Risk-Sharing Finance Saad Bakkali, Abbas Mirakhor, 2021-05-10 The contemporary finance deals mainly with multilateral and multi counterparty transactions Islamic Jurisprudence Fiqh has yet to develop its conceptualization of this modality of financing Thus far it has become a norm for large financing projects to rely on a complex structure of interconnected bilateral contracts that in totality becomes opaque complex and costly An unfortunate result of the unavailability of an efficient Fiqhi model applicable to modern multilateral and multi counterparty contracts has been the fact that the present Islamic finance has been forced to replicate conventional risk transfer interest rate based debt contracts thus drawing severe criticisms of duplicating conventional finance In 2012 a gathering of some of the Muslim world s most prominent experts in Jurisprudence Fuqaha and economists issued the Kuala Lumpur Declaration Fatwa in which they identified risk sharing as the essence of Islamic finance The Declaration opened the door for a new Fiqh approach to take the lead in developing the jurisprudence of multilateral and multi counterparty transactions This Declaration Fatwa provides a prime motivation to search for a comprehensive model of risk sharing that can serve as an archetypal contract encompassing all potential contemporary financial transactions From the perspective of Islamic Jurisprudence Fiqh the technicalities of the concept of risk sharing in contemporary finance have yet to be defined in Islamic literature This book attempts to clarify and shed light on these technicalities from the perspective of Fiqh It is a comprehensive study that relies on the fundamental Islamic sources to establish a theoretical and practical perspective of Fiqh encompassing risk sharing Islamic finance as envisioned in the Kuala Lumpur Declaration of 2012 This new paradigm should lead to a more efficient approach to multilateral and multi counterparty Islamic contracts which here to fore has been lacking in the current configuration of Islamic finance

expertise of recognised experts in the field it explores banking union from legal economic and political perspectives It takes a four part approach Firstly it sets the scene by examining the constitutional foundations of banking union Then in parts 2 and 3 it looks at the implications of banking union for European integration and for democracy Finally it asks whether banking union might be more usefully regarded as a trade off between integration and democracy This is an important timely and authoritative collection **Comprehensive Practices in Risk and Retirement Planning** Jill Booker,2007
