

SONNET 147

My love is as a fever, longing still
For that which longer nurseth the disease,
Feeding on that which doth preserve the ill,
Th' uncertain sickly appetite to please.

My reason, the physician to my love,
Angry that his prescriptions are not kept,
Hath left me, and I desperate now approve
Desire is death, which physic did except.
Past cure I am, now reason is past care,
And frantic-mad with evermore unrest
My thoughts and my discourse as madmen's
are,

At random from the truth vainly expressed
For I have sworn thee fair, and thought thee
bright,

Who art as black as hell, as dark as night

Paul Edmondson, Stanley W. Wells, Stanley Wells, 2004 The sonnets are among the most accomplished and fascinating poems in the English language They are central to an understanding of Shakespeare's work as a poet and poetic dramatist and while their autobiographical relevance is uncertain no account of Shakespeare's life can afford to ignore them So many myths and superstitions have arisen around these poems relating for example to their possible addressees to their coherence as a sequence to their dates of composition to their relation to other poetry of the period and to Shakespeare's plays that even the most naive reader will find it difficult to read them with an innocent mind Shakespeare's Sonnets dispels the myths and focuses on the poems Considering different possible ways of reading the Sonnets Wells and Edmondson place them in a variety of literary and dramatic contexts in relation to other poetry of the period to Shakespeare's plays as poems for performance and in relation to their reception and reputation Selected sonnets are discussed in depth but the book avoids
