Derevensky, Rina Gupta, 2006-01-16 Howard J Shaffer Ph D More than 20 years ago I first noted that young people in North America were growing up in a context of legalized gambling for their entire lifetime By the 1980s for young people gambling had become an average and expectable part of the social landscape Amid legal opportunities to gamble in all but two of the United States and with illicit opportunities to gamble in every state gambling is now ubiquitous in America With few social sanctions to limit a young person's interest in gambling like their adult counterparts young people now gamble in larger numbers and for seemingly higher stakes Gradually gambling

related problems became more visible for young people and the culture slowly but increasingly took notice. By the late 1990s every sector of American and Canadian society had started to consider the effects of legalized gambling on youth. For different reasons representatives of the gambling and health care industries led the movement to prevent youthful gambling and reconcile existing problems whenever possible. Scientists also recognized that there was much to be learned by studying young gamblers. Toward the end of the 20th century there was a rapid increase in gambling research focusing on developmental issues. Half of what is known about gambling emerged during the 1990s. This volume represents an important event in the continuing growth of a field. **The International Handbook of Addiction Behaviour** Ilana Belle Glass, 2016-10-14

Addiction Literature's Past and Present Mark Ronan, 2024-07-12. Addiction Literature's Past and Present aims to realign consideration of addiction as a transhistorical and transcultural aspect of the human condition. This book illuminates the premodern roots of the linguistic and narrative materials of addiction discourse and argues for Addiction Literature to be considered as a distinct literary phenomenon with a history stretching back to Antiquity. Addiction as it is understood in this book exists at the intersection between appetite habit and impaired personal behavioural agency. This book begins by exploring the ways in which we articulate the experience both lived and observed of addiction today, uncovering a core set of conceptual components and discursive tropes which are commonly associated with modern understandings of the phenomenon. Having established a common set of tropes and features which distinguish modern Addiction Literature as a distinct literary mode, it then considers premodern texts through this lens, revealing similar patterns of conception and convention in a broad range of historical periods and literary genres from Aesop to Shakespeare. **God Help Me, I Can't Stop!** Virgil L.
