Shaping A President:

The Psychological Assessment of Presidential Candidates Stanley A Renshon, 1996-05-01 Debate on public issues and where candidates stand on them have traditionally represented the focal point of presidential campaigns In recent decades however rather than asking where candidates stand on the issues the public increasingly wants to know who they are The issue of character has thus come to dominate presidential elections While there is increasing public awareness that the psychology judgment and leadership qualities of presidential candidates count the basis on which these judgments should be made remains unclear Does it matter that Gary Hart changed his name or had an affair Should Ed Muskie's loss of composure while defending his wife during a campaign speech or Thomas Eagleton's hospitalization for depression have counted against them Looking back over the past 25 years Stanley Renshon a political scientist and psychoanalyst provides the first comprehensive accounting of how character has become an increasingly important issue in a presidential campaign He traces two related but distinctive approaches to the issue of presidential character and psychology The first concerns the mental health of our candidates and presidents Are they emotionally and personally stable Is their temperament suitable for the presidency The second concerns character Is the candidate honest Does he possess the necessary judgment and motivation to deal with the tremendous responsibilities and pressures of the office Drawing on his clinical and political science training Renshon has devised a theory which will allow the public to better evaluate presidential candidates Why are honesty integrity and personal ideals so important in judging candidates Is personal and political ambition necessarily a bad trait Do extra marital affairs really matter Finally and most importantly how can the public tell whether a candidate's leadership will be enhanced or impeded by aspects of his personality With this sweeping volume Stanley Renshon has provided us with the most comprehensive account to date of how the public judges and should judge our future presidents

Inside the White House: Unveiling the Truth of All the President's Men Beverly Mooney, Inside the White House Unveiling the Truth of All the President's Men This compelling narrative takes you behind the polished facades and grand halls of America's most iconic residence It reveals the hidden stories secret strategies and unseen battles that have shaped the nation Through meticulous research and exclusive interviews this book offers a unique perspective on the presidency the advisors who influence policy and the complex web of power dynamics that define the White House Inside the White House Unveiling the Truth of All the President's Men weaves together a tapestry of gripping stories and insightful analysis Each chapter unfolds a different facet of presidential history from the tense negotiations and strategic decisions to the personal sacrifices and unexpected triumphs The book delves into the lives and legacies of key figures exploring their motivations conflicts and the lasting impact of their actions Readers will find themselves captivated by the intricate details and dramatic events that have unfolded within the walls of the White House gaining a deeper understanding of the forces that drive American politics This book is a must read for anyone with a keen interest in American politics history and the inner

workings of the presidency It is perfect for students scholars and enthusiasts of political science as well as general readers who enjoy a well told story rich with historical significance Whether you are a seasoned political junkie or a curious newcomer Inside the White House provides a comprehensive and engaging look at the men and women who have wielded power from the Oval Office Inside the White House Unveiling the Truth of All the President s Men stands out for its depth of research and its ability to bring history to life The book offers readers an unparalleled glimpse into the heart of American governance revealing the challenges and triumphs that have defined the presidency By connecting past events to current issues it provides valuable insights into the evolution of American politics and the enduring influence of the men who have served as president This book is not just a historical account it is a tool for understanding the complexities of leadership and the impact of decisions made behind closed doors Readers will come away with a richer appreciation for the intricacies of the presidency and the people who have shaped the nation s destiny

White House Sebastian Farnham,AI,2025-03-21 White House meticulously explores the multifaceted history of America s iconic presidential mansion examining its architectural evolution continuous renovations and its enduring role as a symbol of American power The book delves into how the physical structure of the White House has been shaped by evolving presidential needs technological advancements and changing aesthetic tastes For example the addition of the West Wing and the Oval Office reflects significant shifts in how the president functions It also highlights the contributions of figures like James Hoban and importantly the enslaved African Americans whose labor was crucial in its initial construction The book progresses chronologically starting with the initial vision and construction challenges including its near destruction during the War of 1812 before transitioning to the numerous renovations and expansions over the centuries A unique aspect of the book is its analysis of the White House s symbolic power through visual culture examining how its image has been crafted in art film and photography Understanding the White House offers insight into American politics and the presidency itself making this book valuable for anyone interested in history politics or architecture

Investigating the President Douglas L. Kriner,Eric Schickler,2016-09-13 Although congressional investigations have provided some of the most dramatic moments in American political history they have often been dismissed as mere political theater But these investigations are far more than grandstanding Investigating the President shows that congressional investigations are a powerful tool for members of Congress to counter presidential aggrandizement By shining a light on alleged executive wrongdoing investigations can exert significant pressure on the president and materially affect policy outcomes Douglas Kriner and Eric Schickler construct the most comprehensive overview of congressional investigative oversight to date analyzing nearly thirteen thousand days of hearings spanning more than a century from 1898 through 2014 The authors examine the forces driving investigative power over time and across chambers identify how hearings might influence the president s strategic calculations through the erosion of the president s public approval rating and uncover the pathways through which investigations have shaped public policy Put simply by

bringing significant political pressure to bear on the president investigations often afford Congress a blunt but effective check on presidential power without the need to worry about veto threats or other hurdles such as Senate filibusters In an era of intense partisan polarization and institutional dysfunction Investigating the President delves into the dynamics of congressional investigations and how Congress leverages this tool to counterbalance presidential power [The Watchful Eye](#) Pasquale De Marco,2025-07-12 In a world where national security concerns permeate everyday life the relationship between civilians and the military is more critical than ever This book offers a groundbreaking analysis of civil military relations drawing inspiration from principal agent theory to propose a novel framework for understanding how civilians maintain control over the military The armed servants model conceptualizes the military as agents of the nation state subject to the monitoring and control of civilian authorities This framework challenges traditional models that rely on assumptions of professionalism or institutional norms instead focusing on the dynamics of monitoring control and accountability Through a range of case studies both historical and contemporary the book explores the challenges and complexities of civil military relations in various political contexts These cases highlight instances of successful civilian control as well as cases where the military has asserted its autonomy or even challenged civilian authority The book identifies key factors that contribute to effective civil military relations including strong institutional mechanisms for monitoring and control clear lines of accountability a vibrant and independent media and an engaged and informed citizenry This analysis offers valuable insights for policymakers scholars and practitioners seeking to understand and improve civil military relations By highlighting the importance of civilian oversight accountability and transparency this book contributes to the ongoing effort to ensure democratic control over the military and safeguard the principles of good governance If you like this book write a review

Regimes and Democracy in Latin America ,2007-05-10 This volume focuses on democracy in Latin America and both assesses the state of current knowledge on the topic and identifies new research frontiers in the study of Latin American politics It provides an overview of research agendas and strategies used in the literature over the past four decades It tackles a series of central questions What is democracy Is democracy an absolute value Are current conceptualizations of democracy adequate How and why does democracy work or fail in Latin America and spells out the implications of answers to these questions for current research agendas It distinguishes between qualitative and quantitative approaches to the conceptualization and measurement of democracy and presents a dataset on political regimes and democracy that illustrates how the differences between these two standard approaches might be overcome Finally it evaluates the strengths and weaknesses of conventional methods used to generate and test explanations of the causes and consequences of democracy and proposes alternative ways to advance ongoing substantive debates given the current state of theory and data The contributors are scholars from the United States and Latin America who are experts on Latin America and who have established reputations as theorists and methodologists The volume will be of interest to readers seeking to understand

debates about democracy in developing societies and to grasp the concepts theories and methods that are currently being developed to study Latin American politics

Rivals for Power James A. Thurber, 2009-08-16 *Rivals for Power* is a lively description of the power struggle between the president and Congress. In it, leading congressional and presidential scholars and knowledgeable former public officials consider the historical political and constitutional foundations of conflict between the two branches. The authors give practical advice about how to build cooperative policymaking between the president and Congress as they struggle over major crises in solving economic problems and addressing domestic issues and the challenges in defense and foreign policy making. The book features original academic research and practitioner knowledge from the White House and the Hill. This fourth edition includes all new essays with unique and critical viewpoints on the role of the president and Congress in the policy making process. Many of the essays focus on lessons learned about cooperation and conflict between the two branches from the Clinton and Bush presidencies. The essays include preliminary analyses of President Barack Obama's relationship with Congress. Because the authors have made major contributions as congressional and presidential scholars and have played key roles in Congress, in the White House, in the media, and as lobbyists, each chapter presents a different perspective. The new edition of *Rivals for Power* is intended for students, scholars, public officials, the media, and the general public. Contributions by Gary Andres, Richard S. Conley, Roger H. Davidson, The Honorable Mickey Edwards, Louis Fisher, Patrick Griffin, The Honorable Lee H. Hamilton, Mark J. Oleszek, Walter J. Oleszek, John E. Owens, James P. Pfiffner, Mark J. Rozell, Andrew Rudalevige, Barbara Sinclair, Mitchel A. Sollenberger, James A. Thurber, Stephen J. Wayne, and Joseph White.

The Presidential Dilemma Michael A. Genovese, 2017-07-28 This brief, thought-provoking text evaluates the performance of recent presidents from Johnson to Bush, finding that overall each has failed to live up to public expectations. Written by one of the top presidency scholars today, *The Presidential Dilemma* reflects on the idea that as our country's problems grow, our politicians seem to shrink. Arguing that American presidents of the last 40 years have largely failed to meet the needs, expectations, and responsibilities placed upon them, the book discusses how presidents might better maximize their opportunities for leadership and suggests a distinctive theory of presidential politics: presidents facing a system of multiple veto points seek to maximize power and influence. The third edition of Genovese's stimulating book is thoroughly updated to reflect presidential development in recent years, and a new introduction brings his arguments current. As he demonstrates the emergence of democracy as a new social and political paradigm, Genovese shows how traditional authority and legitimacy have been undermined. Subjects no longer automatically follow; now citizens must be persuaded. They may give to a leader their authority and power, or not. As Genovese notes, in a world of mass consumerism, those wishing to lead have precious little to offer by way of inducement. Genovese's goal is to examine the reasons why the performance of recent presidents has been underwhelming, discuss how they might maximize their opportunities for leadership, and ask a key question: Can presidents be both powerful and accountable? The book follows a clear format and tries to show why America's officeholders have so rarely

been leaders and how presidents can become leaders instead of mere officeholders *Going Local* Jeffrey E. Cohen, 2010

Going public to gain support especially through reliance on national addresses and the national news media has been a central tactic for modern presidential public leadership In *Going Local* Presidential Leadership in the Post Broadcast Age Jeffrey E Cohen argues that presidents have adapted their going public activities to reflect the current realities of polarized parties and fragmented media Going public now entails presidential targeting of their party base interest groups and localities Cohen focuses on localities and offers a theory of presidential news management that is tested using several new data sets including the first large scale content analysis of local newspaper coverage of the president The analysis finds that presidents can affect their local news coverage which in turn affects public opinion toward the president Although the post broadcast age presents hurdles to presidential leadership *Going Local* demonstrates the effectiveness of targeted presidential appeals and provides us with a refined understanding of the nature of presidential leadership *The Legacy of the Trump Administration* Michael Grossman, Francis Schortgen, Ronald Eric Matthews Jr., David B. Cohen, 2024-10-24 This book analyzes the legacy of the first Trump administration on a variety of different fronts Whether it was the extensive use of Twitter the tendency to express controversial and often dubious views or to even slander foreign leaders Trump was a disruptive president The presidency of Donald Trump raises questions for political scientists and researchers How consequential was he While he garnered much attention both in and out of the White House how much of his legacy remains The authors in this book address these questions with essays that cover an array of issues related to his tenure in office and the years since The chapters provide a broad analysis of the legacy of the Trump presidency focusing on all aspects of his presidency and representing multiple perspectives across the partisan and disciplinary divides Additionally the contributions in this book aim to re assess the Trump legacy in light of the subsequent efforts by his successor to undo much of the policies embraced by and implemented during the Trump years

Embracing the Tune of Expression: An Mental Symphony within **Shaping A President**

In a world eaten by displays and the ceaseless chatter of instantaneous interaction, the melodic elegance and mental symphony developed by the published term usually fade in to the background, eclipsed by the relentless noise and disruptions that permeate our lives. But, situated within the pages of **Shaping A President** a stunning fictional treasure brimming with organic feelings, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, that interesting masterpiece conducts readers on a mental trip, well unraveling the hidden tunes and profound impact resonating within each carefully constructed phrase. Within the depths of the touching evaluation, we shall discover the book is main harmonies, analyze its enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
