Looking Backward And Looking Forward Perspectives:

Looking Forward, Looking Back Jana Pohl, 2011 How is the life altering event of migration narrated for children especially if it was caused by Anti Semitism and poverty What of the country of origin is remembered and what is forgotten and what of the target country when the migration is imagined there a century later Looking Forward Looking Back examines today's representation of Jewish mass migration from Eastern Europe to America around the turn of the last century It explores the collective story that emerges when American authors look back at this exodus from an Eastern European home to a new one to be established in America Focusing on children's literature it investigates a wide range of texts including young adult literature as well as picture books and hence sheds light on the dynamics of the verbal and the visual in generating images of the self and other the familiar and the strange This book is of interest to scholars in the field of imagology children's literature cultural studies American studies Slavic studies and Jewish studies *Bullying in Schools* Peter K. Smith, Debra Pepler, Ken Rigby, 2004-10-21 Bullying in Schools is the first comparative account of the major intervention projects against school bullying that have been carried out by educationalists and researchers since the 1980s across Europe North America and Australasia Working on the principle that we can learn from both successes and failures this book examines the processes as well as the outcomes and critically assesses the likely reasons for success or failure With contributions from leading researchers in the field Bullying in Schools is an important addition to the current debate on tackling school bullying *Looking forward, looking back* Canada. Royal Commission on Aboriginal Peoples, 1996 As the first part of a set of volumes examining the evolution of the relationship among Aboriginal peoples and the Canadian government this volume studies that relationship from the earliest times to the present and examines policies that have affected that relationship The volume begins with a demographic profile of Canada's current Aboriginal population and then reviews the history of government Aboriginal relations in four stages before European contact the early contact and co operation period displacement and assimilation and the latest stage of negotiation and renewal of the relationship The volume then examines false assumptions involved in the government Aboriginal relationship and discusses four policies negatively affecting this relationship The Indian Act the residential schools policy the relocation of Aboriginal communities and the treatment of Aboriginal military veterans The volume ends with principles for building the foundations of a renewed relationship **Hitchcock's Moral Gaze** R. Barton Palmer, Homer B. Pettey, Steven M. Sanders, 2017-01-30 In his essays and interviews Alfred Hitchcock was guarded about substantive matters of morality preferring instead to focus on discussions of technique That has not however discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty fidelity jealousy courage love and loyalty Through discussions and analyses of such films as Strangers on a Train Rear Window Vertigo North by Northwest and Frenzy the contributors to this book strive to throw light on the way Hitchcock depicts a moral if not amoral or immoral world Drawing on perspectives from film studies

philosophy literature and other disciplines they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema *Looking Back, Looking Forward* John Pepper, 2017-08-28 [Austrian Capital Theory](#) Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the productive resources that will produce those consumptions goods The entrepreneur is a ubiquitous calculating presence In a review of the development of Austrian capital theory by Carl Menger Eugen von Böhm-Bawerk Ludwig von Mises Friedrich Hayek Ludwig Lachmann as well as recent contributions the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory **Global Business Strategy: Asian Perspective (Second Edition)** Hwy-chang Moon, 2022-01-07 As the second edition of Global Business Strategy this book provides novel insights on how a firm can formulate a successful approach toward its global business from both the Western and Asian perspectives In this respect the book's overall goal is to bridge the gap between these two different viewpoints This second edition includes more recent business theories techniques and cases within the field of global business strategy Specifically it includes new theories and techniques like creating shared value CSV the global value chain platform strategy and business ecosystem They are shown to be important tools for enhancing competitiveness and maintaining sustainability among firms in today's rapidly changing international business environment This is very much evident today given the critical challenges arising from the trade tensions between the United States and China emerging technologies such as artificial intelligence and digital transformation and the unprecedented disruptions brought on by the coronavirus pandemic We hope that this book will serve as a useful companion for students business practitioners policymakers and the more general readers interested in issues related to competitiveness and business *Language for Special Purposes* Felix Mayer, 2001 [Defensive Expectations](#) Liviu Voinea, 2020-12-09 This book explains why inflation remains subdued after recessions based on three revolutionary concepts defensive expectations compensatory savings and cumulative wage gap When income falls consumption falls and savings rise as people rebuild their past wealth Households will not spend more until they fully recover what they lost The revised Phillips Curve explains that current inflation depends on the cumulative difference between current income and past income This new theory is tested and validated by data for US since 1960 to date and for 35 OECD countries from 1990 to date A number of policy implications are derived from these results The book calls for an optimal policy mix between monetary policy and fiscal policy it also discusses the coronavirus crisis as an extreme case of defensive expectations
