

Hamlet is a tragic play composed in the 16th century by William Shakespeare. It's the longest of Shakespeare's plays and is said to be one of the most popular. The play revolves around Hamlet, the crown prince who came home after the murder of his father, King Hamlet. Claudius Prince Hamlet is blamed for the death of the King, and he soon marries Queen Gertrude, who is Hamlet's mother. Marriage makes Claudius the Ruler of the Kingdom a question that is not pleasing to Prince Hamlet. Hamlet undertakes a number of activities aimed at establishing the cause of his father's death. He is haunted by the ghost of his father, who seeks revenge for his death. The play inculcates several artistic features to that makes it interesting and captivating to watch and read. The following paper seeks to elaborate the several artistic features that are prevalent in the play. It further seeks to understand the ability and effectiveness of Hamlet in using drama to address his problems. It is important to note that the play, The Tragedy of Hamlet Prince of Denmark is set during war times. Denmark and Norway are at war and the latter is planning a revenge after King Fortinbras was killed by the Danes (Eliot 98). Shakespeare reciprocates the war theme in the play by equipping the different character with different levels of skills and levels in acting. The character creatively and intuitively uses their skills to combat each other. The play portrays characters who are discontent with their present fate and are eager to go to any lengths to forge new reality that will suits their perceived agendas. King Claudius and prince Hamlet ranks as the most skilled in their use of deception as tool to achieve their goals. They wittingly use deception to manipulate and control others to fit in their reality. Deception which is rife throughout the play has been perfected as an art and also as a weapon to be used against perceived enemies. Hamlet is secretly fostering hatred for his uncle, King Claudius. He seeks to avenge for the blood of his father who he suspects was killed by Claudius. He has resolved to expose Claudius guilt to the whole of Denmark (Simon 710). In a move to get closer to his goals he deceptively stages a play seeking to reenact the death of his father. He invites the King Claudius and Gertrude his mother who are unaware about the content of the play. The play staged within Shakespeare's play is directed to Claudius whom it seeks to reveal his guilt. Art is predominantly known to capture a person's true reflection in their genuine conscience. The king is overcome by the power of the play and is caught off guard when he retreats to his chambers even before the play is over. He retreats to pray for forgiveness as he is haunted by his actions of killing his brother. In his chambers he engages in serious thoughts on whether to repent of his actions and accepts the consequences or keep on denying. Hamlets see this as a clear indication that Claudius is guilty of his action and follows him up to his chamber with an intention of killing him. He finds him praying where reasons that he will not attack him since he would send him straight to heaven and his father would remain forever in purgatory. Queen Gertrude is angered by the play and engages Hamlet in a heated discussion rebuking him for his actions (Simon 710). The play is clear indication of the ability of art to be used as mirror together with deception with a goal of determining authenticity. The play within play has an immense impact on Claudius as it pulls away the false artificial disguise he had been holding up over the death of his brother, King Hamlet. The anger on Queen Gertrude is also clear indication of the effectiveness of the play with in a play (Eliot 98). She is adamant for the truth has been revealed and their conspiracy to kill her husband is now in the public domain. The play reveals the true reality of the monarch which was embedded on foundations fantasy and lies. The king Claudius is not the true legitimate heir to the crown and has been living in pretense. Hamlet uses the play as a tool to reveal and expose the illegitimacy of the king Claudius. He further uses deception to invite the king and queen to watch the play without knowing that they are the target. Following the play it becomes evident that Claudius is bent on eliminating Hamlet for having discovered the truth. Since Hamlet returned to mourn his father Claudius had been mocking him for having genuine and authentic grief over his late father. He questions why the cloud of grief is still upon him "How is it that the clouds still hang on you?" (III.ii.99) (Eliot 98). Together with Queen Gertrude they question the source of his grief citing that everyone had moved on past from him. She question him on the particularity of his grief which is different from every other Dane. This clearly indicate the queen's feeling of guilty for her role in the death of her husband and marriage to Claudius. The

Shakespeare's Art Of Orchestration:

Shakespeare's Art of Orchestration Jean Elizabeth Howard, 1984 *Analyzing Shakespeare's Action* Charles A. Hallett, Elaine S. Hallett, 1991-04-04 Here the authors invite the reader to follow the actions of Shakespeare's plays. They show that the conventional division of the plays into scenes does not help one to discover how the narrative works and offer instead a division into smaller units which they define as beats, sequences and frames **Shakespeare's Theatre** Hugh Macrae Richmond, 2004-01-01 Under an alphabetical list of relevant terms, names and concepts, the book reviews current knowledge of the character and operation of theatres in Shakespeare's time with an explanation of their origins.

Shakespeare's Dark Lady John Hudson, 2014-03-15 Amelia Bassano Lanier is proved to be a strong candidate for authorship of Shakespeare's plays. Hudson looks at the fascinating life of this woman believed by many to be the dark lady of the sonnets and presents the case that she may have written Shakespeare's plays **Shakespeare and Audience in Practice** Stephen Purcell, 2013-11-26 What do audiences do as they watch a Shakespearean play? What makes them respond in the ways that they do? This book examines a wide range of theatrical productions to explore the practice of being a modern Shakespearean audience. It surveys some of the most influential ideas about spectatorship in contemporary performance studies and analyses the strategies employed both in the texts themselves and by modern theatre practitioners to position audiences in particular ways Making Sense of Shakespeare Charles H. Frey, 1999 He argues that Lear's howl, for example, targets and rewards physical hearing, physical speaking and their accompanying emotions as somatically connected to current or remembered sensations in mouth, throat and lungs. **BOOK JACKET** **Shakespeare** Peter Ackroyd, 2010-04-21 A **TIMES LITERARY SUPPLEMENT BEST BOOK OF THE YEAR**. Drawing on an exceptional combination of skills as literary biographer, novelist and chronicler of London history, Peter Ackroyd surely re-creates the world that shaped Shakespeare and brings the playwright himself into unusually vivid focus. With characteristic narrative panache, Ackroyd immerses us in sixteenth-century Stratford and the rural landscape, the industry, the animals, even the flowers that would appear in Shakespeare's plays. He takes us through Shakespeare's London neighborhood and the fertile, competitive theater world where he worked as actor and writer. He shows us Shakespeare as a businessman and as a constant reviser of his writing. In joining these intimate details with profound intuitions about the playwright and his work, Ackroyd has produced an altogether engaging masterpiece *Shakespeare's Dramatic Transactions* Michael Mooney, 1991-07-31 Shakespeare's *Dramatic Transactions* uses conventions of performance criticism, staging and theatrical presentation to analyze seven major Shakespearean tragedies: Hamlet, Othello, King Lear, Macbeth, Antony and Cleopatra, Richard II, and Richard III. As scholars and readers increasingly question the theoretical models used to describe the concepts of mimesis and representation, this book describes how the actor's stage presentation affects the actor's representational role and the ways in which viewers experience Shakespearean tragedy. Michael Mooney draws on the work of East German critic Robert Weimann and his

concept of figure-position the correlation between an actor's stage location and the speech action and stylization associated with that position to understand the actor stage location relationship in Shakespeare's plays In his examination of the original staging of Shakespeare's tragedies Mooney looks at the traditional interplay between a downstage place and upstage location to describe the difference between non illusionistic action often staged near the audience and the illusionistic localized action that characterizes mimetic art The innovative and insightful approach of Shakespeare's Dramatic Transactions brings together the techniques of performance criticism and the traditional literary study of Shakespearean tragedy In showing how the distinctions of stage location illuminate the interaction among language representation Mooney's compelling argument enhances our understanding of Shakespeare and the theater Late Shakespeare, 1608-1613 Andrew J. Power, Rory Loughnane, 2013 In Late Shakespeare 1608 1613 leading international Shakespeare scholars provide a contextually informed approach to Shakespeare's last seven plays **A New Variorum Edition of Shakespeare CORIOLANUS Volume II** David George, 2019-01-16 Irregular Doubtful and Emended Accidentals in F1 In the Textual Notes the lemma is the reading of this edition's text In these notes for emendations to F1 the lemma is followed by the siglum or sigla of the edition's from which the emendation is taken and then by the rejected F1 reading and the siglum or sigla of the 17th c editions reading differently from the lemma Where no source is given for the emendation the adopted reading is not in any of the folios Doubtful and irregular readings are merely listed indicates that the reading is found in a full line i.e. one that runs all or nearly all of the way to the right margin indicates doubt or an alternative to the reading adopted although not necessarily correct in the judgment of the editor Elsewhere means that a spelling other than that in the lemma is to be found wherever else that word appears in the F1 text
