Longman World Of Animals Rhinos Pack Of 4:

Animals in Stone Alexandra Anna Enrica van der Geer, 2008 This magnificently illustrated study of a vast amount of South Asian animal stone sculptures provides an art history covering almost four and a half thousand years analyzing the art historical archeological and cultural context of animals in society

Wildlife Resources Harald H. Roth, Günter Merz, 2013-06-29 The general interest and attention paid to the use of the renewable natural resources of the world have increased greatly during the last decades This is due to the environmental dilemma into which mankind has got itself by the total disregard of ecological facts and laws the underpricing of natural resources and the overemphasis on economic development coupled with unimpeded rapid population growth and the preponderance of materialistic consumption oriented attitudes The management and use of natural resources such as forests grasslands rivers and lakes were formerly considered purely in a financial context whereas latterly a consciousness of their social function and the indirect economic benefits which can be derived from them has developed Thus as regards these traditional resources multi use concepts comprising economically oriented utilisation as well as recreational educational and social use have become widely accepted Conservation of natural resources for sustainable consumptive as well as non consumptive uses has been recognised as a key element for maintaining economic development all over the world Fortunately the industrialised countries have started to apply this principle themselves and in their technical and financial aid to the developing Third World countries This is manifest from policy documents such as the World Bank Policy on Development of Wild Lands issued in 1987

Wild Mammals in Captivity Devra G. Kleiman, Katerina V. Thompson, Charlotte Kirk Baer, 2010-08-15 Zoos aquaria and wildlife parks are vital centers of animal conservation and management For nearly fifteen years these institutions have relied on Wild Mammals in Captivity as the essential reference for their work Now the book reemerges in a completely updated second edition Wild Mammals in Captivity presents the most current thinking and practice in the care and management of wild mammals in zoos and other institutions In one comprehensive volume the editors have gathered the most current information from studies of animal behavior advances in captive breeding research in physiology genetics and nutrition and new thinking in animal management and welfare In this edition more than three quarters of the text is new and information from more than seventy five contributors is thoroughly updated The standard text for all courses in zoo biology Wild Mammals in Captivity will in its new incarnation continue to be used by zoo managers animal caretakers researchers and anyone with an interest in how to manage animals in captive conditions

Wilderness Management Chad P. Dawson, John C. Hendee, 2025-02-20 For 45 years this classic textbook on wilderness management has served as the most comprehensive information available on the stewardship and protection of wilderness resources and values The seventeen chapters outline the history legislation policies planning and stewardship carried out by the four federal land managing agencies Forest Service National Park Service Bureau of Land

Management and Fish and Wildlife Service entrusted with stewardship and protection of the more than 110 million acre National Wilderness Preservation System Written for wilderness and wildlands planners managers stewards advocates and educators this revised fifth edition builds on the material of the first four editions and extensively updates chapters on international wilderness managing for appropriate wilderness conditions wilderness ecosystems fire in wilderness ecosystems ecological impacts of wilderness recreation and their management and wilderness visitor management This textbook is an invaluable guide for resource managers students scientists policy makers and for wilderness advocates and visitors around the world **Subject Guide to Children's Books In Print, 1996** R R Bowker Publishing,1996 Zoo and Aquarium History Vernon N. Kisling, Jr,2022-07-11 Wild animals have been housed in zoos and aquariums for 5 000 years fascinating people living in virtually every society Today these institutions are at a new milestone in their history This second edition of Zoo and Aquarium History takes the reader on a journey through the transition of private collections to menageries to zoos then zoological gardens and more recently conservation centers and sanctuaries Under the direction of Vernon N Kisling an expert in zoo history an international team of authors has thoroughly updated the only comprehensive global history of animal collections menageries zoos and aquariums The resulting book documents the continuum of efforts in maintaining wild animal collections from ancient civilizations through today explaining how modern zoos have developed their mission statements around the core aims of conservation education research and recreation This new edition pulls together regional information including new chapters on zoological gardens of Canada Latin America China Israel the Middle East and New Zealand along with the cultural aspects of each region to provide a foundation upon which further research can be based It presents a chronological listing of the world s zoos and aquariums and features many never before published photographs Sidebars present supplementary information on pertinent personalities events and wildlife conservation issues The original Appendix has been expanded to include over 1 200 zoos and aquariums providing an invaluable resource This is an extensive chronological introduction to the subject highlighting the published and archival resources for those who want to know more Children's Books in Print, 2007 ,2006 Conservation in Africa David Anderson,Richard H. Grove,1987 This book provides a new inter disciplinary look at the practice and policies of conservation in Africa Bringing together social scientists anthropologists and historians with biologists for the first time the book sheds some light on the previously neglected but critically important social aspects of conservation thinking To date conservation has been very much the domain of the biologist but the current ecological crisis in Africa and the failure of orthodox conservation policies demand a radical new appraisal of conventional practices This new approach to conservation the book argues cannot deal simply with the survival of species and habitats for the future of African wildlife is intimately tied to the future of African rural communities Conservation must form an integral part of future policies for human development The book emphasises this urgent need for a complementary rather than a competitive approach It covers a wide range of topics important to this new

approach from wildlife management to soil conservation and from the Cape in the nineteenth century to Ethiopia in the 1980s It is essential reading for all those concerned about people and conservation in Africa *The Zoological Record* ,1985
 Zoological Record is published annually in separate sections The first of these is Comprehensive Zoology followed by sections recording a year s literature relating to a Phylum or Class of the Animal Kingdom The final section contains the new genera and subgenera indexed in the volume Each section of a volume lists the sections of that volume **Forthcoming Books**
