

GPs and specialists other than obstetricians play a vital role in the identification of hypertension during pregnancy, first-line management and referral to specialist care. This graphic summarises the updated recommendations from the National Institute for Health and Care Excellence (NICE) on the diagnosis and management of hypertension in pregnancy. Management guidance is now the same for women with chronic and gestational hypertension. Choice of antihypertensive medication is the same for women with all types of hypertension in pregnancy.

Shared Care For Hypertension

Miroslav Tersa

Shared Care For Hypertension:

Shared Care for Hypertension Michael G Kirby, Neil Poulter, Simon A G Thom, 2000-12-01 Another in the popular Shared Care series this book explains all the major examinations and treatments of high blood pressure Areas covered include a general coverage of hypertension followed by detailed information on assessing a new patient managing hypertension and considering special situations An emphasis is placed on the shared care approach and especially on when to refer to a specialist

Trends in Asthma Research Miroslav Tersa, 2005 Asthma is a disease that affects the lungs It causes repeated episodes of wheezing breathlessness chest tightness and night time or early morning coughing Tens of millions of people throughout the world suffer from asthma Airways are the

paths that carry air to the lungs As the air moves through the lungs the airways become smaller like branches of a tree During an attack the sides of the airways in the lungs become inflamed and swollen Muscles around the airways tighten and less air passes in and out of the lungs Excess mucus forms in the airways clogging them even more The attack also called an episode can include coughing chest tightness wheezing and trouble breathing Environmental exposures such as house dust mites and environmental tobacco smoke are important triggers of an attack This new book presents important new research on the causes on asthma as well as its diagnosis and treatment

Third International Conference on System Science in Health Care W. van Eimeren,R. Engelbrecht,C. D. Flagle,2012-12-06 In the early stages of planning the Third International Conference in System Science in Health Care the steering committee members most of whom had participated in the first conference in Paris 1976 and the second in Montreal 1980 made some basic decisions about organization of subject matter The earlier meetings had been very successful in bringing together specialists from the health professions and the traditional sciences In addition to physicians and nurses these were representatives of the disciplines of the behavioral sciences system theory economics engineering and the emergency fields of management science and informatics all concerned with the development of health resources in a broad system context The reported research and experience of the many disciplines represented had dealt with one or more of three concerns 1 a major health problem such as cardiovascular disease or an important popUlation at risk such as the elderly or children or workers 2 some generic aspect of organization and decision making including trial and evaluation of innovative health strategies and 3 the methodology of research and analysis in system of health service The challenge to the conference organizers lay in the eliciting and arranging of experiences in such a way that the health services could be seen as purposeful living evolving systems
