Mullins, 2018-02-05 In Native American history there are many legends about UFOs gods and aliens There has always been a connection between Native Americans and beings from other parts of the universe referred to as Star People Perhaps due to familiarity with celestial fixtures it has been easier for Native Americans to relate events they have experienced on earth with things such as the formation of the Pleiades The experience of tribal individuals with the Pleiades is featured quite prominently in legends across many tribes including Cherokee Onondaga Lakota and others It is not hard to believe they would identify an event with a star being the nature and history of tribes was to exist outdoors The night sky would be paid much more attention by one who did not live indoors Regardless of the tribe or the whether the interaction is through a god or star people there is proof that the ancient people of North America believed they have been visited by unexplainable beings from the heavens The stories in the collection tell of many different tribes and their experiences and the outcome of walking with these beings **Experimental Archaeology and Neolithic Architecture** John Hill, 2024-03-04 Our understanding of the construction processes involved with British Neolithic architecture needs further investigation The people were preliterate and there is no archaeological evidence of written or pictorial information regarding construction So how could they build complex monuments like Stonehenge without a plan This book argues that the Neolithic builders used rudimentary techniques to plan before building their monuments circa 4000 2500 BC essentially using ropes to set out the physical design of any structure they intended to build whilst finger reckoning numeracy dictated how their measured ropes were folded to position the monument s features Finally they used the sun s shadow at midday to achieve orientation To support this premise the book offers both the results of the author s rope experiments and instructions for repeating them Importantly this form of experimental archaeology delivers a unique approach for understanding the nature of complex Neolithic architecture Essentially the book explains the mental processes involved between design and construction *The History of Sedgley Park School, Staffordshire* Frederick Charles Husenbeth, 1856 *The History of Sedgley Park School, Staffordshire* Frederick Charles HUSENBETH (D.D.), 1856 *The Land Under* Frank Spadafora, 2018-02-24 The Land Under Seeing the Forest Through the Trees is a charming middle grade adventure story about a boys journey to an underground kingdom of talking animals Unhappy because of his parents financial difficulties thirteen year old Frank finds himself summoned to the Land Under a place that parallels our world but is only for animals Fallen trees linked to forests aboveground are damming up the mighty waterfall Naveah which powers the rivers that keep the three kingdoms of the underground civilization separated If Frank doesnt find a way to unblock the waterfall the northern forest kingdom will be overrun by savage animals from the jungle and safari kingdoms Its a race
