citizenship that subordinates inclusion, protection, and belonging to rationalities of value. Against the backdrop of four major crises: Eurozone, refugee, Brexit, and the COVID-19 pandemic, this book explores how neoliberal citizenship rewrites identities and solidarities in economic terms. The result is a sacralized market order in which those superfluous to economic needs and regarded as unproductive consumers of resources—be they undocumented migrants, debased citizens of austerity, or the elderly in care homes—are excluded and sacrificed for the well-being of the economy. Pushing biopolitical theorizing in novel directions through an investigation of the political economy of scarcity and the theology of the market, Neoliberal Citizenship reveals how a common thread connects the suspension of search and rescue missions in the Mediterranean, the punitive bailout of Greece, the widespread adoption of austerity measures, the normalization of racism, the celebration of resilience, and the fact that in Europe and North America during the first wave of

the pandemic almost half of all COVID 19 deaths were care home residents This thread is the sacralization of the market that by making life conditional upon its economic and emotional value turns less valuable individuals into sacrificial subjects Neoliberal Citizenship challenges established understandings of citizenship brings to light new regimes of inclusion and exclusion and advances critical insights on the future of neoliberalism in a post COVID 19 world *The Ancient Wisdom* Annie Besant,1914 *The Ancient Wisdom* Annie Besant,2023-03-13 For those intimidated by Madame Blavatsky s massive and complex tome *The Secret Doctrine* Annie Besant presents the basic tenets of Theosophical thought in a concise easy to digest format While a much easier read this book still delivers the full spectrum and depth of the Theosophical philosophy

**Mr Bligh's Bad Language** Greg Dening,1994-03-25 Captain Bligh and the mutiny on the Bounty have become proverbial in their capacity to evoke the extravagant and violent abuse of power But William Bligh was one of the least violent disciplinarians in the British navy It is this paradox which inspired Greg Dening to ask why the mutiny took place His book explores the theatrical nature of what was enacted in the power play on deck on the beaches at Tahiti and in the murderous settlement at Pitcairn on the altar stones and temples of sacrifice and on the catheads from which men were hanged Part of the key lies in the curious puzzle of Mr Bligh s bad language

**Living Nonviolently** Gabriel Moran,2011-03-31 Are human beings naturally violent Is war the fate of the human race Despite the depressing record of the past the world s future depends upon avoiding war and drastically reducing violence Living Nonviolently Language for Resisting Violence examines carefully the language of violence and war One of the first casualties of violence is language which in turn makes resistance to violence difficult to articulate In the first four chapters Gabriel Moran proposes distinctions for the interconnected ideas of force power aggressiveness violence and war not to invent a new and logical language but to ground the meaning of these terms in our human experience That revitalization of ordinary language depends upon an inclusive language of men and women adults and children human and nonhuman animals The fifth chapter locates the potential for both encouraging violence and resisting violence in the peculiar logic of religion Jesus Sermon on the Mount is commonly invoked by people who say that nonviolence may be an admirable ideal for a few people but it is

irrelevant for most people and for all nations in this chapter Moran examines the widely misunderstood sermon in detail to illustrate its potential for resisting violence For a conclusion he discusses practical means of education that are helpful to reaching some understanding of violence and resistance to violence Living Nonviolently is written for scholars in peace studies political philosophy or religious studies and for anyone who wishes to understand the roots of violence and war

**Atonement** Eleonore Stump, 2018 The doctrine of the atonement is the distinctive doctrine of Christianity Over the course of many centuries of reflection highly diverse interpretations of the doctrine have been proposed In the context of this history of interpretation Eleonore Stump considers the doctrine afresh with philosophical care Whatever exactly the atonement is it is supposed to include a solution to the problems of the human condition especially its guilt and shame Stump canvasses the major interpretations of the doctrine that attempt to explain this solution and argues that all of them have serious shortcomings In their place she argues for an interpretation that is both novel and yet traditional and that has significant advantages over other interpretations including Anselm's well known account of the doctrine In the process she also discusses love union guilt shame forgiveness retribution punishment shared attention mind reading empathy and various other issues in moral psychology and ethics Sacrifice and the Body John Dunnill, 2016-04-08 What is sacrifice For many people today the word has negative overtones suggesting loss or death or violence But in religions ancient and modern the word is linked primarily to joyous feasting which puts people in touch with the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill's study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation The Works ... Tyner, 2012-05-31 This groundbreaking book brings an important spatial perspective to our understanding of genocide through a fresh interpretation of Germany under Hitler Cambodia under the Khmer Rouge and China's Great Leap Forward famine under Mao James A Tyner's powerful analysis of these horrifying cases provides insight into the larger questions of sovereignty and state policies that determine who will live and who will die Specifically he explores the government practices that result in genocide and how they are informed by the calculation and valuation of life and death A geographical perspective on genocide highlights that mass violence in the minds of perpetrators is viewed as an effective and legitimate strategy of state building These three histories of mass violence demonstrate how specific states articulate and act upon particular geographical concepts that determine and devalue the moral worth of groups and individuals Clearly and compellingly written this book will bring fresh and valuable insights into state genocidal behavior
