Saemtliche Werke Volume 12:

Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art Jon Stewart, 2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker his writings have also been used extensively by literary writers critics and artists worldwide who have been attracted to his creative mixing of genres his complex use of pseudonyms his rhetoric and literary style and his rich images parables and allegories The goal of the present volume is to document this influence in different language groups and traditions Tome I explores Kierkegaard s influence on literature and art in the Germanophone world He was an important source of inspiration for German writers such as Theodor Fontane Thomas Mann Rainer Maria Rilke Alfred Andersch and Martin Walser Kierkegaard s influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner Karl Kraus Robert Musil and Hermann Broch Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner* Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt The famous Czech author Franz Kafka identified personally with Kierkegaard s love story with Regine Olsen and made use of his reflections on this and other topics **Paracelsus's Theory of Embodiment** Amy Eisen Cisló, 2015-09-30 Paracelsus has been called the father of modern chemistry and is legendary for his treatment of syphilis This work argues that Paracelsus developed an understanding of the body as composed of two distinct sexes revolutionizing early modern conceptions of the female body as an inversion of or flawed approximation of the male body *Tensions in World Literature* Weigui Fang, 2018-09-28 This collection gives a diversified account of world literature examining not only the rise of the concept but also problems such as the relation between the local and the universal and the tensions between national culture and global ethics In this context it focuses on the complex relationship between Chinese literature and world literature not only in the sense of providing an exemplary case study but also as an introspection and re location of Chinese literature itself The book activates the concept of world literature at a time when it is facing the rising modern day challenges of race class and culture **Why the Sky is Blue** Götz Hoeppe, 2007-04-08 Delightful and intriguing Why the Sky is Blue shows how the attempt to answer this age old and deceptively simple question only enhances the magic of the blue sky we see above us *Wild, Unforgettable Philosophy* Monad Rrenban, 2005-01-01 Through reading the early work of Walter Benjamin up to and including the *Trauerspiel* author Monad Rrenban elicits a cohesive conception of the wild unforgettable form philosophy as inherent in everything This book distinct in its analysis and depth of analysis elaborates the wild unforgettable form philosophy in relation to language the discipline and the practice of philosophy criticism and the politics of death **A House Built on Sand** Noretta Koertge, 1998-08-27 Cultural critics say that science is politics by other means arguing that the results of scientific inquiry are profoundly shaped by the ideological agendas of powerful elites They base their claims on historical case studies purporting to show the systematic intrusion of

sexist racist capitalist colonialist and or professional interests into the very content of science Physicist Alan Sokal recently poked fun at these claims by foisting a sly parody of the genre on the unwitting editors of the cultural studies journal *Social Text* touching off a still unabated torrent of editorials articles and heated classroom and Internet discussion This hard hitting collection picks up where Sokal left off The essayists offer crisp and detailed critiques of case studies offered by the cultural critics as evidence that scientific results tell us more about social context than they do about the natural world Pulling no punches they identify numerous crude factual blunders e g that Newton never performed any experiments and egregious errors of omission such as the attempt to explain the slow development of fluid dynamics solely in terms of gender bias Where there are positive aspects of a flawed account or something to be learned from it they do not hesitate to say so Their target is shoddy scholarship Comprising new essays by distinguished scholars of history philosophy and science including Sokal himself this book raises a lively debate to a new level of seriousness *The Tragic Absolute* David Farrell Krell, 2005 Exposes the core of tragic absolutes in German Romantic and Idealist philosophy **The Cross and the Star** Wayne Cristaudo, Frances Huessy, 2009-05-27 Eugen Rosenstock Huessy a Christian convert and a social philosophy scholar had an intense conversation with the Jewish thinker Franz Rosenzweig in 1913 This Leipzig Conversation shattered Rosenzweig's understanding of the meaning of religion but it also propelled him to embrace his innate Jewish faith Three years later they engaged in a correspondence that has emerged as an historic stunning dialogue on Jewish Christian thinking Rosenzweig went on to write *The Star of Redemption* a classic work of modern Jewish philosophical theology and to become one of the most important and influential figures of twentieth century German Jewry Rosenstock Huessy took a different path writing his *Sociology* which pointed the social sciences in a new direction based on speech thinking and an enormous rich body of work covering grammar and society revolutions Church history and industrial law teaching generations of European and American university students and putting his faith into action This is the first major collection of essays on these two close friends new thinking Their dialogue mirrored Nietzsche's anti transcendent reading of Judaism and Christianity as well as his attack on idealism But their dialogue also resurrected the redemptive cores of these faiths as sources for the rejuvenation of human society This book brings to publication three essays by Rosenstock Huessy on Nietzsche and a translation of a chapter from his *Sociology* clarifying the post Nietzschean approach of the new thinking *The Cross and the Star* a 50 year span of significant scholarship vivifies the reasons for Rosenzweig's and Rosenstock Huessy's influence on faith and society and why their respective thought speaks directly and enduringly to the global human challenges of our time **Between Transcendence and Historicism** Brian K. Etter, 2006-06-01 *Between Transcendence and Historicism* explores Hegel's aesthetics within the larger context of the tradition of theoretical reflection to emphasize its unique ability to account for traditional artistic practice Arguing that the concept of the ethical is central to Hegel's philosophy of art Brian K Etter examines the poverty of modernist aesthetic theories in contrast to the affirmation by Hegel of the necessity of art He focuses

on the individual arts in greater detail than is normally done for Hegel's aesthetics and considers how the dual constitution of the ethical nature of art can be justified both within Hegel's own philosophical system and in terms of its relevance to the dilemmas of modern social life Etter concludes that the arts have a responsibility to represent the goodness of existence the ideal and the ethical life in dignifying the metaxological realm through their beauty

Volume 10, Tome I: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be instrumental for Kierkegaard's breakthrough internationally shortly after the turn of the twentieth century Leading figures of the movement of dialectical theology such as Karl Barth Emil Brunner Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard's thought among generations of German theology students Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of Kierkegaard's published works Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times
