Sadhohal Lectures On Nyaya:

The Nyaya Theory of Knowledge Satischandra Chatterjee, 2016-01-01 As a system of realism the Nyaya deserves special study to show that Idealism was not the only philosophical creed of ancient India This book is an attempt to give a complete account of the Nyaya theory of knowledge in comparison with the rival theories of other systems Indian and Western and critical estimation of its worth Though theories of knowledge of the Vedānta and other schools have been partially studied in this way by some there has as yet been no such systematic critical and comparative treatment of the Nyaya epistemology The importance of such a study of Indian realistic theories of knowledge can scarcely be overrated in this modern age of Realism

Verhandelingen der Koninklijke Nederlandse Akademie van Wetenschappen, Afd. Letterkunde, 1917 Indian Thought, 1912 **Buddhist Formal Logic** R. S. Y. Chi, 1984-01-01 This work is primarily an interpretation of Indian Logic preserved in China The material is mainly taken from Kuei Chi's Great Commentary on the Nyayapravasa It is not design to be a comprehensive study of Indian Logic in general nor is it planned to be a complete exposition of Kuei Chi's work in particular Its scope is confined to formal Logic The author's intentions are to solve problems which have not yet been settled and to interpret instead of duplicating what other people have already done Much more attention has been made to fundamental principles and less to the list of fallacies in particular less to the overelaboration which does not make much sense either theoretically or practically Sādhohāl Lectures on Nyāya Sir Ganganatha Jha, 1994 Lectures on Nyayasutra of Gautama aphoristic work of the Nyaya school in Hindu philosophy **Indian Psychology Perception** Jadunath Sinha, 2013-10-08 This is Volume IV of six in a collection on Psychology and Religion Originally published in 1934 this study looks at perception in Indian Psychology it gives a brief compass an outline of the most important topics of Indian Psychology

Junankar, 2016-01-01 In this study of the Nyaya Philosophy as propounded by Gautama and explained by Vatsyayana and Uddiyotakara the author has examined the empirical foundations of its theory of cognition and proof and the validity of the conclusions based on them The analysis reveals that the Nyaya theory does not warrant the nature career and destiny of the self atman The conceptual framework rests upon the questionable assumption that not only is the experience of the expert apta incorrigible but his communication of that experience is authentic The framework can only be understood in its social context The author maintains that Indian religious and philosophical thought must be judged not only in the light of criteria generally accepted in these fields but also in the broad perspective of the social and intellectual background of the thinkers usually regarded as risis beyond the pale of society The study is both a challenge to the traditional presentation of the Indian cultural heritage and a constructive hypothesis for further research and reappraisal on new lines Buddhist Review, 1914
