Shared Destiny Near East Regional Development And Cooperation:

A Shared Destiny Joyce Starr, Addeane S. Caelleigh, 1983 **Economic Cooperation in the Middle East** Gideon Fishelson, 2019-04-12 This book is an outcome of conference on Economic Cooperation in the Middle East held at Tel Aviv University in 1986 It examines economic integration in the Middle East its implications and possible costs The book analyzes the consequences of peace and economic cooperation in the Middle East **Israel, Jordan, and the Peace Process** Yehuda Lukacs, 1997 Israel and Jordan even though self proclaimed enemies of one another practiced a relationship of interdependence based on corresponding interests In the years following the 1967 war these two countries fates were delicately intertwined because of many factors like mutual reliance on natural resources especially water and parallel interests in the subordination of the Palestinian national movement These conditions of commonality led to extensive ties between the two countries and approximated a state of de facto peace that ironically made an official peace treaty almost impossible to sign A formal peace treaty would have required not only Israel's withdrawal from the West Bank but also Jordan's acknowledgment of the clandestine contacts between the two formal enemies Yehuda Lukacs gives us an account of how this relationship changed in 1988 when Jordan disengaged from the West Bank This event combined with the Palestinian uprising and the Gulf War paved the way for Israel and Jordan in 1994 to sign the Israeli Jordanian peace treaty By systematically examining the impact of functional cooperation between two official enemies Lukacs makes an important contribution to Middle East studies and international conflict resolution **Beyond the Handshake** Dalia Dassa Kaye, 2012-08-14 Arabs and Israelis have battled one another in political and military arenas seemingly continuously for some fifty years The 1991 Madrid Peace Conference sought to change this pattern launching bilateral and multilateral tracks in the Arab Israeli peace process As a result a broad group of Arab states sat down with Israel and began to cooperate on a wide range of regional issues in what became known as the Middle East multilaterals Yet why did enemies reluctant even to recognize one another choose to cooperate on regional problems And once this process began what drove the parties to continue such cooperation or in some cases halt their cooperative efforts Beyond the Handshake addresses these fundamental questions exploring the origins of the multilaterals and the development of multilateral cooperation in the areas of arms control and regional security economic development water management and the environment Dalia Dassa Kaye challenging conventional concepts of cooperation argues that multilateral cooperation in the Middle East must be appreciated as a process of interaction rather than solely as a set of outcomes Presenting theoretical insights of value to students of regional and international relations Beyond the Handshake provides a unique look at the evolving nature of Arab Israeli relations and exposes the foundation the multilateral peace process laid for future regional cooperation in the Middle East **The Politics Of Scarcity** Joyce R Starr, Daniel C. Stoll, Selig A Taubenblatt, Donald E Osborn, 2019-06-26 This book focuses on the impact that emerging water problems in the Middle East will have on U S strategic interests in that region It

provides an invaluable study for students of the Middle East as well as for seasoned analysts Water and Peace for the People Jon Martin Trondalen, 2008-01-01 This book proposes practical and objective solutions to the entrenched water conflicts in the Middle East The author reveals and clarifies the complexity of the water conflicts drawing on years of experience facilitating and chairing water negotiations in the region The bottom line is Unless the countries involved cooperate the consequences will be devastating The lack of plentiful and clean water for the people will not only result in severe human suffering but could also have grave geopolitical consequences The book covers four critical areas the Euphrates and Tigris Rivers where new documentation reveals alarming trends the politically sensitive Golan Heights with its water disputed by Israel and Syria the Hasbani water dispute between Lebanon and Israel the longstanding water resource dispute between the Israelis and Palestinians **Water In The Middle East** Thomas Naff, 2020-06-08 The scarcity and rapid depletion of water in one of the world's driest regions continues to be a major determinant of the domestic and external policies of the major actors in the Middle East Israel Jordan and the West Bank will have exhausted virtually all their renewable sources of fresh water by 1995 if current patterns of consumption are not radically altered This study examines the hydrological historical legal and strategic dimensions of water problems in the Middle East and discusses their implications for the future *The Palestine Yearbook of International Law, 1989* A. F. Kassim, 1997-02-01 The Palestine Yearbook of International Law is a well established yearbook which was previously published by the Al Shaybani Society of International Law Kluwer Law International will be publishing the Yearbook from the eighth volume onwards and will also manage the distribution of the previous seven volumes The Palestine Yearbook of International Law has become widely respected as a prime reference source of legal material relating to Palestinian issues and is an important forum for the international legal community particularly for legal practitioners researchers and scholars In addition to leading articles on topical problems and issues it contains key legislation court decisions and other relevant legal material translated from the original Arabic or Hebrew into English Strategic Calling James Allen Smith, 1993 **Hydropolitics** Leif Ohlsson, 1995 As well as a major overview of the global situation and problems involved there are authoritative case studies of particular river systems in three continents including the Nile Valley the Tigris and Euphrates the River Jordan the Mekong and several cases from South Asia
