Shaws Moral Vision The Self And Salvation:

Shaw's Moral Vision Alfred Turco, 1976 *Bernard Shaw, Paul Ricoeur, and the Jesusian Dialectics of Redemptive Living* Howard Ira Einsohn, 2023-12-27 This book explores a heretofore unremarked linkage between Bernard Shaw the twentieth century French thinker Paul Ricoeur and Jesus of Nazareth The ties that bind them are a foundational interest in the social teachings of the Nazarene and their use of a shared dialectics with respect to living the kind of compassionate life that holds out the promise in our contemporary world of achieving something approximating universal wellness on a healthy planet at peace with itself This work argues that the three principal subjects of the study independently of one another used the same dialectical method to reach the same dialectically derived conclusion about how humans can live redemptively in a fractured world

The Playwrighting Self of Bernard Shaw John Anthony Bertolini, 1991 Bertolini provides close subtle readings of six of Shaws major plays Caesar and Cleopatra Man and Superman Major Barbara The Doctors Dilemma Pygmalion and Saint Joan He also devotes a full chapter to the one act plays

Modern Utopian Fictions from H. G. Wells to Iris Murdoch Peter Edgerly Firchow, 2007 Criticism on utopian subjects has generally neglected the literary or fictional dimension of utopia The reason for such neglect may be that earlier utopian fictions tended to be written by what one would nowadays call social scientists e g Plato or Sir Thomas More That is also why earlier discussions of utopian fiction were usually written by critics trained in the social sciences rather than by critics trained in literature To an appreciable degree this still tends to be the case today Now however there is an additional difficulty for the social scientists are critiquing utopias written by people who are primarily literary for example Krishan Kumar on Wells or Bernard Crick on Orwell Inevitably much of importance of literary importance is simply disregarded and so our understanding of modern utopia is correspondingly diminished This book aims to put the fiction back into utopian fictions While tracing the development of fiction in the writing of modern utopias especially in Britain it seeks to demonstrate in specific ways how those utopias have become increasingly literary possibly as a reaction not only against the social scientification of modern utopias but also in reaction against the modern attempt to institute utopia in reality notably in the former Soviet Union but also in consumerist late twentieth century America After an introductory discussion of how we understand and how we should understand modern utopian fictions the book provides several examples of how those understandings affect our appreciation of utopian fiction There are chapters on H G Wells s Time Machine Bernard Shaw s Major Barbara Aldous Huxley s Brave New World George Orwell s Animal Farm and Nineteen Eighty Four William Golding s Lord of the Flies and Iris Murdoch s The Bell ABOUT THE AUTHOR Peter Edgerly Firchow internationally recognized scholar and author of numerous works including Reluctant Modernists W H Auden Contexts for Poetry Envisioning Africa Racism and Imperialism in Conrad s Heart of Darkness and The End of Utopia is professor of English at the University of Minnesota Firchow includes much that is praiseworthy in this short book on utopian fiction Firchow s work displays his very well informed explication and his ability in

most instances to make literary texts come alive His treatment of Wells's *The Time Machine* is simply outstanding I find his enthusiasm for his texts refreshing and his work on the end of history meticulous Other scholars of utopian fiction will as well

H Net Reviews Utopian fiction has often been mangled in interpretation on the occasions when it has been read without a sense of irony for the sake of political analysis disregarding its artistic nature To counterpoise such approaches Firchow offers us a close reading of each of the chosen works while also placing them in literary context Janice Rossen Partial

[Stages of Struggle](#) John Louis DiGaetani, 2015-01-27 One way or another all playwrights use their work to explore the issues that interest them The characters in a play may trumpet their creator's political views from the stage or an unusual structure or set design may result from the playwright's interest in theatrical form It is also common particularly in the plays of the 20th and 21st century to see a playwright delving into psychological issues raised by his own mental struggles or those of people he loves Luigi Pirandello tormented by the schizophrenia of his wife and other family members repeatedly explored the problems caused by different visions of reality Noel Coward's self-obsessed characters reflect his own narcissism Alcoholism is a recurrent theme in the works of many playwrights including Eugene O'Neill Edward Albee and Brian Friel Through their exploration of these issues and more the great writers of the theater have turned suffering into art This book looks at the work of 20 playwrights to see how their examination of the disturbed mind has influenced the modern theater

[The Cambridge Companion to George Bernard Shaw](#) Christopher Innes, 1998-09-24 The *Cambridge Companion to George Bernard Shaw* is an indispensable guide to one of the most influential and important dramatists of the theatre The volume offers a broad ranging study of Shaw with essays by a team of leading scholars The *Companion* covers all aspects of Shaw's drama focusing on both the political and theatrical context while the extensive illustrations showcase productions from the Shaw Festival in Canada In addition to situating Shaw's work in its own time the *Companion* demonstrates its continuing relevance and applies some of the newest critical approaches Topics include Shaw and the publishing trade Shaw and feminism and Shaw and the Empire as well as analyses of the early plays discussion plays and history plays

[The Nature of Love, Volume 3](#) Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy *The Nature of Love* has been called majestic *New York Times Book Review* monumental *Boston Globe* one of the major works of philosophy in our century *Nous* wise and magisterial *Times Literary Supplement* and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all

still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and self contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer's trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions

Shaw's Settings Tony J. Stafford, 2013-10-15 Picture the young George Bernard Shaw spending long days in the Reading Room of the British Museum pursuing a self taught education all the while longing for the green landscapes of his native Ireland It is no coincidence that gardens and libraries often set the scene for Shaw's plays yet scholars have seldom drawn attention to the fact until now Exposing the subtle interplay of these two settings as a key pattern throughout Shaw's dramas *Shaw's Settings* fills the need for a systematic study of setting as significant to the playwright's work as a whole Each of the nine chapters focuses on a different play and a different usage of gardens and libraries showing that these venues are not just background for action they also serve as metaphors foreshadowing and insight into characters and conflicts The vital role of Shaw's settings reveals the astonishing depth and complexity of the playwright's dramatic genius

Shaw's Ibsen Joan Templeton, 2018-02-16 This book argues that Shaw was a masterful reader of Ibsen's plays both as texts and as the cornerstone of the modern theatre Dismantling the notion that Shaw distorted Ibsen to promote his own view of the world and establishing Shaw's initial interest in Ibsen as the poet of Peer Gynt it chronicles Shaw's important role in the London Ibsen campaign and exposes the falsity of the tradition that Shaw branded Ibsen as a socialist Further this study shows that Shaw's famous but maligned *The Quintessence of Ibsenism* reflects Ibsen's own anti idealist notion of his work and argues that Shaw's readings of Ibsen's plays are pioneering analyses that anticipate later criticism It offers new readings of Shaw's Ibsenist plays as well as a comprehensive account of Ibsen's importance for Shaw's dramatic criticism from his early journalism to *Our Theatres of the Nineties* both as a weapon against the inanities of the Victorian stage and as the standard bearer for modernism
