other major works such as *The Jagged Orbit* *The Sheep Look Up* and *The Shockwave Rider* Making extensive use of Brunner's letters columns speeches and interviews published in fanzines Smith approaches Brunner in the context of markets and trends that affected many writers of the time including Brunner's uneasy association with the New Wave of science fiction in the 1960s and 70s This landmark study shows how Brunner's attempts to cross fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk slipstream and biopunk
