Shell And The Kernel Vol 1 Renewals Of Psychoanalysis:

The Shell and the Kernel Nicolas Abraham, Maria Torok, 1994-09 This volume is a superb introduction to the richness and originality of Abraham and Torok's approach to psychoanalysis and their psychoanalytic approach to literature. Abraham and Torok advocate a form of psychoanalysis that insists on the particularity of any individual's life story, the specificity of texts, and the singularity of historical situations. In what is both a critique and an extension of Freud, they develop interpretive strategies with powerful implications for clinicians, literary theorists, feminists, philosophers, and all others interested in the uses and limits of psychoanalysis. Central to their approach is a general theory of psychic concealment, a poetics of hiding. Whether in a clinical setting or a literary text, they search out the unspeakable secret as a symptom of devastating trauma revealed only in linguistic or behavioral encodings. Their view of trauma provides the linchpin for new psychic and linguistic structures such as the transgenerational phantom, an undisclosed family secret handed down to an unwitting descendant, and the intra-psychic secret or crypt which entombs an unspeakable but consummated desire. Throughout, Abraham and Torok seek to restore communication with those intimate recesses of the mind which are for one reason or another denied expression. Classics of French theory and practice: the essays in volume one include four previously uncollected works by Maria Torok. Nicholas Rand supplies a substantial introductory essay and commentary throughout. Abraham and Torok's theories of fractured meaning and their search for coherence in the face of discontinuity and disruption have the potential to reshape not only psychoanalysis but all disciplines concerned with issues of textual, oral, or visual interpretation. **The**

The Noah Myth in Twenty-first-century Cli-fi Novels Helen E. Mundler, 2022 Breaks new ground by both analyzing the literary qualities of four recent rewritings of the Noah myth and contextualizing their concern with climate change within the wider crises of the Anthropocene With the rise of concern about global warming in recent years climate change fiction or cli fi has become increasingly important both as a publishing phenomenon and as an area of academic study and research Flood narratives have become a subsection of cli fi in their own right This book proposes new readings of four recent rewritings of the Noah myth *Odds Against Tomorrow* by Nathaniel Rich *Margaret Atwood's Maddaddam* trilogy *When the Floods Came* by Clare Morrall and *The Flood* by Maggie

Gee Helen E Mundler s book takes into account the wealth of criticism that has appeared on these texts in recent years acknowledging important contributions from critics including Adam Trexler Adeline Johns Putra and Astrid Bracke However her book s strength is that it takes a new approach going beyond the topicality of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene
