Michael Downs,2022-03-08 At the zoo animals in action aren t always what they seem When you re at the zoo do you see scary crocodiles Chimpanzees being silly Look again A young narrator makes the rounds of a zoo pointing out that animals have special reasons for doing what they do The crocodile is protecting her babies and the chimpanzees are learning by trying new things Animals protect play bathe and

communicate in different ways Even the zookeeper isn't just a zookeeper she's the narrator's mom A picture book that challenges kids to think beyond their first impressions in a warm and eye-opening read perfect for storytime **Zooland** Irus Braverman, 2012-11-28 This book takes a unique stance on a controversial topic zoos Zoos have their ardent supporters and their vocal detractors And while we all have opinions on what zoos do few people consider how they do it Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators as well as animal activists to offer a glimpse into the otherwise unknown complexities of zooland Zooland begins and ends with the story of Timmy the oldest male gorilla in North America to illustrate the dramatic transformations of zoos since the 1970s Over these decades modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education Zoos naturalize their spaces classify their animals and produce spectacular experiences for their human visitors Zoos name register track and allocate their animals in global databases Zoos both abide by and create laws and industry standards that govern their captive animals Finally zoos intensely govern the reproduction of captive animals carefully calculating the life and death of these animals deciding which of them will be sustained and which will expire Zooland takes readers behind the exhibits into the world of zoo animals and their caretakers And in so doing it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman Zoocide Sue Coe, 2018-10-30 The issue of zoos is not about treatment but use not about reform but abolition Zoos often pay lip service to education enrichment and conservation but the cruelty is systemic and follows from the idea of animals as commodities As long as they are property animals will continue to be treated as things with no rights who can be caged bred abused or killed for a zoo's profit and the public's entertainment In Zoocide Sue Coe applies her bold and breathtaking artistic style to confront the institution of zoos exposing them as a form of capitalist cruelty that is enmeshed with the violence of war colonialism and ecological destruction *Entangled Encounters at the National Zoo* Daniel Vandersommers, 2023-09-29 Founded amid the urban commotion of Washington DC before the dawn of the twentieth century the National Zoological Park opened to preserve teach and conduct research about the animal world Entangled Encounters at the National Zoo is a study of this important cultural landmark from 1887 to 1920 Centered on the animals themselves each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex entangled relationships between humans and animals Daniel Vandersommers's goal is twofold First through narrative he shows how zoo animals always ran away from the zoo This is meant literally animals escaped frequently but even more so figuratively Living breathing historical zoo animals ran away from their cultural constructions and these constructions ran away from the living bodies they were made to represent The author shows that the resulting gaps produced by runaway animals contain concealed distorted and erased histories worthy of uncovering Second Entangled Encounters at the National Zoo demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of

American science culture and conservation during the Gilded Age and Progressive Era Between the 1880s and World War I as intellectuals debated Darwinism and scientists institutionalized the laboratory zoological parks suddenly appeared at the heart of nearly every major American city captivating tens of millions of visitors Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty first century *Look Who's There! their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves **Ready to Go Guided Reading: Analyze, Grades 1 - 2** Moore,2018-02-21 Guided Reading Analyze for first and second grades makes lesson planning easier with six sets each of six nonfiction readers There are 36 readers two each for below on and above level student readers This teacher resource book helps engage students as they learn about Japan zoos pets and more Ready to Go Guided Reading Analyze offers the essentials for an effective comprehensive guided reading program for first and second grades This book includes leveled readers that cover high interest topics prompts to encourage students to work with the text and text features discussion guides graphic organizers and an observation sheet The readers are separated into three readability levels and designed to keep students attention Various callout boxes direct students to apply guided reading strategies to the texts such as scanning for meaning or word work Each reader concludes with a writing prompt The 12 book Ready to Go Guided Reading series for grades 1 6 includes everything you need for your guided reading lesson plans and groups Each 80 page book is essentially a guided reading set containing 36 total readers six discussion guides and three reproducible pages Each grade span includes four books focusing on the following reading comprehension strategies Analyze Determine Importance Synthesize Visualize The readers contain short nonfiction texts and text features such as vocabulary banks photographs charts and maps
