## **Shared Land Conflicting Identity:**

Shared Land/Conflicting Identity Robert C. Rowland, David A. Frank, 2002-12-31 Shared Land Conflicting Identity Trajectories of Israeli and Palestinian Symbol Use argues that rhetoric ideology and myth have played key roles in influencing the development of the 100 year conflict between first the Zionist settlers and the current Israeli people and the Palestinian residents in what is now Israel The Israeli Palestinian conflict is usually treated as an issue of land and water While these elements are the core of the conflict they are heavily influenced by the symbols used by both peoples to describe understand and persuade each other The authors argue that symbolic practices deeply influenced the Oslo Accords and that the breakthrough in the peace process that led to Oslo could not have occurred without a breakthrough in communication styles Rowland and Frank develop four crucial ideas on social development the roles of rhetoric ideology and myth the influence of symbolic factors specific symbolic factors that played a key role in peace negotiations and the identification and value of criteria for evaluating symbolic practices in any society Toward a Critical Rhetoric on the Israel-Palestine **Conflict** Matthew Abraham, 2015-07-01 This edited collection brings together a group of rhetoricians seeking to develop productive ways to discuss the Israel Palestine conflict while avoiding the discursive impasses that so often derail attempts to Understanding Peace and Conflict Through Social Identity Theory Shelley McKeown, Reeshma exchange points of view Haji, Neil Ferguson, 2016-06-17 This volume brings together perspectives on social identity and peace psychology to explore the role that categorization plays in both conflict and peace building To do so it draws leading scholars from across the world in a comprehensive exploration of social identity theory and its application to some of the world's most pressing problems such as intrastate conflict uprising in the middle east the refugee crisis global warming racism and peace building A crucial theme of the volume is that social identity theory affects all of us no matter whether we are currently in a state of conflict or one further along in the peace process The volume is organized into two sections Section 1 focuses on the development of social identity theory Grounded in the pioneering work of Dr Henri Tajfel section 1 provides the reader with a historical background of the theory as well as its current developments Then section 2 brings together a series of country case studies focusing on issues of identity across five continents This section enables cross cultural comparisons in terms of methodology and findings and encourages the reader to identify general applications of identity to the understanding of peace as well as applications that may be more relevant in specific contexts Taken together these two sections provide a contemporary and diverse account of the state of social identity research in conflict situations and peace psychology today It is evident that any account of peace requires an intricate understanding of identity both as a cause and consequence of conflict as well as a potential resource to be harnessed in the promotion and maintenance of peace Understanding Peace and Conflict Through Social Identity Theory Contemporary Global Perspectives aims to help achieve such an understanding and as such is a valuable resource to those studying peace and conflict psychologists sociologists anthropologists public policy makers and all

those interested in the ways in which social identity impacts our world Social Identity, Intergroup Conflict, and Conflict Reduction Richard D. Ashmore, Lee J. Jussim, David Wilder, 2001-08 Game theory has revolutionized the study of animal behavior The fundamental principle of evolutionary game theory that the strategy adopted by one individual depends on the strategies exhibited by others has proven a powerful tool in uncovering the forces shaping otherwise mysterious behaviors In this volume the first since 1982 devoted to evolutionary game theory leading researchers describe applications of the theory to diverse types of behavior providing an overview of recent discoveries and a synthesis of current research The volume begins with a clear introduction to game theory a Resowing the Seeds of War Stephen J. Heidt, 2021-03-01 Ending a war as Fred Charles Ikl wrote poses a much greater challenge than beginning one In addition to issues related to battle tactics prisoners of war diplomatic relations and cease fire negotiations ending war involves domestic political calculations Balancing the tides of public opinion versus policy needs poses a deep and enduring problem for presidents In a first of its kind study Resowing the Seeds of War explains how Presidents Truman Eisenhower Nixon and Obama managed the political policy and bureaucratic challenges that arise at the end of war via a series of rhetorical choices that reframe modify or unravel depictions of national enemies the cause of the conflict and the stakes for the nation and world This end of war rhetoric justifies ending hostilities rationalizes postwar national policy argues for the construction of postwar security arrangements and often sustains public support for massive financial investment in reconstruction By tracking presidential manipulations of savage imagery from World War II to the War on Terror this book concludes that even as metaphoric reframing facilitates exit from conflict it incurs unexpected consequences that make national involvement in the next conflict Making the Case Kathryn M. Olson, Michael William Pfau, Benjamin Ponder, Kirt H. Wilson, 2012-11-01 In an more likely era when the value of the humanities and qualitative inquiry has been questioned in academia and beyond Making the Case is an engaging and timely collection that brings together a veritable who s who of public address scholars to illustrate the power of case based scholarly argument and to demonstrate how critical inquiry into a specific moment speaks to general contexts and theories Providing both a theoretical framework and a wealth of historically situated texts Making the Case spans from Homeric Greece to twenty first century America The authors examine the dynamic interplay of texts and their concomitant rhetorical situations by drawing on a number of case studies including controversial constitutional arguments put forward by activists and presidents in the nineteenth century inventive economic pivots by Franklin Roosevelt and Alan Greenspan and the rhetorical trajectory and method of Barack Obama Executing Democracy Stephen J. Hartnett, 2012-11-01 This eye opening and well researched companion to the first volume of Executing Democracy enters the death penalty discussion during the debates of 1835 and 1843 when pro death penalty Calvinist minister George Barrell Cheever faced off against abolitionist magazine editor John O Sullivan In contrast to the macro historical overview presented in volume 1 volume 2 provides micro historical case studies using these debates as springboards into the discussion of the

death penalty in America at large Incorporating a wide range of sources including political poems newspaper editorials and warring manifestos this second volume highlights a variety of perspectives thus demonstrating the centrality of public debates about crime violence and punishment to the history of American democracy Hartnett's insightful assessment bears witness to a complex national discussion about the political metaphysical and cultural significance of the death penalty

William James and the Art of Popular Statement Paul Stob, 2013-03-01 At the turn of the twentieth century no other public intellectual was as celebrated in America as the influential philosopher and psychologist William James Sought after around the country James developed his ideas in lecture halls and via essays and books intended for general audiences Reaching out to and connecting with these audiences was crucial to James so crucial that in 1903 he identified popular statement or speaking and writing in a way that animated the thought of popular audiences as the highest form of art Paul Stob's thought provoking history traces James's art of popular statement through pivotal lectures essays and books including his 1878 lectures in Baltimore and Boston Talks to Teachers on Psychology The Varieties of Religious Experience and Pragmatism The book explores James s unique approach to public address which involved crafting lectures in science religion and philosophy around ordinary people and their experiences With democratic bravado James confronted those who had accumulated power through various systems of academic and professional authority and argued that intellectual power should be returned to the people Stob argues that James gave those he addressed a central role in the pursuit of knowledge and fostered in them a new intellectual curiosity unlike few scholars before or since The Rhetorical Invention of Diversity M. Kelly Carr, 2018-05-01 Despite the tepid reception of Regents of the University of California v Bakke in 1978 the Supreme Court has thrice affirmed its holding universities can use race as an admissions factor to achieve the goal of a diverse student body This book examines the process of rhetorical invention followed by Justice Lewis F Powell Jr his colleagues and other interlocutors as they sifted through arguments surrounding affirmative action policies to settle on diversity as affirmative action's best constitutional justification Here M Kelly Carr explores the goals constraints and argumentative tools of the various parties as they utilized the linguistic resources available to them including arguments about race merit and the role of the public university in civic life Using public address texts legal briefs memoranda and draft opinions Carr looks at how public arguments informed the amicus briefs chambers memos and legal principles before concluding that Powell s pragmatic decision making fused the principle of individualism with an appreciation of multiculturalism to accommodate his colleagues differing opinions She argues that Bakke is thus a legal and rhetorical milestone that helped to shift the justificatory grounds of race conscious policy away from a recognition of historical discrimination and its call for reparative equality and toward an appreciation of racial diversity Creating Conservatism Michael J. Lee, 2014-08-01 Creating Conservatism charts the vital role of canonical post World War II 1945 1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative

movement was a product of print rather than a march a protest or a pivotal moment of persecution The Road to Serfdom Ideas Have Consequences Witness The Conservative Mind God and Man at Yale The Conscience of a Conservative and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars Creating Conservatism generates original insights about the struggle over what it means to think and speak conservatively in America
