Ship Labour Brit Societ 1830 1914:

Re-inventing the Ship Don Leggett, 2016-04-08 Ships have histories that are interwoven with the human fabric of the maritime world In the long nineteenth century these histories revolved around the re invention of these once familiar objects in a period in which Britain became a major maritime power This multi disciplinary volume deploys different historical geographical cultural and literary perspectives to examine this transformation and to offer a series of interconnected considerations of maritime technology and culture in a period of significant and lasting change Its ten authors reveal the processes involved through the eyes and hands of a range of actors including naval architects dockyard workers commercial shipowners and Navy officers By locating the ship s re invention within the contexts of builders owners and users they illustrate the ways in which material elements as well as scientific artisan and seafaring ideas and practices were bound together in the construction of ships complex identities

Labour in British Society Richard Price, 2024-11-01 What part has organized labour played in the history of modern Britain To what extent has British society been shaped by working class organization in industry and labour in politics A major reinterpretation of the relationship between the history of the working class and the history of British society from 1780 to 1980 *Labour in British Society* originally published in 1986 traces two recurrent themes how the pattern of social relations in industry has developed since the Industrial Revolution and how these patterns have been affiliated to national political and economic developments This book is a must read for students and researchers of history

Global Labour History Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000
