Sharks Of The World:

Sharks of the World David A. Ebert, Marc Dando, Sarah Fowler, 2021-07-20 The most comprehensive reference guide to the world's sharks now fully revised and updated *Sharks of the World* is the essential illustrated guide for anyone interested in these magnificent creatures Now fully revised and updated it covers 536 of the world's shark species and is packed with colour illustrations colour photos and informative diagrams This comprehensive easy to use reference guide incorporates the latest taxonomic revisions of many shark families featuring many species that were only described in recent years It also includes a completely revised and expanded introduction and updated line drawings throughout Covers 536 shark species from around the world Features updated species accounts illustrations and maps Gives an illustrated overview of shark biology ecology and conservation Includes fin identification guides Provides a colour distribution map for every species

Sharks of the World Leonard J. V. Compagno, Marc Dando, Sarah L. Fowler, 2005 Everyone's heard of the Great Whites But most people know little of the hundreds of other types of sharks that inhabit the world's oceans A comprehensive field guide to all 440 plus species of shark Color plates illustrate all species and detailed accounts include diagnostic line drawings and a distribution map for each species Introductory chapters treat physiology behavior reproduction ecology diet and sharks interrelationships with humans [A Pocket Guide to Sharks of the World](#) David A. Ebert, 2015-03 Published in the United Kingdom and European Union in 2014 by Wild Nature Press

[Sharks of the World](#) Rodney Steel, 1998 Ever since the hit film *Jaws* the terrifying image of the shark as a mindless killing machine has firmly imprinted itself on many of us But with their large brains and extraordinarily keen sensory perception sharks have a more sophisticated physiology than previously thought Take a dive into shark infested waters to watch and understand their behavior patterns Very adaptive they act in accordance with the demands of feeding and reproduction The breeds range from the tiny 6 inches *Squaliolus laticaudus* to the famed White Shark who can measure 39 feet Many live primarily on fish though they will attack unfortunate humans who cross their path as a number of stories recounted here prove Incredible photographs offer a glimpse into the shark's wide jaws and toothy mouth and of an incredible variety of species including the handsome zebra shark sand tiger and nurse shark An informative view of a much misunderstood creature

Sharks of the World Leonard J. V. Compagno, 2005 *Sharks of the World* Leonard J. V. Compagno, Food and Agriculture Organization of the United Nations, 2001-01-01 An extensively rewritten revised and updated version of the original FAO Catalogue of Sharks of the World This volume reviews all 15 families 25 genera and 57 species of living bullhead mackerel and carpet sharks including certain well established but currently undescribed species mainly from Australia *Sharks of the World* David A. Ebert, Marc Dando, Sarah Fowler, 2021-07-20 The most comprehensive reference guide to the world's sharks now fully revised and updated *Sharks of the World* is the essential illustrated guide for anyone interested in these magnificent creatures Now fully revised and updated it covers 536 of the world's shark species and is packed with colour illustrations colour photos and informative

diagrams This comprehensive easy to use reference guide incorporates the latest taxonomic revisions of many shark families featuring many species that were only described in recent years It also includes a completely revised and expanded introduction and updated line drawings throughout Covers 536 shark species from around the world Features updated species accounts illustrations and maps Gives an illustrated overview of shark biology ecology and conservation Includes fin identification guides Provides a colour distribution map for every species The Sharks of North America Jose I.

Castro,2010-12-03 Which species of sharks live within 500 nautical miles of North American shores and what do we know about them Jos I Castro s *The Sharks of North America* is the first comprehensive book in sixty years to address these questions and it does so with unrivaled authority and aesthetic detail The 135 comprehensive species accounts summarize the present knowledge Each begins with the etymology of a species common and scientific names followed by the description identifying characteristics geographic range biology reproduction location of nurseries growth and longevity and relation to humans These accounts synthesize decades of research and first hand examination of sharks collected in fisheries and research operations across the continent They are thorough current and dispel many myths and misunderstandings found in the scientific and popular literature Each species is illustrated by one or more original profile figures in color augmented by images of the snout upper and lower teeth and dermal denticles The stunning color illustrations have been painted directly from freshly dead sharks or Castro s photographs of live or fresh specimens Their anatomical accuracy and true to life coloration are unmatched The detailed pen and ink drawings of the snout and teeth are crucial aids to species identification as are the exquisite scanning electron microphotographs of dermal denticles *The Sharks of North America* will serve as the standard reference on sharks for the twenty first century and is certain to become the primary source of information for anyone interested in sharks from professional biologists and conservationists to students informed laypersons and fishermen
