Dworkin,2025-02-25 Andrea Dworkin s 1981 critique of pornography is an important and urgent document about how the culture consumes and manipulates images of women Essential and discomfiting reading in a social media era where women s bodies are being commodified and displayed more than ever Andrea Dworkin s seminal 1981 work on the issue of pornography argues that the industry serves only to harm and oppress women Her discussion of pornography as an outgrowth of the power that men exert over women the power of owning the power of money and the power of sex among others still blazes with its clarity and immediacy and illustrates how these inequities while displayed in raw form in pornography are endemic in all media With a lively and deeply compelling voice Andrea Dworkin succinctly outlines her anti pornography stance Though the media environment may have changed this passionately and powerfully argued classic remains a relevant and crucial contribution to the area of feminist studies Light on Life Hart Defouw,Robert

Svoboda,1996 Jyotish or Indian astrology is an ancient and complex method of exploring the nature of time and space and its effect upon the individual Formerly a closed book to the West the subject has now been clarified and explained by Hart deFouw and Robert Svoboda two experts and long term practitioners In Light on Life they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology Jyotish states that by considering the state of the cosmos when an event occurs we can begin to understand its nature and to prepare an appropriate response Although there are similarities with Western astrology there are also profound differences Jyotish is above all infused with the religious psychological and physical spirit of India This comprehensive and enlightening book on the subject will prove a necessity to every astrologer or student of Indian thought **The Self and Its Pleasures** Carolyn J.

Dean,2016-11-01 Why did France spawn the radical poststructuralist rejection of the humanist concept of man as a rational knowing subject In this innovative cultural history Carolyn J Dean sheds light on the origins of poststructuralist thought paying particular attention to the reinterpretation of the self by Jacques Lacan Georges Bataille and other French thinkers Arguing that the widely shared belief that the boundaries between self and other had disappeared during the Great War helps explain the genesis of the new concept of the self Dean examines an array of evidence from medical texts and literary works alike The Self and Its Pleasures offers a pathbreaking understanding of the boundaries between theory and history

*Sade's Philosophical System in its Enlightenment Context* Henry Martyn Lloyd, 2018-09-05 This book connects the philosophy of the Marquis de Sade one of the most notorious iconic and yet poorly understood figures within the history of European thought with the broader themes of the Enlightenment Rather than seeing himself as a mere pornographer Sade understood himself as continuing the progressive tradition of French Enlightenment philosophy Sade aspired to be a philosophe This book uses intellectual history and the history of philosophy to reconstruct Sade's philosophical system and its historical context Within the period's discourse of sensibility Sade draws on the philosophical and the literary to form a relatively sophisticated system which he deploys to critically engage with the two major strands of eighteenth century ethical theory the moral sense and natural law traditions This work is of interest to Continental Philosophy Critical Theory French Studies the History of Eighteenth Century Philosophy Literary Studies the History of Moral Philosophy and Enlightenment Studies

**The Corporeal Turn** John Tambornino, 2002 In *The Corporeal Turn* political theorist John Tambornino offers a thorough rethinking of ethical and political theory by emphasizing human embodiment and the primacy of passion and need in response to the neglect of these matters in much of contemporary thought Tambornino calls for a corporeal turn or as he explains sustained attention to human embodiment something that is often occluded when priority is given to reason or language Working through a diverse set of thinkers exploring such themes as necessity and freedom need and desire nature and convention and public and private and noting vivid instances of politicized embodiment Tambornino takes seriously Nietzsche's claim that philosophy has largely been an interpretation and misunderstanding of the body The result is nothing less than a new orientation to ethical and political theory one that appreciates the complex relations of language politics culture and corporeality and a powerful intervention into those domains

**The Marquis de Sade's Stratagem of Love** Bedrettin Simsek,2023-07-05 A revival of the classical style in the comedy genre based on the short story The Love Stratagem by the Marquis de Sade Almost all the lines plot intrigues and characters except for Villeblanche were created by the author So much so that the play does not contradict the style of the Marquis de Sade either literally or intellectually It is a comedy reminiscent of Moli re but with a Sadean taste A woman disguised as a man is a typical Shakespearean theme Bedrettin introduced this theme with the same sense of humor The characteristics of the play include the use of double entendre cross dressing comic love scenes cynicism and other forms of bold language For those who want to rediscover classic comedy with a modern touch
